

POW!

HIGH VOLTAGE CABLE CLEANER

*For Splicing & Terminating Cable
Quickly Removes Grease & Oils*

Non-Flammable

No Residue

Non-Conductive

5016 POW

12 - 20 oz cans/case

Safer replacement to n-Propyl Bromide and a non-flammable alternative for trichloroethylene and perchloroethylene. Dries quickly, leaving no residue. The low-odor, non-flammable, non-conductive, non-corrosive and non-staining formula cleans, degreases and removes contaminants from high voltage cables. Powerful spray cuts through and removes dirt, grime, adhesive, corrosion proof coatings, and other contaminants making POW ideal for use when splicing and terminating cable.
