

CAPABILITY STATEMENT

Core Competencies

We are the leading provider of In-Building Solutions for two-way radio systems for Public Safety and Commercial Users. We pride ourselves on providing caring expert consultation and professional installation services to help Project Managers and Developers meet these goals, and get their C.O. for new and retrofit construction.

- ✓ RF Site Survey to test the radio signal strength of your building
- ✓ RF Site Survey Report to find out if your building meets the current radio signal level criteria for the City
- ✓ Engineering and Design (Certified iBwave BDA system design to map out the complete coverage solution)
- ✓ BDA and DAS Equipment and Installation (that will comply with the criteria of the AHJ throughout commissioning of the system)
- ✓ BDA and DAS Maintenance and Repair Services (to help keep the system performing at an optimal level)
- ✓ BDA and DAS Equipment and Installation (that will comply with the criteria of the AHJ throughout commissioning of the system)
