Earth Resources, Inc.

Earth Resources, Inc. is a FDOT certified Disadvantaged Business Enterprise based in Tampa, Florida specializing in environmental consulting. The company was formed in 2005 by Nancy Scott, President. The company's areas of expertise include ecological studies and analysis, protected species surveys and permitting, habitat restoration, wetland monitoring, and preparation of NEPA documents. Earth Resources specializes in serving public sector clients. Over 90% of our clients are local and state government agencies.

CORE COMPETENCIES

Protected Species Surveys and Wildlife Studies

Gopher tortoise, scrub jay, red cockaded woodpecker, burrowing owl, sand skink, crested caracara, wood stork and others

Wetland Delineations

Experts in both the State of Florida Unified Methodology and the U.S. Army Corps of Engineers Manual

GIS Mapping

Aerial imagery interpretation for habitat mapping, wetland delineation and development planning

NEPA Documents

PD&E's, EA's, and EIS's

State and Federal Environmental Permitting

State of Florida ERP, U.S. Army Corps of Engineers 404 & Section 10, Water Use Permitting and UMAM and WRAP

PAST PERFORMANCES

Design-Build Contract Nine Mile Road from 10A (Mobile Highway) to SR 297 (Pine Forest Road) (281605), Escambia County. This project involves the multilane construction of approximately 5.8-miles of roadway. Earth Resources is assisting with the protected species surveys and permitting, wetland delineations and environmental permitting.

S.R. 60 from Turkey Creek Road to Clarence Gordon Jr. Road (423053-1), Hillsborough County. Earth Resources was responsible for wetland delineations and environmental permitting for the resurfacing of 4-miles of roadway including the construction of sidewalks on both the north and south sides of the roadway.

SR 70 from East of Jefferson Avenue to East of CR 29 in Highlands County, PD&E Study (414506-122-01). This project involves a study for the widening, rehabilitation or replacement of State Road 70. Earth Resources is assisting the engineer with evaluating the effect on wetlands, protected plant and wildlife species including cover board surveys for sand skink and protected flora surveys over four seasons.

District 7 District-Wide Gopher Tortoise Support Services. Earth Resources' Authorized Gopher Tortoise Agents assisted with conducting District-wide gopher tortoise services including surveys, permitting and relocations for various projects on a work assignment basis.
