Animal Control Issue Details

Received By:

Travis McKinney

Source:

Public

Potential Violence: Unknown

Verbally Abusive: Unknown

Potential Violence Details:

Other Comments / Notes:

May 2 2023 8:27AM Two dogs were being fostered from Grant County, both dogs attacked and killed AO's kitten; AO was possibly bitten trying to get the cat away from the dogs

May 2 2023 8:29AM AO is Angelic Heinze 710-8917

May 2 2023 11:09AM Upon arrival both dogs were inside the house. I was able to confine dogs into to separate areas to catch and place dogs into my truck. // While clearing house i located blood in the basement where the dogs had attacked the AO's cat. // Cat was DOA and located upstairs. IMP 3 animals // No Bite occurred no skin broken. Due to not knowing what dog attacked the cat and it occurring on the owner's property no PD or DD will be issued.

Adoption Summary: Meet our Max! This big lug has had a rough road, but everything is looking up, and the last piece of the puzzle will be a family of his very own! Max is an affectionate, playful boy with one of those infectious smiles! He's up for anything - from lounging to playing to car-riding to hiking -- he just wants to come along. :) Please email SCRAPSDogTeam@spokanecounty.org as an appointment is necessary to meet this gent and see if you're who he's been waiting for!

If you are interested in adopting this animal please provide the Animal ID number found on the upper left hand corner of this Kennel Card to an Adoption Center Representative and they will be happy to assist you.

Existing General Animal Notes

Animal ID: 30100
Type: Dog
Breed: Large Mix
Name: Max

Entry Date/Time	Category	Notes	User
12/30/2022 5:08:39 PM		Animal sponsored by donor. No licensing fee required. Receipt 63197.	Nick Hobbs Doyle
11/5/2022 11:07:18 AM	Ownership Notes	Return processed as requested per KV // KV adv that adopter Timothy Walvatne (72884) returned Max last night after taking him home, stating that their res dog was getting growly at Max, which then caused Max to get growly back - no incidents between the two dogs // Timothy met KV back at the shelter to return Max, so he was not present at time of return transaction // Sponsored adoption fees were used at time of adoption, so no credit or refund will be given.	Alyssa Slack
6/11/2022 5:09:52 PM	Ownership Notes	Sponsored adoption per receipt #53894 Person ID 61085. \$28	Erin Muxlow
6/5/2022 2:31:00 PM	Kennel Staff Notes	Waiver Required - See Documents for Waiver	Matthew Gardner
1/25/2022 2:08:01 PM	Behavior Notes	<p>Max is a sweet pup and can be slow to warm up with new people. Consent to touch him is very important. Potential adopters would need to be willing to go slow.</p> <p>He would need to have his meal times managed well and separated from other animals and people in the home. It is not recommended that he be on a leash or have anyone taking him off a leash when there is food around.</p> <p>He loves other dogs and some other dogs get along with him in playgroup. A meet and greet would be required.</p> <p>It is unknown how he does with cats.</p> <p>It is recommended that he go to a home without children due to his bite history.</p> <p>GHC</p>	Gretchen Chomas
10/7/2021 3:23:36 PM	Behavior Notes	<p>Next step: Hold the slip lead out and encourage/lure him into putting his head through. Baby steps. If all he wants to do is put his nose through, mark and reinforce. I know he probably readily does this but we are doing a bit of reprogramming here. More importantly and critical in this will be allowing him to remove his head and marking/reinforcing that. Do you see where this is going? The lead coming off is a good thing. Hands near your head and neck are good things. Keep the loop loose. Max is controlling this. If he opts to not be a part of this, then stop and let me know.</p> <p>If you'd like to Zoom I could show you what I'm thinking about. Alternatively, I could come to the facility and show you.</p> <p>For now, let's keep this process limited to just you and your behavior team.</p> <p>Thank you for including me in Max's rehabilitation! Y'all are doing wonderful things for him!</p>	Gretchen Chomas
9/30/2021 4:00:03 PM	Behavior Notes	<p>Max does well with some rough and rowdy dogs in playgroup. He has never tipped and gone after other dogs but other dogs don't always like him.</p> <p>Friends:</p>	Gretchen Chomas

		Hagrid Subi Roo Jax Simba Jin	
		Not friends: Red Lauda Bolto	
9/30/2021 3:56:03 PM	Behavior Notes	Use two leash method when returning to kennel GHC	Gretchen Chomas
8/31/2021 6:17:41 PM	Behavior Notes	I took Max out today on a slip lead and upon returning him to his kennel I stepped in to remove the slip lead when me was inside and he turned abs out his teeth on my hand. I left him and retuned a few mins later with a regular leash got him back out and caused the two leash method to return him to his kennel and he was fine. Use two leash method when returning to kennel. GHC	Gretchen Chomas
8/30/2021 6:31:55 PM	Behavior Notes	We met with Canine Behaviorist Chris Armstrong today and she did an evaluation on Max. Here is what is in place right now: Feeding twice a day on paper plates Bloodwork to rule out medical issues CBD Pheromone diffuser (on small blanket hanging on his kennel) Increased enrichment and out of kennel time *** Max is only to be taken out by Blue Dot Volunteers and Staff*** Volunteers are only to take Max out AFTER he has eaten breakfast If there is food in Max's kennel when you return him, half the kennel before you return him. If he growls, snaps, snarls, freezes, or shows any signs of agitation, DO NOT PULL ON HIS LEASH. Drop the leash and come back to get it later once he has calmed down. Make BEH aware of ANY growling, snarling, snapping, agitation he shows with details on the events that led to it Reevaluate in one week GHC	Gretchen Chomas
8/6/2021 8:06:54 PM	Behavior Notes	No Children. Meet and greet with resident dog required. GHC	Gretchen Chomas
8/4/2021 1:52:58 PM	Ownership Notes	Bite Victim is volunteer at SCRAPS---after playing with Max in the playyard---he returned Max to his kennel---Victim had heard Max was food aggressive--Max was leashed and trying to get to his food in his bowl---Victim pulled back on leash so he could try and get leash off away from the food bowl and Max reached back and Bit Victim on right hand---will upload bite pics---big flap of skin was ripped back.	Ethan Kennedy
5/21/2021 3:54:02 PM	A P O	If new owner comes in to redeem, APO needs to speak with them to ensure they are aware dog is PD. Unknown if prev owner disclosed this information when they rehomed him.	Ashley Proszek
5/21/2021 1:14:53 PM	Ownership Notes	Made contact with Tanaya Davis. She said Max was rehomed (she thinks on 10th) to a Pauline Enrico. The address Tanaya has for her is 1651 N Harvest Parkway in Liberty.Lake. (631)786-2546. I called new owner (she's out of town until tomorrow). Texting her our number, address to discuss redemption.	Todd Callihan
5/11/2021 1:18:33 PM	Ownership Notes	HomeAgain Chip -- Implanted at PetSavers, never registered. Found chipped owner in DocuPet and ShelterBuddy. Prev DO that redeemed is Damion Welch (person ID 46473). LVM on his phone at 443-449-9046, other phone number listed on file is 509-866-2251- number is no longer in service. Will be mailing post card to 230 E 7th Ave #14 99202 and will send email to manchild812@gmail.com.	Alyssa Slack

Per AP an APO will need to be present for redemption appt once scheduled.

4/9/2021 4:41:22 PM		Per LS full fees as none were quoted, APO 657 was present for redemption.	Novia Yates
4/7/2021 2:08:49 PM	A P O	APO must speak with AO when they come to pick up, before Max is redeemed.	Whitney Sackman
3/31/2021 2:25:52 PM	Ownership Notes	<p>Pet Savers non registered microchip</p> <p>Pet Savers has Damion Welch as the owner 230 E 7th #14 Spokane WA</p> <p>4434499046 5098662251</p>	Whitney Sackman

Clinic Name: SCRAPS

Previously Spayed / Neutered: Yes

General Vet Notes: 5/26/21: P was in playgroup with BEH team and got in a mild scuffle. P has two superficial scrapes on dorsum of head, mild redness. Has bruising behind left ear at base and a small puncture on pinna of left ear that has stopped bleeding and clotted at this time. Monitor for further swelling, any discharge or further bleeding. Report concerns. These are all superficial wounds that at this time do not need further medical attention besides monitoring healing. P otherwise stable and very active. - BOK

8/31/21: Blood drawn - sent off - Pending. - BOK

9/8/21: Bloodwork finally returned, all WNL, no concerns. Ok to start trial of anti-anxiety Rx (Fluoxetine). - BOK

10/5/21: Refilled Rx of Fluoxetine. Per report from LS, P seems to be doing better on Rx. - BOK

11/15/21: P had concern on left hind arise today, has area on lateral aspect of left hind just proximal to stifle raised area about quarter sized with abrasion on top. When palpate feel all dermal not attached but is mildly uncomfortable to palpation with a little oozing. ddx: wound, vs mass/lump. Rx Cephalexin - Recheck in 7 days, if not improving may need sedation for further investigation/possible removal. - BOK

11/22/21: Recheck lump/wound left hind, has almost completely gone away, no lump/swelling, non raised area with hair loss, no discharge, no irritation. Appears area was a wound, and resolving with course of antibiotics. Continue to monitor, if reoccurs once off antibiotics please let me know. At this time appears to be healing well and as long as continues fur to grow back and no concerns arise no further rechecks needed. Did cough once, monitor for further signs of kennel cough. - BOK

10/13/22: Been reported to have had softer stools/diarrhea, appears this is resolving. Suspect change of food/treats/stress caused diarrhea. Formed stools in kennel today. Continue to monitor/report if persisting. - BOK

Other Comments / Notes:

Mar 31 2021 12:30PM Bite report in progress - bite dog, large black lab/pit mix needs picked up. Victim is dogsitter, AO is out of town in Maryland. AO aware of incident. Approved by 652

Mar 31 2021 12:33PM 3/31 12:15 - Complainant, a dogsitter, took Max out on a leash outside. When outside, Max lunged for the food bowl. Complainant went to hook the leash up to the fence so the dog could eat, as that has been routine for the past week. Max then turned and bit the victim's arm and hand. Victim ran inside and Max chased her, biting the other arm and hand. Victim is unsure how many bite total. Will be going to the emergency room. // Dog owner is out of town in Maryland and is aware of the incident. DO is already on their way back, but won't be home for a week. Dogsitter is aware of hold period and will make arrangements with the owner.

Mar 31 2021 12:39PM Victim did not have AO phone number at the time of call, but will have it when officer arrives.

Other Comments / Notes:

May 21 12:21PM Please stop by address to attempt contact with DO. Dog is PD and currently impounded. Have not been able to reach owners by phone. Need to know if they are coming for dog or not.
 2021 Please advise 650 of outcome.

May 21 2021 1:10PM Made contact with Tanaya Davis. She said Max was rehomed (she thinks on 10th) to a Pauline Enrico. The address Tanaya has for her is 1651 N Harvest Parkway in Liberty Lake. (631)786-2546. Contact was made with new DO who is currently in New York (returning tomorrow). Sent her a follow-up text to try and nail down a reclaim day/time so we can place the proper hold. 650 updated.

May 25 2021 11:18AM Got a text from possible DO stating the following: " Hi there, I'm sorry I was driving at the moment. We won't be back until Tuesday, not tomorrow; I'm so sorry for the miscommunication. To give you a rundown on what occurred with this pup, I found him in a pretty terrible living situation. I offered to take him so they wouldn't have him euthanized. I wanted to get him right in with the Humane society, but they needed an appointment to be made and for my husband and me to hang on to him for a few weeks. We informed the humane society we couldn't hang on to him since we could not keep a pitbull in the complex we live in, and he was not getting along with our dog. The humane society told us our best option was to reach out to other rescues (which I had reached out to STAR/STARR? And furry farms rescue, both of which never got back to me) or go to SCRAPS and claim he was found. I just called and left a message with the owner surrender line at Spokane humane society to get him there, but in the meantime of waiting for a call back from them; what should I do? I wanted to do the right thing with this dog because he was in an awful situation where he was, but I can't keep him myself. "

May 25 2021 11:19AM Emailed 650 an update.

Animal ID	Class	Type	Breed	Shelter Tag	ACO Record #
30100	Domestic	Dog	Large Mix		

Pursuant to SMC 10.03.033, this notice constitutes a final determination that the dog is a potentially dangerous dog, unless the owner or keeper of the dog requests an administrative review meeting with the animal control director or designee on the form provided with this notice within fifteen (15) days of the receipt of this notice and attends the meeting. This notice is deemed to be received three (3) days following its mailing. Failure to request an administrative review hearing shall constitute a failure to exhaust all administrative remedies and shall preclude any appeal of the administrative determination to the hearing examiner or to a court.

YOUR RESPONSIBILITY AS OWNER OF A POTENTIALLY DANGEROUS DOG

Pursuant to SCC 5.04.032 (7) SCRAPS is imposing the following restrictions pending completion of an administrative review as described above:

- (a) erection of new or additional fencing to keep the dog within the confines of the owner's or keeper's premises;
- (b) construction of a dog run consistent with the size of the dog within which the dog must be kept;
- (c) keeping the dog on a leash adequate to control the dog or securely fastened to a secure object when left unattended;
- (d) keeping the dog indoors at all times, except when on a leash adequate to control the dog and under the actual physical control of a competent person at least fifteen (15) years of age;
- (e) keeping the dog muzzled in a manner that will not cause injury to the dog or interfere with its vision or respiration, but will prevent it from biting any person or animal when outside a proper enclosure;
- (f) spaying/neutering of the dog;
- (g) microchip implanting of the dog for identification purposes.

Other:
A or B or C or D; E

If you request an administrative review meeting as described above, and then you appeal that decision to the Hearing Examiner, as provided in **SMC 10.03.033** as the hearing officer(s) may, in his or her recommendation, delegate to the Spokane County Regional Animal Protection Service Regional Director or his/her designee the authority to establish further requirements or to refine and clarify the aforementioned requirements to effectuate the purposes of the ordinance. An owner or keeper of a

Animal History Disclosure & Care Requirements Agreement

This Adoption Agreement is made and entered into as of the latest date of signature below by and between Spokane County Regional Animal Protection Service (SCRAPS) and the following individual, hereinafter referred to as "ADOPTER".

ADOPTER Name: _____ ADOPTER Date of Birth: _____

ADOPTER Address: _____

ADOPTER Email: _____ ADOPTER Phone: _____

ADOPTER attests to the validity of the above information.

ADOPTER Signature: _____

Whereas, ADOPTER wishes to adopt:

Animal Impound No.: 30100

Animal Species: Canine – neutered male, Mixed Breed

Microchip No.: 985113004918692

ADOPTER acknowledges and agrees to the following:

1. ADOPTER accepts full responsibility for the proper care of the animal from the date of this Agreement's execution.
2. SCRAPS makes no representations or warranties concerning the health, behavior, mental disposition, and/or previous ownership or guardianship of the animal, except as expressly included in Items 2a and 2b of this Agreement:
 - a. 30100 was deemed "potentially dangerous" pursuant to the Spokane County Code for multiple bites related to food aggression.
 - b. Within Spokane County, 30100's care **must** include:
 - i. Erection/maintenance of fencing to keep 30100 within the confines of ADOPTER's property; *and/or*
 - ii. Construction of a dog run consistent with the size of 30100 within which 30100 must be kept; *and/or*

- iii. Keeping 30100 on a leash adequate to control her, or securely fastened to a secure object when left unattended; *and/or*
- iv. Keeping 30100 indoors at all times, except when on a leash adequate to control 30100 and under the actual physical control of a competent person at least fifteen (15) years of age; and
- v. Keeping 30100 muzzled in a manner that will not cause injury to the dog or interfere with his vision or respiration, but will prevent it from biting any person or animal when outside a proper enclosure; and
- vi. Residence in a home that does not include children under the age of 18; and
- vii. Working with a professional trainer to address 30100's food aggression.

3. ADOPTER agrees to abide by the care stipulations specified in Item 2b at all times.
4. ADOPTER agrees to return 30100 to the care and custody of SCRAPS should ADOPTER no longer be able to or willing to care for 30100. ADOPTER agrees not to transfer 30100 into the care or custody of any person or entity other than SCRAPS.
5. ADOPTER and his/her heirs and assigns agree to indemnify and hold harmless SCRAPS, its agents and representatives, against any and all manner of actions and causes of actions, suits, debts, dues, accounts, bonds, covenants, agreements, judgments, claims, and demands whatsoever arising out of or relating to the adoption, behavior, health, and/or possession of the animal.
6. ADOPTER has read and understands this Agreement, has had the opportunity to ask questions of the representatives of SCRAPS, and voluntarily signs this Adoption Agreement.

Treat Lover

Adoption Summary: My name is Mai and I'm one cute doggy! I know how to sit, love going outside for walks, and can't resist a tasty treat! To get to know me, please reach out to the Dog Team at SCRAPSdogteam@spokanecounty.org to make an appointment!

If you are interested in adopting this animal please provide the Animal ID number found on the upper left hand corner of this Kennel Card to an Adoption Center Representative and they will be happy to assist you.

Existing General Animal Notes

Animal ID: 43710
Type: Dog
Breed: Medium Mix
Name: Mai

Entry Date/Time	Category	Notes	User
1/19/2023 2:49:56 PM	A P O	Brushed Mai for 2nd time today and he reacted positively to the touch and attention from all officers and visitors while in APO office for an hour. // New note: Mai sometimes hugs tightly around legs and/or body with his front legs and releases when given positive reaction with a gentle push off. Mai redirects easily and can now be handled all over body and head.	Rebekah Mason
1/5/2023 3:36:06 PM	A P O	Mai leashes up and returns to kennel well. He is non-reactive to other dogs when walking by.	Rebekah Mason

Received By: Rebekah Mason
Source: A P O
Police Case Number: 2022-0617
Potential Violence: Unknown
Verbally Abusive: Unknown

Potential Violence Details:

Other Comments / Notes:

Nov 16 2022 11:11PM On July 9th, dog bit victim unprovoked while victim had dog in play yard. Victim went to urgent care for medical treatment and dog was put on bite QT on 7/9. Dog is healthy. Waiting for medical record and photos from victim.

Nov 27 2022 11:37PM Received statement from victim today: "Marie Pechous and myself (ELicia Spotts) took a bonded pair (Mai and Thai) out to the big play yard. The local news has just posted a story regarding the influx of animals and the kennels and lots of people came to SCRAPS. I had Marie wait in the catch pen as I went in with both dogs due to their angst. Thai played and attempted to engage Mai, when attempting to get a toy for them Mai was close to me, he gave a growl and I looked at his eyes which appeared to have large black pupils and he kept towards my face and I had my arms up and got a puncture Wound to each wrist at that time ... and was able to grab the scruff of his fur and proceed to choke him out as I was instructed in a bite class by our former dog trainer Angelina. Mai didn't relax with the choke hold and continued to try to bite me. Thai kept trying to engage him but Mai was intent on me. I was able to somehow get to the catch pen area and briefly lost hold of Mai, and Marie screamed. I was able to get Mai

pinned in a corner and again put him in a choke hold while Marie handed me a leash ... all the while he growled and attempted to bite. Matt Gardner shelter tech supervisor heard some of this and witnessed Mai in the corner and that I was bleeding. I had to continue to choke Mai out and he didn't calm. Matt radio'd another tech (Kayla) to get a kennel ready .. E pod was the only one with an opening as AG was full. Matt asked if I could handle Mai or if a catch pole was needed and I said I can handle him. Even with a straight arm choke hold Mai continued to try to turn and bite .. I had to pin his body with my knee to a scraps truck wheel while continuing to hold him in the choke hold I was taught until Matt brought a catch pole. I had had Mai and Thai out on 5 prior occasions without incident."

Nov 27 2022 11:44PM Victim was unable to locate medical record from urgent care and didn't have photos of the fresh bite wounds, but showed me the scars on both wrists. // None of the shelter techs had taken photos of the victim's wounds. // Victim didn't receive stitches and is healthy. // Dog will receive an assessment for behavioral modification and will receive rabies shot before leaving shelter.

Dec 3 2022 8:08PM Reached out to mult witnesses for verbal statements and none responded.

Jan 5 2023 6:01PM Faxed bite report to SRHD and uploaded. // Declared Mai "potentially dangerous" for inflicting a bite on victim while unprovoked. // Uploaded PD packet to both job and dog.

REGIONAL DIRECTOR

**NOTICE
YOUR DOG HAS BEEN PRELIMINARILY DECLARED
A POTENTIALLY DANGEROUS DOG
(SVMC 7.30)**

DATE: 1/5/23

CASE: 2022-0617

A review of our records shows that you are the owner or keeper of the following dog(s):

Breed: Medium Mix
Color: Red Brown
Name: Mai
Sex: Male
License #: _____

Breed: _____
Color: _____
Name: _____
Sex: _____
License# _____

This is your notice that the Regional Director of the Spokane County Regional Animal Protection Service (SCRAPS), or his/her designee, has sufficient information to determine that the dog(s) described above is each a potentially dangerous dog as defined by Spokane County Code Section 5.04.020, as adopted by the City of Spokane Valley.

6815 E TRENT AVE • SPOKANE VALLEY, WA 992162
PHONE: (509) 477-2532 • FAX: (509) 477-4745

City of Spokane Valley
03/30/2018

This declaration of potentially dangerous dog is based on the records of Spokane County Regional Animal Protection Service (SCRAPS), copies of which are attached to this notice, labeled as Attachment "A", and incorporated herein by reference. This declaration may be challenged and appealed (SVMC 7.30.404(D)herein.)

Pursuant to SVMC 7.30.040(C), this notice constitutes a final determination that the dog is a potentially dangerous dog, unless the owner or keeper of the dog requests an administrative review meeting with the regional director or designee on the form provided with this notice within fifteen (15) days of the receipt of this notice and attends the meeting. This notice is deemed to be received three (3) days following its mailing. Failure to request an administrative review hearing shall constitute a failure to exhaust all administrative remedies and shall preclude any appeal of the administrative determination to the hearing examiner or to a court.

YOUR RESPONSIBILITY AS OWNER OF A POTENTIALLY DANGEROUS DOG

Pursuant to SVC 7.30.040(D) SCRAPS is imposing the following restrictions pending completion of an administrative review as described above:

(1) erection of new or additional fencing to keep the dog within the owner's or keeper's property;

(2) construction of a dog run consistent with the size of the dog within which the dog must be kept;

(3) Microchip identification, as set forth in Spokane County Code Section 5.04.036;

(4) keeping the dog on a leash adequate to control the dog or securely fastened to a secure object when left unattended;

(5) keeping the dog indoors at all times, except when on a leash adequate to control the dog and under the actual physical control a competent person at least 15 years of age;

(6) the posting of the premises with at least one clearly visible warning sign that there is a potentially dangerous dog on the property. In addition, the owner shall conspicuously display a sign with a warning symbol that informs children of the presence of a potentially dangerous dog.

Other:

Follow 4 or 5 in order to keep dog
under control of person or tethered when
unattended

If you request an administrative review meeting as described above, and then you appeal that decision to the Hearing Examiner, as provided in SVC 7.30.040(E) as the hearing officer(s) may, in his or her recommendation, delegate to the Spokane County Regional Animal Protection Service Regional Director or his/her designee the authority to establish further requirements or to refine and clarify the aforementioned requirements to effectuate the purposes of the ordinance. An owner or keeper of a

potentially dangerous dog who violates any of these conditions shall be guilty of a misdemeanor.

Administrative Review Procedure:

Your dog(s) have received a Preliminary Determination of Potentially Dangerous Dog(s) – Prior to the regional director or designee issuing a final determination that your dog(s) is/are potentially dangerous, you, as owner or keeper, have a right to request, in writing, to meet with the regional director, or designee for an administrative review meeting – an application form for an Administrative Review Meeting is attached to this notice. The request must be received within fifteen (15) calendar days of the receipt of the notice. The owner or keeper has the opportunity and right to participate in an administrative review with the regional director or designee to present or give information, orally or in writing, any reasons or information as to why the dog(s) should not be declared potentially dangerous. Once an administrative review meeting is requested in writing by the owner or keeper, the regional director or designee shall provide written notice to the owner or keep of the date, time and place of the administrative review meeting. Administrative review meetings may be conducted telephonically.

Pursuant to SVMC 7.30.040(C)(2) a failure by the dog owner or keeper to request and attend an administrative review meeting with the regional director or designee shall constitute a failure to exhaust all administrative remedies, and such failure to exhaust all administrative remedies shall preclude any appeal of the administrative determination to the hearing examiner or court.

After an administrative review meeting, the regional director or designee shall issue a final determination, in the form of a written order, within 15 calendar days of the administrative review meeting. In the event the regional director or designee declares a dog to be potentially dangerous, the order shall include a recital of the authority for the action, a brief concise statement of the facts that support the determination, and the signature of the person who made the determination. The order determining the dog is potentially dangerous shall be delivered to the dog owner or keeper in writing, either by personal delivery or regular mail.

Appeal Procedures:

The owner or keeper of a dog subject to a declaration that their dog is potentially dangerous may appeal the final written determination to the hearing examiner within 15 days after the issuance of the decision by filing notice of appeal with the animal protection authority (SCRAPS), subject to the limitations stated in SVMC 7.30.040(C).

The hearing shall be held within 20 days after receipt of the notice of appeal, unless it is continued for good cause shown. The regional director or designee shall notify the owner or keeper in writing of the date, time and location of the appeal hearing before the hearing examiner, and said notice shall be received at least five days before the hearing. The appeal hearing shall be recorded, and the hearing examiner may allow testimony and documents that are relevant to the administrative determination that the dog is potentially dangerous.

The hearing examiner shall issue a written decision, and mail a copy of the decision to the dog owner or keeper, and to the animal protection director or designee, within 15 days of the appeal hearing. The hearing examiner's decision shall accept, reject or modify the administrative determination that a dog is potentially dangerous, and shall include findings of fact and

conclusions of law that support the decision. The decision shall be given the effect of a final decision by the city council, and shall state that the decision may be appealed to superior court pursuant to Chapter 7.16 RCW within 20 days from the date the decision was received.

THIS NOTICE CONSTITUTES A FINAL DETERMINATION THAT EACH OF THE ABOVE DOGS IS DECLARED TO BE A POTENTIALLY DANGEROUS DOG, UNLESS YOU REQUEST A HEARING IN WRITING ON THE FORM PROVIDED WITH THIS NOTICE WITHIN FIFTEEN (15) DAYS OF THE RECEIPT OF THIS NOTICE. THIS NOTICE IS DEEMED RECEIVED THREE (3) DAYS FOLLOWING ITS MAILING SHOULD YOU REQUEST AN ADMINISTRATIVE REVIEW MEETING, IT WILL BE HELD WITHIN (30) DAYS OF THE RECEIPT OF YOUR REQUEST. YOU WILL BE NOTIFIED OF THE DATE, TIME AND PLACE OF THE ADMINISTRATIVE REVIEW MEETING. THE ADMINISTRATIVE REVIEW MEETING MAY BE CONDUCTED BY PHONE FOR YOUR CONVENIENCE. YOU WILL HAVE THE RIGHT TO PRESENT EVIDENCE AS TO WHY THE DOG SHOULD NOT BE FOUND POTENTIALLY DANGEROUS.

PURSUANT TO SVC 7.03.040(C)(2) IF YOU FAIL TO REQUEST AND ATTEND AN ADMINISTRATIVE REVIEW MEETING WITH THE REGIONAL DIRECTOR OR HIS/HER DESIGNEE, YOUR FAILURE TO DO SO WILL CONSTITUTE A FAILURE TO EXHAUST ALL ADMINISTRATIVE REMEDIES, AND SUCH FAILURE TO EXHAUST ALL ADMINISTRATIVE REMEDIES SHALL PRECLUDE ANY FURTHER APPEAL OF THE ADMINISTRATIVE DETERMINATION TO THE SPOKANE VALLEY CITY COUNCIL OR COURT.

I acknowledge that I was served with Spokane County Regional Animal Protection Service's Potentially Dangerous Dog Restrictions.

Compliance Date: _____

immediately

If additional problems arise in the future regarding this dog, the dog *may* be deemed a dangerous dog as defined in SCC 5.04.020(12) as adopted by Spokane Valley.

For your information and convenience, the following is a copy of SCC Section 5.04.020 (12) (22) and SVC Sections 7.30.035, 7.30.040, and 730.045.

5.040.020 Definitions.

- (12) "Dangerous dog" means any dog that (a) inflicts severe injury or multiple bites on a human being without provocation on public or private property, (b) inflicts severe injury, multiple bites, or kills an animal without provocation while the dog is off the owner's or keeper's property, or (c) has previously been declared potentially dangerous under this chapter or a previous version of this chapter or under a comparable ordinance in any jurisdiction within the state of Washington, or under RCW 16.08.080, and after the owner or keeper received notice of such declaration the dog engages in behavior that meets the definition of "potentially dangerous dog" in subsection (22) of this section; provided, a declaration of dangerous dog under part (c) of this subsection cannot become a final determination under section 5.04.032 unless and until the previous declaration of potentially dangerous dog has become final under this code or a previous version of this code. If two (2) or more dogs jointly engage in any conduct described in parts (a) or (b) of this subsection, thereby rendering proof of the individual dog that inflicted any particular injury difficult to ascertain, then regardless of the degree of participation by the individual dog(s), all such dogs shall be deemed dangerous dogs.
- (22) "Potentially dangerous dog" means any dog that when unprovoked: (a) inflicts a bite on a human being or animal either on public or private property, or (b) in a menacing fashion or apparent attitude of attack snaps at, growls at, barks at, jumps upon, restrains, chases or approaches a human being on public or private property, or (c) in a menacing fashion or apparent attitude of attack snaps at, growls at, barks at, jumps upon, restrains, or chases another animal while the dog is off the owner's or keeper's property.

7.30.035 Declaration of dangerous dog determination – Appeals relating thereto.

A. When the animal control director or designee has sufficient information to determine that a dog is dangerous as defined by Spokane County Code Section 5.04.020, the animal control director or designee shall make a preliminary declaration that the dog is dangerous.

In the event a preliminary determination is made that the dog is dangerous, animal control shall notify the dog owner or keeper in writing, either by personal delivery, or by regular mail and certified mail, return receipt requested.

Any notice or determination mailed pursuant to this section shall be deemed received by the party to which it is addressed on the third day after it is placed in the mail, as set forth by declaration of the sender.

B. The notice must state:

1. The statutory basis for the proposed action;
2. A description of the dog for which the declaration is sought (breed, color, sex and license number, if any);
3. The reasons the animal control director or designee considers the animal dangerous;

4. If the dog has been determined to be dangerous, then the controls stated in SVMC 7.30.045 shall apply; and

5. An explanation of the owner's or keeper's rights and the proper procedure for appealing a declaration that a dog is dangerous, including an appeal form.

C. Administrative Review After Preliminary Administrative Determination.

1. Preliminary Determination of Dangerous Dog. Prior to the animal control director or designee issuing a final determination that a dog is dangerous, the animal control director or designee shall notify the owner or keeper in writing that he or she is entitled to an opportunity to meet with the animal control director or designee, at which administrative review meeting the owner or keeper may give, orally or in writing, any reasons or information as to why the dog should not be declared dangerous. The notice shall state the date, time, and location of the administrative review meeting, which shall occur prior to the expiration of 15 calendar days following receipt of the notice. The owner or keeper may propose an alternative meeting date and time, but such administrative review meeting shall occur within the 15-day time period set forth in this section, and shall be on a date and time acceptable to the animal control director or designee.

2. After such administrative review meeting, the animal control director or designee shall issue a final determination, in the form of a written order, within 15 calendar days of the administrative review meeting. In the event the animal control director or designee declares a dog to be dangerous, the order shall include a recital of the authority for the action, a brief concise statement of the facts that support the determination, and the signature of the person who made the determination.

3. An order declaring a dog is dangerous shall be delivered to the dog owner or keeper in writing either by personal delivery, or by regular mail and certified mail, return receipt requested.

D. Any dog that is declared dangerous by the animal control director or designee, whether preliminary or final, shall be immediately impounded until the owner or keeper registers the dog as dangerous in accordance with SVMC 7.30.045. The owner or keeper will have 15 days from the date the dog was declared dangerous to register the dog or appeal the determination pursuant to subsection F of this section. If the owner or keeper fails to register the dog or appeal the determination, the dog will be euthanized at the direction of the animal control director or designee. If the owner or keeper appeals the dangerous dog declaration, as set forth in subsection F of this section, the dog will be held pending the outcome of the appeal at the shelter at the owner's expense at a rate established by the animal control authority.

E. The owner or keeper of a dog subject to a declaration that their dog is dangerous may appeal the final written determination to the hearing examiner within 15 days after issuance of the decision by filing a notice of appeal with the animal control authority. The hearing examiner may adopt appropriate hearing procedures where procedures are not otherwise provided herein. The hearing shall be held within 20 days after receipt of the notice of appeal, unless it is continued for good cause shown. The animal control director or designee shall notify the owner or keeper in writing of the date, time and location of the appeal hearing before the hearing examiner, and said notice shall be received at least five days before the

hearing. The appeal hearing shall be recorded, and the hearing examiner may allow testimony and documents that are relevant to the administrative determination that the dog is dangerous. The owner or keeper of the dog may require, by at least two days' written notice, for the officer compiling the record to be present at the hearing. The owner or keeper of the dog may present evidence and examine witnesses present. The burden shall be on the animal control director to establish by a preponderance of the evidence that the dog is a dangerous dog.

F. The hearing examiner shall issue a written decision, and mail a copy of the decision to the dog owner or keeper, and to the animal control director or designee, within 15 days of the appeal hearing. The hearing examiner's decision shall accept, reject or modify the administrative determination that a dog is dangerous, and shall include findings of fact and conclusions of law that support the decision. The hearing examiner may modify the determination that a dog is dangerous to a determination that the dog is potentially dangerous, if the facts warrant, and impose any of the requirements set forth in SVMC 7.30.040(D). The decision shall be given the effect of a final decision by the city council, and shall state that the decision may be appealed to superior court pursuant to Chapter 7.16 RCW within 20 days from the date the decision was received. If the decision upholds the administrative determination that a dog is dangerous, and the dog owner or keeper fails to timely register the dog or appeal the decision to superior court, the dog will be euthanized at the direction of the animal control director or designee. If the dog owner or keeper timely appeals the dangerous dog declaration, the dog will be held pending the outcome of the appeal at the shelter at the owner's expense, at a rate established by the animal control authority. (Ord. 08-001 § 2, 2008; Ord. 07-003 § 4, 2007).

7.30.040 Declaration of potentially dangerous dog determination – Appeals relating thereto.

A. When the animal control director or designee has sufficient information to determine that a dog is potentially dangerous as defined by Spokane County Code Section 5.04.020, the animal control director or designee shall make a preliminary declaration that the dog is potentially dangerous.

In the event a preliminary determination is made that the dog is potentially dangerous, animal control shall notify the dog owner or keeper in writing, either by personal delivery, or by regular mail.

Any notice or determination mailed pursuant to this section shall be deemed received by the party to which it is addressed on the third day after it is placed in the mail, as set forth by declaration of the sender.

B. The notice must state:

1. The statutory basis for the proposed action;
2. A description of the dog for which the declaration is sought (breed, color, sex and license number, if any);
3. The reasons the animal control director or designee considers the animal potentially dangerous;
4. A statement that the registration and controls set forth in subsection D of this section may apply;

5. An explanation of the owner's or keeper's opportunity and right, pursuant to subsection (C)(1) of this section, to participate in an administrative review with the animal control director or designee to present information on why the dog should not be declared potentially dangerous;
6. A statement, pursuant to subsection (C)(2) of this section, that a failure by the dog owner or keeper to request and attend an administrative review with the animal control director or designee shall constitute a failure to exhaust all administrative remedies, and that such failure to exhaust all administrative remedies shall preclude any appeal of the administrative determination to the hearing examiner or to court; and
7. An explanation of the owner's or keeper's rights and the proper procedure for appealing a declaration that a dog is potentially dangerous, including an appeal form.

C. Administrative Review After Preliminary Administrative Determination.

1. Preliminary Determination of Potentially Dangerous Dog. Prior to the animal control director or designee issuing a final determination that a dog is potentially dangerous, the animal control director or designee shall notify the owner or keeper in writing that he or she may request in writing to meet with the animal control director or designee for an administrative review meeting within 15 calendar days following receipt of the notice, at which administrative review meeting the owner or keeper may give, orally or in writing, any reasons or information as to why the dog should not be declared potentially dangerous. Once an administrative review meeting is requested in writing by the owner or keeper, the animal control director or designee shall provide written notice to the owner or keeper of the date, time and place of the administrative review meeting. Administrative review meetings may be conducted telephonically.
2. A failure by the dog owner or keeper to request and attend an administrative review meeting with the animal control director or designee shall constitute a failure to exhaust all administrative remedies, and such failure to exhaust all administrative remedies shall preclude any appeal of the administrative determination to the hearing examiner or to court.
3. After such administrative review meeting, the animal control director or designee shall issue a final determination, in the form of a written order, within 15 calendar days of the administrative review meeting. In the event the animal control director or designee declares a dog to be potentially dangerous, the order shall include a recital of the authority for the action, a brief concise statement of the facts that support the determination, and the signature of the person who made the determination.
4. An order determining a dog is potentially dangerous shall be delivered to the dog owner or keeper in writing, either by personal delivery or by regular mail.

D. The owner or keeper of a dog determined to be potentially dangerous under this chapter shall comply with certain requirements, which may include, but are not limited to, the following:

1. Erection of new or additional fencing to keep the dog within the owner's or keeper's property;
2. Construction of a dog run consistent with the size of the dog within which the dog must be kept;
3. Microchip identification, as set forth in Spokane County Code Section 5.04.036;

4. Keeping the dog on a leash adequate to control the dog or securely fastened to a secure object when left unattended;
 5. Keeping the dog indoors at all times, except when on a leash adequate to control the dog and under the actual physical control of a competent person at least 15 years of age; and
 6. The posting of the premises with at least one clearly visible warning sign that there is a potentially dangerous dog on the property. In addition, the owner shall conspicuously display a sign with a warning symbol that informs children of the presence of a potentially dangerous dog.
- E. The owner or keeper of a dog subject to a declaration that their dog is potentially dangerous may appeal the final written determination to the hearing examiner within 15 days after issuance of the decision by filing a notice of appeal with the animal control authority, subject to the limitation stated in subsection C of this section. The hearing examiner may adopt appropriate hearing procedures where procedures are not otherwise provided herein. The hearing shall be held within 20 days after receipt of the notice of appeal, unless it is continued for good cause shown. The animal control director or designee shall notify the owner or keeper in writing of the date, time and location of the appeal hearing before the hearing examiner, and said notice shall be received at least five days before the hearing. The appeal hearing shall be recorded, and the hearing examiner may allow testimony and documents that are relevant to the administrative determination that the dog is potentially dangerous. The owner or keeper of the dog may require, by at least two days' written notice, for the officer compiling the record to be present at the hearing. The owner or keeper of the dog may present evidence and examine witnesses present. The burden shall be on the Spokane County animal control director to establish by a preponderance of the evidence that the dog is a potentially dangerous dog.
- F. The hearing examiner shall issue a written decision, and mail a copy of the decision to the dog owner or keeper, and to the animal control director or designee, within 15 days of the appeal hearing. The hearing examiner's decision shall accept, reject or modify the administrative determination that a dog is potentially dangerous, and shall include findings of fact and conclusions of law that support the decision. The decision shall be given the effect of a final decision by the city council, and shall state that the decision may be appealed to superior court pursuant to Chapter 7.16 RCW within 20 days from the date the decision was received. (Ord. 08-001 § 3, 2008; Ord. 07-003 § 5, 2007).

ADMINISTRATIVE REVIEW REQUEST
FOR NOTICE OF
POTENTIALLY DANGEROUS DOG

Date: _____

Case: _____

Name: _____

Address: _____

City, Zip Code: _____

Phone Home: _____ Work: _____

DATE NOTICE OF DECLARATION OF POTENTIALLY DANGEROUS DOG WAS
RECEIVED: _____

I wish to request a hearing to present evidence as to why my dog should not be
declared a potentially dangerous dog.

Please return/mail to:
SCRAPS
6815 E Trent Ave.
Spokane, WA 99212

Office use only
Date Received: _____

This declaration of potentially dangerous dog is based on the records of Spokane County Regional Animal Protection Service (SCRAPS), copies of which are attached to this notice, labeled as Attachment "A", and incorporated herein by reference. This declaration may be challenged and appealed (SVMC 7.30.404(D)herein.)

Pursuant to SVMC 7.30.040(C), this notice constitutes a final determination that the dog is a potentially dangerous dog, unless the owner or keeper of the dog requests an administrative review meeting with the regional director or designee on the form provided with this notice within fifteen (15) days of the receipt of this notice and attends the meeting. This notice is deemed to be received three (3) days following its mailing. Failure to request an administrative review hearing shall constitute a failure to exhaust all administrative remedies and shall preclude any appeal of the administrative determination to the hearing examiner or to a court.

YOUR RESPONSIBILITY AS OWNER OF A POTENTIALLY DANGEROUS DOG

Pursuant to SVC 7.30.040(D) SCRAPS is imposing the following restrictions pending completion of an administrative review as described above:

(1) erection of new or additional fencing to keep the dog within the owner's or keeper's property;

(2) construction of a dog run consistent with the size of the dog within which the dog must be kept;

(3) Microchip identification, as set forth in Spokane County Code Section 5.04.036;

(4) keeping the dog on a leash adequate to control the dog or securely fastened to a secure object when left unattended;

(5) keeping the dog indoors at all times, except when on a leash adequate to control the dog and under the actual physical control a competent person at least 15 years of age;

(6) the posting of the premises with at least one clearly visible warning sign that there is a potentially dangerous dog on the property. In addition, the owner shall conspicuously display a sign with a warning symbol that informs children of the presence of a potentially dangerous dog.

Other:

Follow 4 or 5 in order to keep dog
under control of person or tethered when
unattended

If you request an administrative review meeting as described above, and then you appeal that decision to the Hearing Examiner, as provided in SVC 7.30.040(E) as the hearing officer(s) may, in his or her recommendation, delegate to the Spokane County Regional Animal Protection Service Regional Director or his/her designee the authority to establish further requirements or to refine and clarify the aforementioned requirements to effectuate the purposes of the ordinance. An owner or keeper of a

Entry Date/Time	Category	Notes	User
1/29/2022 2:00:31 PM		Christina Wolf called in, states she is currently homeless and does not have a phone. States she has not lived at the address on Lacy in a long time and she gave the dog away for free on Facebook about 6 months ago. She has no way to contact the person she gave the dog to, states it is some guy who lives by SCC. States even she wanted to come get Doja, she cannot as she is homeless and has no money.	Jennifer Mraz
1/29/2022 12:42:17 PM		Christina Wolf and Christina Wolfe are the same person, they have the same DOB, I corrected the spelling in Shelterbuddy. I called the number we had for her in Shelterbuddy. A woman answered and said I had a wrong number. // I was able to see on Facebook that Christina Wolf is now Christina Wolf Barrett, married to Maurice Barrett, the finder of the dog. I called the finder, Maurice. He states that him and Christina are separated and they have not lived together in about a year. States he had no idea this was her dog. States he does not know her current address or phone number. // According to dispatch job 35177, this dog was most likely at the address on Lacy in July of 2021.	Jennifer Mraz
1/29/2022 12:12:32 PM	Ownership Notes	upon further study, we have a Christina Wolfe (35993) in our system, registered at the same address as the "finder." (50971)	Katrina Kittley

Other Comments / Notes:

Jul 6 2021 5:42PM Email received from comp on 7/6: "I live next to the house at 2708 N. Lacey St., which is a rental house, by a family with 3 kids and 2 dogs. The family went somewhere for a few days and left one of the dogs inside the house with no air conditioning. We heard it howling miserably for 2 days. Someone, a family member?, came last night and put the dog in the yard. When I put my cat out this morning she indicated that it was in the yard, so I looked to see if it was ok, and it was limping badly and wouldn't respond when I whistled or called it. It acted like it was deaf and couldn't see, and held its head down while limping around, which is not normal activity for this dog. It has always been aggressive when people or animals are near the fence, growling and jumping on the fence, but it has the stuffing knocked out of it now. It also appears to have lost some weight. I believe it could be severely dehydrated, and the injury could be making it worse. Please feel free to call me at 509-957-6378. I will keep my phone with me as I have today off and will be available all day. (My house is 2703 E. Buckeye Ave) If someone does go to investigate, check to see if the person who came to check on the dog is still there before approaching the dog. It has attacked other animals and people without provocation before. I don't think it has any interest in doing so now, it looks miserable, but caution should be applied. I'm just concerned whether the animal has food and water and whether the family knows of the injury. Their kids spend a lot of time visiting at the house at 2703 N Lacey, a brick house on the NW corner of Lacey and Buckeye. Maybe they know where the family went? And possibly can contact them. Thank you for your time." // NEG LIC.

Jul 6 2021 5:45PM LVM for comp asking to CB tomorrow w/ dog description.

Other Comments / Notes:

5/24/23, 6:18 PM

- Jan 29 2022 12:50PM This dog was brought in today as a stray by Maurice. The dog has a microchip that leads back to Christina. I called the number we had for her in Shelterbuddy. A woman answered and said I had a wrong number. // I was able to see on Facebook that Christina Wolf is now Christina Wolf Barrett, married to Maurice Barrett, the finder of the dog. I called the finder, Maurice. He states that him and Christina are separated and they have not lived together in about a year. States he had no idea this was her dog. States he does not know her current address or phone number. // According to dispatch job 35177, this dog was most likely at the address on Lacy in July of 2021.
- Jan 29 2022 1:44PM Spoke with Maurice at residence. He stated he almost hit the dog down at or by mission. He did NOT recognize the dog as he wifes (Stated they've been separated and she took the dog with her months ago).
- Jan 29 2022 1:47PM Maurice offered to let me see/inspect his dogs indside. Jugger 5yr old (pbt type Grey/white), Layala (3yr old)White;Brown. Both dogs were friendly and in good health, weight etc.
- Jan 29 2022 1:49PM Checked with neighbors surrounding the house. None have seen Christina or the black dog in a long time (varied times ranging from 3-6mo).
- Jan 29 2022 1:55PM Christina called in, states she is currently living in her car and does not have a phone. She had to borrow a phone to call us. States she has not been with Maurice for some time. She had to rehome Doja about 6 months ago since she could not have a dog where she was staying. States she gave Doja away for free on Facebook to some guy that lives by SCC. She will not be coming to get Doja as she is living in her car and has no money.

Eyes Normal

Skin & Coat Abnormal Hair missing on the back of the hind legs, near rectum, and near vulva.

Mouth, Teeth, & Nose Abnormal Many areas of scarring on face. Dog would not tolerate opening her mouth.

Abdomen Abnormal Ulcerated and bleeding baseball sized mass on left side of abdomen. Dog is chewing and licking at it. Placed e-collar.

Limbs & Tail Abnormal Missing hair near tip of tail. Dime size mass on right hind leg.

Urogenital / Gastrointestinal Normal

Result:

Comments:

Date Spayed / Neutered:

Schedule Surgery Date: 2/3/2022

Stitches Removal/Wound Recheck Date:

Clinic Name: SCRAPS

Previously Spayed / Neutered: Yes

General Vet Notes: 1/31/22: P older dog, has thin fur on hind legs/tail all appear rub alopecia/chronic condition. Biggest concern is oozing mass left flank approx 3inches diameter firm, movable mass, appears infected. This mass needs surgical resection and histopath to help decipher next steps. Small 2cm mass right hip ulcerated pink recommend removal of this mass as well. Plan to get P into surgery, start antibiotics today for infection. Various other older dog changes, nuclear sclerosis, stiff joints noted. - BOK

2/1/22: Sent off cbc - Pending. In house chemistry - WNL/normal. - BOK

2/3/22: CBC looks ok to proceed with surgery. P previously spayed and has tattoo. Mass removals Left flank and right hip both sent for histopathology. Suture removal in 2 weeks. - BOK

2/14/22: Histopathology results returned, both masses removed were low grade mast cell tumors that were completely excised with surgery! From report: "Both mast cell tumors have features to suggest they fall on the lower to intermediate end of the spectrum of grade 2 mast cell tumors. Based on the two tiered grading scheme these tumors are classified as low grade. As such, the complete excision achieved in this case will most likely be curative. However, some mast cell tumors can behave unpredictably and therefore, periodic evaluation of both sites for local recurrence and the regional lymph nodes for spread is recommended. The presence of more than one cutaneous mast cell tumor at the same time is not prognostic. Individual

histologic grade is more important." This is good news, no further actions besides monitoring need to take place at this time. Adopters need to be aware that this is an older dog that two mast cell tumors were removed, unlikely to reoccur but they could, she could also have more come up in other locations. At this time she does not appear to have other masses but will need to be monitored for any growths of concern. - BOK

2/17/22: Removed sutures from two mass removal sites. Incisions healed well. Noticed that P does have three small dermal lumps 1cm or less diameter left flank area, two are slightly red, one skin colored/black - these need to be closely monitored, if growing/changing recommend removal and histopath. This dog is prone to mast cell growths. P is ok to be adopted, adopters to be informed/medical waiver that they understand she had mast cells masses removed and that she may possibly have more in the future. The ones removed were low grade and per report fully excised. Monitor small bumps noted on left side as well as remainder of body for other growths and to get them checked out if arise. P is older dog that is in search of a good home to live out her life. - BOK

3/14/22: Drew blood - rechecking as P noted to be vomiting some. CBC/Chem pending. P lumps on left flank are getting a little larger and a few more small lumps are popping up... Suspect these are possible mast cells as well. Once bloodwork returns will make potential plan for possible surgery again, this was my concern that long term this would happen. - BOK

3/18/22: Chemistry indicates mild increase in SDMA, possible early kidney marker but other kidney values comparable to prior bloodwork. CBC few changes but nothing specific to disease process and no treatments needed. Bloodwork appears to be holding stable. Foster looking into possible rescue transfer, which would be great for this pup. Ideally she could benefit from full abdominal ultrasound to make sure she does not have any abdominal organs with mass cells, at this time not showing us any clinical disease. P small lumps left flank are growing, if have bandwidth and rescue opts not to pull will work on getting P back on surgery schedule for another revision mass removal surgery. If rescue does pull, recommend they follow up with their vet and make a plan for possible surgery vs monitoring. - BOK

3/28/22: Visually on walk thorough today, noticed masses left flank are getting larger in size/qty. Possible foster/hospice dog, needs good EOL/QOL care... will discuss with LS. - BOK

4/5/22: Masses in left flank continue to grow/multiply. Recommend fospice placement and monitor QOL, if masses continue to grow/open up get ulcerated need to evaluate. Due to rapid growth and current area, surgical intervention is not recommended and not an operable option now. - BOK

4/7/22: P leg in last few days has suddenly turned for the worse, severe edema, ulcerations and severe discomfort due to spreading neoplasia in left flank. Unable to keep P comfortable any longer and humane euthanasia recommended and performed. SQ telazol + ace, IV euth solution. No heart beat or corneal reflex. - BOK

 Doctor: Dr. Beth O'Keeffe

Test	Results	Reference Interval	LOW	NORMAL	HIGH
Catalyst One (February 1, 2022 12:25 PM)					
GLU	105 mg/dL	74 - 143			
SDMA	13 µg/dL	0 - 14			
CREA	0.8 mg/dL	0.5 - 1.8			
BUN	17 mg/dL	7 - 27			
BUN/CREA	21				
PHOS	5.5 mg/dL	2.5 - 6.8			
CA	10.3 mg/dL	7.9 - 12.0			
TP	7.1 g/dL	5.2 - 8.2			
ALB	3.0 g/dL	2.3 - 4.0			
GLOB	4.1 g/dL	2.5 - 4.5			
ALB/GLOB	0.7				
ALT	122 U/L	10 - 125			
ALKP	52 U/L	23 - 212			
GGT	1 U/L	0 - 11			
TBIL	0.2 mg/dL	0.0 - 0.9			
CHOL	169 mg/dL	110 - 320			
AMYL	1076 U/L	500 - 1500			
LIPA	555 U/L	200 - 1800			
Na	153 mmol/L	144 - 160			
K	4.6 mmol/L	3.5 - 5.8			
Na/K	33				
Cl	120 mmol/L	109 - 122			
Osm Calc	306 mmol/kg				
TT4	1.2 µg/dL	1.0 - 4.0			

Diagnostic Interpretation for TT4

- < 1.0 µg/dL Low
- 1.0 - 2.0 µg/dL Low Normal
- 1.0 - 4.0 µg/dL Normal
- > 4.0 µg/dL High
- 2.1 - 5.4 µg/dL Therapeutic

Dogs with no clinical signs of hypothyroidism and results within the normal reference range are likely euthyroid. Dogs with low T4 concentrations may be hypothyroid or "euthyroid sick". Occasionally, hypothyroid dogs can have T4 concentrations that are low normal. Dogs with clinical signs of hypothyroidism and low or low normal T4 concentrations may be evaluated further by submission of freeT4 (fT4) and canine TSH. A high T4 concentration in a clinically normal dog is likely a variation of normal; however elevations may occur secondary to thyroid auto antibodies or rarely thyroid neoplasia. For dogs on thyroid supplement, acceptable 4-6 hour post pill total T4 concentrations generally fall within the higher end or slightly above the reference range.

SDMA:

SDMA and CREA within reference interval: impairment of GFR is unlikely. Recommended next step: evaluate complete urinalysis.

good!

<i>Scroll to second page for results...</i>				

Location 772:	Zoetis Reference Laboratories 300 High Rise Drive Suite 300 Louisville, KY 40213 web: zoetisreflabs.com Phone: 888-965-9652
----------------------	---

Reviewed By: _____ Date: _____

Patient	Species	Breed	Sex	Age	Clinical MRN
Scraps, Doja	Canine	Mixed Breed	F(S)		914774

DIAGNOSIS:

1. HAired SKIN AND SUBCUTIS, RIGHT HIP:

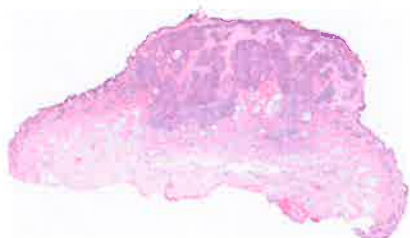

MAST CELL TUMOR; COMPLETELY EXCISED

**GRADE 2; [THREE-TIERED GRADING SCHEME]
LOW GRADE; [TWO-TIERED GRADING SCHEME]**

2. HAired SKIN AND SUBCUTIS, LEFT HIP:

MAST CELL TUMOR; COMPLETELY EXCISED

**GRADE 2; [THREE-TIERED GRADING SCHEME]
LOW GRADE; [TWO-TIERED GRADING SCHEME]**

The right hip mast cell tumor.

The left flank mast cell tumor.

CASE COMMENT:

Both mast cell tumors have features to suggest they fall on the lower to intermediate end of the spectrum of grade 2 mast cell tumors. Based on the two tiered grading scheme these tumors are classified as low

Patient	Species	Breed	Sex	Age	Clinical MRN
Scraps, Doja	Canine	Mixed Breed	F(S)		914774

grade. As such, the complete excision achieved in this case will most likely be curative. However, some mast cell tumors can behave unpredictably and therefore, periodic evaluation of both sites for local recurrence and the regional lymph nodes for spread is recommended.

The presence of more than one cutaneous mast cell tumor at the same time is not prognostic. Individual histologic grade is more important.

Vet Pathol. 2011 Jan;48(1):147-55. Proposal of a 2-tier histologic grading system for canine cutaneous mast cell tumors to more accurately predict biological behavior.

Small Animal Clinical Oncology. 5th ed. pg 335-346.

MICROSCOPIC DESCRIPTION:

Right hip:

Number of sections of tumor examined: three

PATNAIK GRADING SCHEME

Location: dermis and subcutis

Cell morphology: mild anisocytosis

Nuclear morphology: mild anisokaryosis

Mitotic Count (2.37mm²): zero

Architecture, stromal reaction, cellularity: nodular, raised, densely cellular, mildly infiltrative

1. Edema and necrosis: mild edema, no necrosis

TWO-TIERED GRADING SCHEME

Multinucleated cells with 3 or more nuclei in 10 400x fields: none

Number of bizarre nuclei in 10 400x fields: zero

Karyomegaly (nuclear diameters of at least 10% of neoplastic cells vary by at least two fold): not present

SURGICAL MARGINS (Cross sectional/radial method): There are approximately 2.5 mm at the deep margin and approximately 7 mm at the narrowest aspect of the peripheral margins.

Left flank:

2. Number of sections of tumor examined: three

Karyomegaly (nuclear diameters of at least 10% of neoplastic cells vary by at least two fold): not present

SURGICAL MARGINS (Cross sectional/radial method): There are approximately 5.5 mm at the deep margin and approximately 1 cm at the narrowest aspect of the peripheral margins.

CLINICAL HISTORY & TENTATIVE/WORKING CLINICAL DIAGNOSIS-DIFFERENTIAL DIAGNOSIS:

Submitting Veterinarian: Elizabeth O'keeffe

Clinical history received and the requisition form has been provided to the pathologist, digitized and uploaded to this case.

Submitting Clinician Working Clinical Diagnosis or Differential Diagnosis:

No preliminary clinical diagnosis or differential diagnosis was provided.

SPECIMEN(S) GROSS DESCRIPTION:

- Right hip: Jars: 1/2; Pieces of tissue: 1; Tissue Sections: 3; Cassettes: 2.
Left flank: Jars: 2/2; Pieces of tissue: 1; Tissue Sections: 6; Cassettes: 6.
