Core Competency

Greywood Consulting Corp. is a minority, woman-owned company that provides program/project management services. We are a team of consultants that specialize in technology implementation and IT service migration projects. Our consultants focus on assisting companies to deliver technology efficiently, to maximize the return on their IT investment. We also provide post implementation support services to help a company's users utilize technology effectively.

Past Performance

- ✓ Soitron UK -- IT Service Management tool delivery. Client migration from legacy tools to new tools.
- ✓ HP Enterprise (DXC Technology) -- Implementation (& transformation) of new technologies for enterprise clients.
