CAPABILITY STATEMENT

PLANNING | ENGINEERING | ENVIRONMENTAL | PERMITTING | INSPECTION

CORE COMPETENCIES

DMC is a multidisciplinary engineering and environmental consulting firm specializing in **navigational and restoration dredging, public and community parks, waterfront structures and shoreline stabilization.**

DMC **civil engineering services** include drainage for stormwater & erosion management, and structures such as docks, piers, boardwalks, bulkheads/seawalls, boat ramps, rock revetments, and living shorelines.

Environmental services include wetland delineation, mitigation planning, resource & protected species surveys. We work with private & public entities, including municipal & county governments, as well as state & federally funded projects.

KEY SERVICES: Waterfront and Community Parks, Waterfront Structures, Armoring, Shoreline Stabilization, Drainage and Stormwater, Permitting, Engineering Design, Construction Inspection, and Environmental Resource Surveys.
