TASCO Hearing Protection

TASCO Corp, a market leader in hearing protection for over 40 years, is now part of the Gateway Safety family! Gateway Safety is very excited to offer TASCO products – including its industry-leading Tri-Grip® reusable earplug, top-performing SoftSeal™ disposable earplug and benchmark line of ‘Made in the USA’ earmuffs. TASCO products feature patented designs, independently tested quality and superior comfort features - at value pricing - making TASCO a ‘perfect fit’ with Gateway Safety.

TASCO History

In 1975, Thomas A. Scanlon started TASCO in Rhode Island with just a few products – three earmuffs and one military earplug – along with a commitment to product development. Tom’s son, Sean, joined the business in 1988 and became president in 1998. Under Sean’s leadership, TASCO maintained its commitment to innovative product designs and high-quality manufacturing, and grew into a market leader in hearing protection solutions.

When Sean decided he wanted to retire, he turned to another family-owned company, Gateway Safety, to entrust with the future of TASCO. And, since the sale, Gateway Safety has been investing in several areas to roll out our expanded hearing protection line to our customers, including:

- Expanding TASCO’s U.S. manufacturing capacity in Rhode Island,
- Developing new, co-branded product packaging and marketing support materials, and
- Adding warehouse space in Gateway Safety’s Ohio plant for TASCO ‘finished goods’ inventory - to provide faster, integrated shipping to our customers.

These investments will enable us to provide TASCO’s top-quality products – with the same high level of service and channel support that Gateway Safety’s distribution partners associate with us.

TASCO Rollout

We couldn’t be more excited about this opportunity for Gateway Safety . . . and for you, as our current and potential customers. This catalog includes our initial TASCO product offering, with additional products becoming available in the next several months. As you look through this catalog, please contact us or your local sales representative with any questions or to request product samples.

All TASCO hearing protectors are tested in an independent NVLAP certified facility to ANSI S3.19-1974.

TASCO’s innovations include patented products, like the industry-leading Tri-Grip earplug.

Made in USA

The majority of TASCO products are made in the USA.

TRI-GRIP® REUSABLE EARPLUGS

The industry choice in reusable earplugs!

- Independently tested 27 Noise Reduction Rating — the highest third-party tested reusable earplug rating available.
- Patented, three-sided stem for stable, comfortable grip.
- Semi-rigid stem insert, bonded with adhesive, provides easy insertion without too much pressure.
- Soft, curved flanges help the plugs conform to the shape of the ear canal for all day comfort.
- Also available in smaller size and metal detectable versions.

946880	9021	Tri-Grip MTeK JR	Junior	Dark Blue	Metal Detectable	Dark Blue

Bonded, semi-rigid stem for easier insertion

Uncorded Versions

All Tri-Grip earplugs are also available uncorded! For uncorded part #s, change the 5th digit in any above Gateway Safety part # to "0".

Soft, curved flanges help Tri-Grip fit the ear canal naturally

PlugPAX™ Carrying Cases

All Tri-Grip earplugs are available packaged in PlugPAX™ carrying cases for convenient storage. For PlugPAX part #s, change the 6th digit in any above Gateway Safety part # to "1".

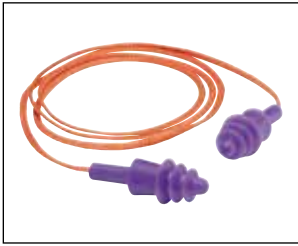

MTeK™ Metal Detectability

MTeK is an exclusive technology that provides metal detectability through metal-infused resin. This material is molded into the product during the manufacturing process.

Tri-Grip offers a full line of reusable earplug solutions in two sizes and multiple colors.
