Adoption Summary: We dare you to try not to smile back at Kayah while she's beaming her gorgeous exuberance your way! :) Kaya is the sweetest, most playful, most wiggly-butted girl, who loves to chase toys, play in water, and give kisses! She's that unicorn blend of homebody AND adventure seeker, and she's just missing one thing: the family she's meant to complete! Kayah is looking for a mature home in which she gets to shine, without distraction from other animals -- and, when you're as cute and fun and up-for-anything as Kayah, it's a fair ask! Please email SCRAPSDogTeam@spokanecounty.org to meet our Kayah!

If you are interested in adopting this animal please provide the Animal ID number found on the upper left hand corner of this Kennel Card to an Adoption Center Representative and they will be happy to assist you.

General Vet Notes: 4/14/21: P is BAR, LS walked for me, P does nervous pee. P is being reported to as well be more frequently urinating when out on walks will just squat ever few steps and urinate. Free catch urinalysis - Clear yellow, Ph 8.5, SG 1.000 (dilute), Glu, Bili, Ket, prot, uro, nit and leukocytes all negative. NSF on sedimentation view. Overall P urinalysis shows she has very dilute urine with a high pH. DFdx: behavioral increased drinking? Will see if we can draw blood on P to evaluate bloodwork/kidneys to make sure nothing else is going on, In the mean time recommend smaller/quantify her water to see how much she is drinking. Plan to work with BEH team to see how best we can do that. - BOK

4/22/21: Able to draw blood today, P did great! In house chem/lytes - all normal. No medical concerns on her bloodwork. Suspect increased drinking is possibly causing her to increase urination. Will discuss with BEH team about decreasing size of water bowl and more frequent walks if possible. P does nervous/submissive pee but does not appear incontinent, is able to hold it and is not leaking urine. - BOK

7/16/21: P urinated bloody urine, got free catch sent out for evaluation. P has UTI now and evidence of struvite crystals. Rx clavamox for UTI. Scheduled Xrays of abdomen 7/20 to evaluate for bladder stone. Start Rx diet for crystals - Urinary SO. - BOK

Xrays scheduled for 7/20 at Noon @ Legacy

2/25/22: Realize log is missing entry, xrays were clear no stone. Do recommend long term Rx diet for urinary crystals. P noted today to have mild happy tail - Montior. - BOK

6/30/22: Dog is due for vaccination booster, P will not allow clinic team to administer, need to work with BEH and working on finding a time to get these done. - BOK

Recommendations

Adoption Recommendations:

Comments:

Kayah spent the first few minutes outside completely disinterested in toys. Once she decided she was ready to play it was like flipping a switch. She likes the plush toy much more than the tennis balls or plastic toys. When I attempted to take it from her, she would freeze and do a small growl. It appeared to be more of a play move than a protective one but I did not push her too hard. She did "kill shake" the plush toy multiple times and try to steal the plush toy from my hands (multiple times). She would jump high to get at it. Advising no small children or small animals due to the toy response.

Oct 9 10/9/20----1245pm---Comp has Small Pit Mix that was left at his home by a Mark Wolf---
2020 Tan/White named Kaya---Mark is refusing to pick up the dog and told comp to let it out the front
1:06PM door--dog is confined in the bathroom---no reported aggression towards people but it doesn't
like small dogs or kittens of which comp has both---needs a pick up---Comp said he doenst
have number or current address for AO---talked to him on FB---dogs been there 1 week and
AO has been refusing to pick up. Making minor priority so APOs see it.

| TT4 | 2.3 µg/dL | 1.0 - 4.0 | | | |

Diagnostic Interpretation for TT4

- < 1.0 µg/dL Low
- 1.0 - 2.0 µg/dL Low Normal
- 1.0 - 4.0 µg/dL Normal
- > 4.0 µg/dL High
- 2.1 - 5.4 µg/dL Therapeutic

Dogs with no clinical signs of hypothyroidism and results within the normal reference range are likely euthyroid. Dogs with low T4 concentrations may be hypothyroid or "euthyroid sick". Occasionally, hypothyroid dogs can have T4 concentrations that are low normal. Dogs with clinical signs of hypothyroidism and low or low normal T4 concentrations may be evaluated further by submission of freeT4 (fT4) and canine TSH. A high T4 concentration in a clinically normal dog is likely a variation of normal; however elevations may occur secondary to thyroid auto antibodies or rarely thyroid neoplasia. For dogs on thyroid supplement, acceptable 4-6 hour post pill total T4 concentrations generally fall within the higher end or slightly above the reference range.

SDMA:

SDMA and CREA within reference interval: impairment of GFR is unlikely. Recommended next step: evaluate complete urinalysis.

Good!

2. SCRAPS makes no representations or warranties concerning the health, behavior, mental disposition, and/or previous ownership or guardianship of the animal, except as expressly included in Items 2a and 2b of this Agreement:

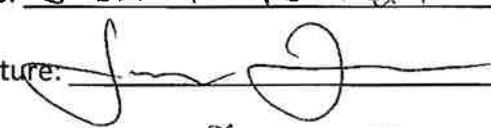

a. Within Spokane County, 26542's care must include:

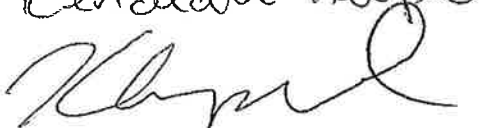

- i. Erection of new or additional fencing to keep 26542 within the confines of ADOPTER's property; *and/or*
- ii. Construction of a dog run consistent with the size of 26542 within which 26542 must be kept; *and/or*
- iii. Keeping 26542 on a non retractable leash adequate to control her, or securely fastened to a secure object when left unattended; *and/or*

- iv. Keeping 26542 indoors at all times, except when on a leash adequate to control 26542 and under the actual physical control of a competent person at least fifteen (15) years of age; **and**
- v. Residence in a home that does not include co-housing with or access to small animals, including farmed animals (such as chickens and geese).

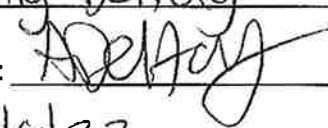

- 3. ADOPTER agrees to abide by the care stipulations specified in Item 2b at all times.
- 4. ADOPTER agrees to return 26542 to the care and custody of SCRAPS should ADOPTER no longer be able to or willing to care for 26542. ADOPTER agrees not to transfer 26542 into the care or custody of any person or entity other than SCRAPS.
- 5. ADOPTER and his/her heirs and assigns agree to indemnify and hold harmless SCRAPS, its agents and representatives, against any and all manner of actions and causes of actions, suits, debts, dues, accounts, bonds, covenants, agreements, judgments, claims, and demands whatsoever arising out of or relating to the adoption, behavior, health, and/or possession of the animal.
- 6. ADOPTER has read and understands this Agreement, has had the opportunity to ask questions of the representatives of SCRAPS, and voluntarily signs this Adoption Agreement.
