

INDUSTRIAL Hand Care Program

**TRUSTED
PERFORMANCE.
SUPERIOR
VALUE.**

In industrial environments, workers' hands can take a beating. They are exposed to many tough industrial soils, stains and other chemicals while on the job. It is important to help protect your employees from these conditions by providing effective and easy-to-use skin care solutions. Kutol[®] Pro offers a 3-Step Hand Care Program to help prepare, clean and restore dirty, dry hands.

DERMATITIS

Worker Skin Health

Occupational dermatitis, the most prevalent industrial skin disease, is the inflammation of the skin caused by contact with damaging substances such as solvents, chemicals, irritants or sensitizers (allergens). Soreness, redness, and intense itching occur. In work environments where there is risk of exposure, proper skin care products should be used.

Workers should use protective gloves when necessary and wash their hands regularly, including before and after wearing gloves. Special hand creams, applied before and after work, help maintain proper skin condition. **The combination of cleansing hands and applying hand creams helps reduce the risk of occupational dermatitis.**

Three Steps to Better Hand Health

STEP 1 PREPARE

Use **BEFORE WORK Hand Cream** at the beginning of the day to help repel and make it easier to wash away industrial soils from the skin.

STEP 2 CLEAN

Use a **Heavy Duty Hand Cleaner or Hand Wipe** to scrub away tough industrial soils throughout the workday.

STEP 3 RESTORE

Use **AFTER WORK Hand Cream** at the end of the day to help soothe, moisturize and restore dry hands.

Kutol[®] Pro outperforms the competition on heavy duty soils:

GREASE

OILS

AUTOMOTIVE FLUIDS

PAINTS

Kutol® Pro hand cleaners outperform the competition in removing the toughest industrial soils. With a wide selection of scrubbers, colors and fragrances, there is a product for every industrial application!

DuraView® Heavy Duty Wall Mount System

- HDPE (High Density Polyethylene) 2 L and 4 L refill cartridges are extremely durable
- Withstands tough industrial use
- Same dispenser for 2 L and 4 L cartridges
- Translucent cartridge allows for easy viewing of soap level
- Easy refill – just remove the recyclable cartridge and lock the new one in place

Other Dispensing Options

All of our heavy duty hand cleaners are available in flat top gallons. Formulas are also available in convenient pump gallons, portable 22 oz squeeze bottles and 3.5 L large capacity refills.

The Science Behind Heavy Duty Hand Cleaners

Solvents...reduce the surface tension of water, disperse soils and make unwanted particles easy to remove.

Surfactants...help water spread out and attach to dirt molecules, enabling lifting and removal of dirt.

Natural scrubbers...naturally-derived pumice, walnut shells and perlite, reach tiny places and scrub away tough soils.

Synthetic scrubbers...wax-based paraffin is biodegradable and performs as well as plastic scrubbers.

Low VOCs...all of our hand cleaners are under the 1% VOC (Volatile Organic Compound) limit, thus evaporate easily and are better for the environment.

Kutol® Pro hand cleaners have been precision-formulated with just the right blend of dirt removers!
