---

Morning Dr. Beth,

Hamm (#5371) is ready for neuter

Joey (#44083)- Successfully muzzled twice and would like to get scheduled for neuter. If we could do the exam at the time of neuter that would be great to avoid aversions to the muzzle beforehand.

Sunny (#53423) is ready for spay

Domino (#42035) – I would like to explore anti-anxiety medication, or similar, for Domino. He is progressing, but very slowly. I'd like to get him into foster, as he was playful in his previous home and clearly is not thriving in the shelter environment. What are your thoughts?

Stephanie Hayden
