- Largest U. S. Producer of High Quality Drill Bits
- Coast to Coast Warehouses, including Canada
- Same Day Shipping on orders placed before 10:30AM Central Standard Time
- All Drill Bits meet or exceed the A.N.S.I. and N.A.S. Specifications

Tru-Cut Manufacturing is a family owned and operated U.S. Corporation, established in 1958 and devoted to serving our valued customers. Our state-of-the-art manufacturing facility in Cary, Illinois is producing the finest **American Made** drill bits obtainable anywhere.

Our C.E.O. Mr. Joseph Lebar, has been involved with the manufacturing of precision drill bits since 1951. His field credentials speak for themselves! Through hard work and as plant manager of Republic Drill from 1956 to 1962, Joe earned the reputation as one of the most sophisticated and knowledgeable "Drill Men" in the United States. Joe's proven dependability, backed by more than 40 years of hands-on experience, combined with Tru-Cut's state-of-the-art production Technology, continues to impact the industry.

At Tru-Cut, we take our work very seriously and know, without exception, the product quality we deliver is second to none. We maintain the competitive edge on small orders, yet provide the same quality products to some of the largest corporations in the United States as well. It's no accident that we have sustained healthy business growth for nearly 50 years in spite of fierce foreign competition. Our satisfied customers extend from coast to coast throughout North America, and the list continues to grow.

*TriCarb<sup>®</sup>* grade tip guarantees longer life with faster penetration due to increased chiselling action.

*ThunderTwist<sup>®</sup>* flute design, combined with a copper brazing alloy creates the most reliable drill bit on the market.

Made with the highest quality American chrome-molybdenum-nickel steel available.

Vacuum heat treated, and shot-peened for superior strength under the roughest conditions.

*TriCarb*® carbide tip design combined with additional carbide bullets creates the **VIPER HEAD**® design which guarantees longer life and creates the **Fastest Drilling Quad Design in the World!**

*ThunderTwist*® flute design combined with the copper brazing alloy creates the most reliable drill bit on the market.

Made with the highest quality American chrome-molybdenum-nickel steel available.

Vacuum heat treated, and shot-peened for superior strength under the roughest applications.

# ThunderTwist<sup>®</sup> SDS-MAX

## VIPER HEAD<sup>®</sup>

**Rebar Resistance:** The VIPER HEAD<sup>®</sup>'s rounded 'Fangs' bounce off steel reinforcement rods, allowing the operator to switch to our rebar drilling system before any major damage is done to the drill bit.

# FORGED HAMMER TOOLS

Our chisels are forged from the highest quality Chrome-Vanadium Steel.

Tru-Cut chisels are heat treated in a high tech fluidized bed hardening and carbonizing furnaces. This step is followed up with an aggressive shot blasting process to improve stress resistance on the surface. Special care is taken in surface preparation and lacquering to ensure a quality finish.

Our in house metallurgical department continuously monitors steel supplies, and manufacturing procedures to make sure they meet or exceed our high quality standards.

Traditional forging skills, such as hammer work on chisels, and drop stamp forging of cutting blades, are complimented by sophisticated technology applied to the precision machining of our chisels.

Hex shank eliminates spinning in all hammer drill chucks.

Optimizes the benefits of a keyless chuck.

Longer life at higher speeds due to “Super H” grade carbide tips.

# THE PRAXIS SYSTEM

The smallest screw together bit extension system in the world! With Tru-Cut innovation comes a very cost effective way to make a drill bit from 19" long, to 7 feet or more! Add 18" extensions to make a bit of your desired length, and replace only the parts that wear!

SHM5545	1-1/4 to 6" Mandrel	7/16" Hex

Tru-Cut's holesaws can be used for a variety of applications in metal cutting, plumbing, electrical, construction, maintenance, and automotive trades.

Our bimetal HSS holesaws cut everything from aluminum, brass, copper, cast iron, and stainless steel, to wood, and plastic. These holesaws can be used in air, and electric drills, boring mills, drill presses, lathes, portable magnetic drills, and radial drills.

Tru-Cut's holesaws and Mandrels are interchangeable with other national brands.

## Hole Saw Pilot Bits

Part #	Description
PIL	4" Pilot Bit for Bi-Metal Hole Saws
PILSH	2-1/2" Pilot Bit for Bi-Metal Hole Saws
PILCARB	4" Carbide Tipped Pilot Bit for Hole Saws

## Hole Saw Kits

Includes High Density Polyethylene Case

### #SHH51 Handyman's Kit

Contains **FIVE** popular holesaws for a variety of installation and maintenance applications. Includes 7/8", 1", 1-1/8", 1-1/4", & 1-1/2" holesaws, and SHM5514 Mandrel, and SHA5511 Mandrel adapter

### #SHL62 Locksmith's Kit

Contains **SIX** holesaws for installation of popular locks and deadbolts. Includes 7/8", 1", 1-1/8", 1-1/4", 1-1/2", & 2-1/8" holesaws, SHM5514 & SHM5545 Mandrel, plus a SHA5511 Mandrel adapter.

### #SHE62 Electrician's Kit

Contains **SIX** holesaws most often needed for pipe and conduit entrance. Includes 7/8", 1-1/8", 1-3/8", 1-3/4", 2", & 2-1/2" holesaws, SHM5514 & SHM5545 Mandrel, plus a SHA5511 Mandrel adapter.

### #SHP62 Plumber's Kit

Contains **SIX** holesaws often used for pipe and tap entrance. Includes 3/4", 7/8", 1-1/8", 1-1/2", 1-3/4" & 2-1/4" holesaws, SHM5514 & SHM5545 Mandrel, plus a SHA5511 Mandrel adapter.

### #SHJ92 Journeyman's Kit

A deluxe Plumber's Kit containing **NINE** holesaws covering tap sizes 1/2" to 2", and pipe entrances from 3/8" to 2". Includes 3/4", 7/8", 1-1/8", 1-1/2", 1-3/4", 2", 2-1/4", & 2-1/2" holesaws, SHM5514 & SHM5545 Mandrel, plus a SHA5511 Mandrel adapter.
