RE: LETTER OF RECOMMENDATION

To Whom it may concern,

I recently had the opportunity to work with the team at John Foley Masonry on a complicated, multi-phase renovation project and have been very impressed by their individual and company wide performance. Their field staff were able to keep pace with and adjust to a constantly evolving schedule that demanded coordination and collaboration with the other trades. The most notable aspect of the speed of their construction, is that neither the quality, safety, nor cleanliness of their crews decreased as a result of this fast-paced work. When the schedule was condensed, they continued to execute their work safely and in a professional manner.

This solid performance in the field was complimented by the office support at every level, from accounting to project management to safety oversight. All the John Foley Masonry personnel that I have worked with on this project have been engaged, proficient, and prompt in executing their scope of work.

I highly recommend John Foley Masonry to any general contractor or owner group and look forward to the opportunity to work with them again on future projects.

Sincerely,

A handwritten signature in black ink, appearing to read "Justin Rice".
