

Level 1 Certificate Program

PSP Certify™ is a comprehensive program offered for those looking to develop and strengthen their understanding of Patient Support Programs (PSPs). The only program of its kind, PSP Certify™ aims to enhance professionals' confidence and skills to effectively manage patient programs. The first stage of the PSP Certify™ curriculum is the Level 1 Certificate program which has been rigorously designed and trialed by PSP professionals and professional development experts. This self-guided, virtual program is the ideal development opportunity for those new to the PSP landscape, those looking to transition to the PSP space or those wanting to grow within their PSP professional role.

Upon successful completion, participants will receive a Level 1 certificate and a digital badge to share with their colleagues.

PSP Certify™ Level 1 Certificate Topics

The foundational competency-based content for the Level 1 Certificate program addresses a wide range of topics relevant to PSP professionals in their day-to-day roles. The ten module, self-guided learning curriculum includes:

- | | |
|------------------------------------|---------------------------------------|
| 1. The PSP Landscape & Environment | 6. Introduction to Risk Management |
