Job Highlights

The Public Works & Utilities Department consists of three divisions: engineering, public utilities, and facilities management.

ENGINEERING

Engineering (3 FTE) serves as a technical resource supporting the Board of Supervisors' vision. Many of the division's duties include service for other departments or coordination with other departments. Engineering manages projects and serves as technical support for a variety of programs. Engineering manages the Engineering, Public Safety Radio and Landfill budget units. The division manages and operates the following programs: • Capital Project Planning and Delivery • Engineering Support Services • Local Oversight of Landfills and Convenience Centers • Public Service Radio System Administration • Hazard Mitigation Administration (FEMA Residential Elevation) • Security Support Services (Keys, Card-Access Badges and software control) • Floodplain Administration • Community Rating System Administration • Public Services (Facility Use, No Wake and Misc. Services) • Debris Management

PUBLIC UTILITIES

Public Utilities (28 FTE) provides potable water and sewer service to support existing and future development in the County. The division provides potable water to almost 5,054 accounts (10,000+ people) and sewer service to over 1,700 accounts (4,400+ people) in the county. Gloucester County discharges sewage to the Hampton Roads Sanitation District (HRSD) which provides conveyance and treatment of wastewater from Gloucester.

FACILITIES MAINTENANCE

Facilities Management (24.5 FTE) is responsible for maintenance, general repairs, groundskeeping, and custodial care of County and School properties. The division provides maintenance and inspection services on County vehicles and equipment as well as furnish seasonal mosquito control in Mosquito Control Districts. Staff are skilled in automotive & equipment repair, carpentry, landscaping, HVAC, masonry, mosquito control, painting, plumbing, and sign making. Staff

performs interior building renovations and completes small construction projects. Generally, the division provides services to internal customers from other county departments providing a productive work environment for their missions. The division is also responsible for communication and interaction with management companies for leased space to coordinate maintenance required by the lease agreements.
