

CAPABILITY STATEMENT

Toll International, LLC (Toll), is DBE & MBE certified through FDOT and NYDOT. Our team has extensive, broad, and in-depth experience with a variety of privately and publicly owned companies, and small to large scale complex capital construction programs.

We have an impressive portfolio of regional capital program construction projects, ranging from infrastructure and building projects, to storm mitigation and crew/equipment deployment to our customers throughout the United States, Mexico, and Brazil.

Toll and each of our individual resources have many years of experience in **Project Management and Construction Management, Project Delivery Services, Program Management, Proposal Scheduling Services, Life-Cycle-Cost Analysis, Return on Investment (ROI) Analysis, Monitoring and Reporting, Business Process Review, Technology Optimization, Scheduling and Project Controls**. The vast majority of our projects have included the integration of data from existing legacy systems, and the successful migration of processes from existing to new or upgraded data systems.
