

CAPABILITY STATEMENT

Utility Maintenance Group, LLC, is a veteran-owned business servicing the Central Florida area since 2002, specializing in construction management and utility rehabilitation and inspection.

Utility Maintenance Group, LLC offers our clients nationally added value by delivering one-stop services with the best combination of performance, costs, and availability for utility rehabilitation services. We help our clients' by offering a variety of options when it comes to utility maintenance, from sewer rehab to

installation, which allows us to meet and exceed each client's mission. We take ownership of every project, enacting exceptional leadership to coordinate project activities to ensure we meet or exceed performance goals.

We foster collaborative and teaming relationships to increase our market share and be more competitive, which reduces clients' risk by sharing responsibilities with other team members. We build relationships with industry partners to deliver construction services and finished products on schedule.
