WARNING-HAZARDOUS

DO NOT MACHINE REVERSE SPIRAL TWISTED BRUSHES!

Reverse twisting will cause brush to unwind, wire and pipe nipples to loosen.

Safety Note:

Observe all common safety practices:

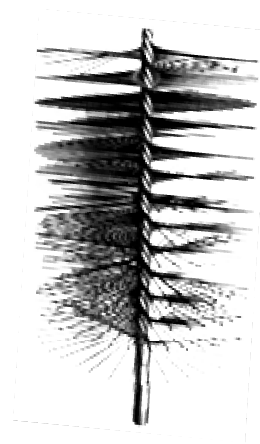

- Wear goggles & protective clothing
- Keep machine guards in place
- Operate within speed restrictions

Flue Brushes

Galvanized DS/SS

Double-Stem, Single-Spiral (DS/SS)

- Bright oil tempered twisted-in-wire
- Mounted on rugged galvanized stem wire
- Brush part is 6-1/2"
- Overall length is 9-1/2"
- Fitted with 1/4" standard threaded pipe nipple
- Brushes are actual size as listed
- Normally ordered using inside diameter

Condenser Tube Brushes

Condenser Tube Brushes

- Expanded to include 1/4" diameter brushes
- Graduated .006" on small diameter brushes to .012" on larger sizes
- Provide consistent cleaning power
- 1/8" standard threaded pipe nipple (NPT)
- 3/8" and 1/4" diameter, have an internal thread of 5/16"-18"
- Brush length is 4-1/4"
- Overall length is 7-1/2"
- All brushes are actual size as listed
- Normally ordered using inside diameter
- Standard packs vary

Condenser Tube Brush Accessories

- Best utilized with our 36" aluminum or fiberglass handle and extensions
- Lightweight and very sturdy
- Connect to any desired multiple length of 36," permitting condenser tube cleaning with relative ease
- Available with 1/8" or 1/4" connections

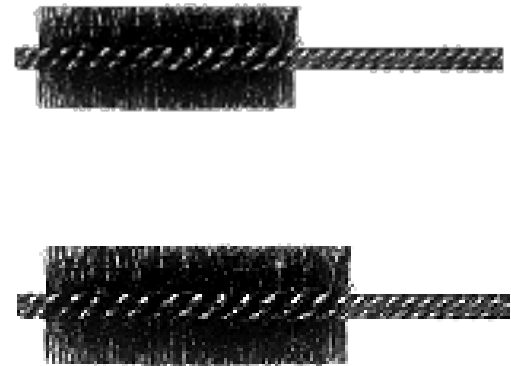

MFR #	Description	Threading	Std Pack	Control #
65015	36" Extension	Fiberglass 1/8" NPT	6	4111002
65001	"T" Handle	3"	6	4111001

Power Driven Tube Brushes "Series 200"

- Double-stem, double-spiral tube brush
- Straight shank end for use with power tools
- Highly effective for heavy duty cleaning and deburring
- Brush part is 2-1/2"
- Overall length is 5-1/2"
- Mounted on tempered steel wire
- Best selected with a brush size of slightly smaller or equal diameter than the tube to be cleaned

Refacing Discs

PSA Refacing Discs

PSA (*pressure sensitive adhesive*) discs provide a fast, efficient method for refacing rotary shouldered connections on drill pipe, drill collars, etc...Adhesive-backed discs adhere to face plates, but remove quickly and easily to speed changing time. These discs are stocked in 36 grit aluminum oxide papers to resist loading and shelling under certain operating conditions.

Item #	Description	Std Pkg
