John Foley Masonry Team:

Just wanted to extend an email of appreciation to your team. It was a pleasure to work with your masonry team for the Cherryview Elementary Project. Your hardwork and "Get it Done" attitude helped significantly to the success for the Cherryview Elementary Project. We worked thru very wet conditions, Muddy conditions and still made schedule and worked as a team. Your ability to man up when needed and work OT to get things done was greatly appreciated, Top Notch in Fact! I would like to also personally thank your Foreman (Tyson Stewart, John Foley, Drew Stewart), your operators (joe corbett), laborers, Project Manager (Jevon Foley) and masons. They did everything that was asked and did a nice job cleaning up when finished. We worked thru challenges on SWPPS with the city, Brick selection and delivery challenges, and general construction issues with an open mind and quick response which minimized down time and scheduling losses. Thanks again and I would be happy to recommend tell others about your John Foley Masonry Teams dedication and quality. I hope we can work together again! The Loeffler Construction Team.

Conrad Hoag
