

from iNTEGRATION to iNNOVATION through DESIGN

CAPABILITY STATEMENT

i2iglobaltechnology.com

CORE COMPETENCIES

i2i Global Technology Solutions LLC (i2i) is a DBE Certified, professional technology management and systems design consulting firm specializing in security and structured cabling systems. We are a small independent consulting practice, rich in technology not overhead. In addition to our core staff, i2i can call on the services of a talented group of consultants as the need arises, allowing us to be cost effective, flexible, and responsive to client needs.

OUR IT AND SECURITY DESIGN & CONSULTING SERVICES INCLUDE:

PLANNING

- Corporate Standards
- Conceptual Design
- Requirements Capture
- Proof of Concept
- Threat/Vulnerability Assessment
- Independent Design Audit
- Project Management

DESIGN

- Budgetary Projections
- Integrated System Design
- Drawings & Specifications
- Technical Evaluation

PROJECT

- Bid Evaluation
- Drawing Review
- Contract Negotiation
- Construction Management
- Final Acceptance Testing
- Pre-closeout Program
- Staff Augmentation

DIFFERENTIATORS

- i2i provides innovative, tailored, client centered solutions for security and structured cabling to a world that is continuously changing.
- i2i enables our customers to meet rapidly changing challenges and regulations by delivering innovative proven solutions that work with business operations to help improve business flow.
- i2i is committed to client satisfaction and design excellence.
