## San Leon MUD Awarded Nearly \$15 Million in Funding

Austin, TX / June 6, 2023

During the regular meeting of the Texas Water Development Board on Tuesday, San Leon MUD's District Manager Andrew Miller presented a sewer improvement project to the board members.

The majority of San Leon's existing sewer mains are original to the District's initial development in the 70s and 80s and are comprised primarily of ABS truss pipe. Deterioration over time and poor soil conditions have degraded the integrity of the system and warrants evaluating the more than 50 miles of gravity sewer mains so that the District can rehabilitate or replace the mains where necessary.

The proposed project would also take into consideration the integrity of service connections and manholes as they are an additional source of inflow and infiltration, which can cause further degradation of the collection system. After some deliberation, the board unanimously approved the funding request, which will be comprised of a \$10 million grant, \$3,055,000 in a 0% interest loan,

Andrew Miller, San Leon MUD's District Manager, recently presented an improvement project to the board members.

and \$1,310,000 in a low-interest loan that will be reasonably priced as a result of the District's excellent credit rating.

While the project will take some time to complete, the finished product will ensure reliable service for San Leon residents for years to come.

## Bayside Briefs

### From Senator Mayes Middleton – Senate Bill 15 –

Governor Greg Abbott holds signed Bill 15 - A win for Women Athletes! Senator Mayes Middleton, author of this bill, sits beside the governor.

Last week Governor Abbott officially signed the **Save Women's Sports Act, Senate Bill 15**, into law. I am proud to have authored this important piece of legislation to keep men out of women's sports.

Mayes Middleton standing next to Governor Greg Abbott

The **Save Women's Sports Act** protects fairness in women's college sports by ensuring biological men don't cheat women out of victories, hard earned spots on teams, steal athletic records from female athletes, and put women's athletic scholarships unfairly at risk. Generations of women before us have fought for the opportunity to compete, and you can't have fair competition when women are forced to compete against biological men. With SB 15, Texas will ensure fairness for women in sports.

## FIREWORKS OVER TEXAS

Fireworks can be bought and sold in the state of Texas six times a year. Every time it gets close to a holiday, people enjoy fireworks weather it be going to a large gathering and watching a professionally put together fireworks display or setting them off in your driveway. Another thing that also blows up is social media. If you have a dog that is terrified of fireworks, do something to calm him or her down. Talk to your vet, there are pills you can give them to help keep

them calm. A lady I know takes her dog and all his bedding along with his toys to the bathroom, where she puts on music and sits in there with him saying "it's ok" this ritual of hers goes on for hours.

There is nothing more aggravating than going on the Nextdoor social media app on the 5th of July and seeing that Suzi Q is looking for her lost dog because it got out during the fireworks on the 4th of July. It is her fault the dog got out! If your dog is scared of fireworks do something for the dog before the fireworks start. When I go on social media and see all the pictures of lost pets do to fireworks, it takes everything to hold me back from calling you out.

Fireworks have been blown off since 1777 and it will continue to happen. I have seen people suggest taking a \$20.00 bill to a shelter instead of buying fireworks - Tell little Timmy that.

## NEW NEWS: The Seabreeze Gets a Make-Over

Many of you may notice, the Seabreeze has changed it's look a bit. Since I acquired the paper, I have kept it mostly the same. For reasons from knowing it is a local favorite, to being too deep in the mix to try anything new.

Recently, I have decided to give it a make-over on the surface only. DON'T WORRY, all the same corny jokes, fishing news, letters to the editor and Police Blotter will all still remain. Only the look will be fresh.

I have teamed up with Debbie Kirby, of Kirby Advertising to create a new look for us. (She is also available to create your ads too, you can contract her directly for that.)

I LOVE and VALUE my bayside communities who read this publication. This is a fun—and sometime, sassy paper, and that will not change! I appreciate all my advertisers and those who send in news. So, enjoy and send feedback, but only if it is good.

# LETTERS TO THE EDITOR

Dear Editor,  
My mom and dad pick your paper up at a little bar called Pelican Jaxs, I will see it laying on the coffee table, so I will pick it up and read it. You do have some funny stuff in it. I am writing to you because I know you are old and may have some good advice for me. I am a 15 year old girl and have 2 brothers that non stop bug me, they get into my room and go through my stuff. I actually caught them trying to break the lock on my diary!

– Oh Brother In Texas City

Dear Oh Brother,  
You are correct I am old, right now I am 56 and half years old. My best advice to you is to cherish your brothers. If they are snooping through your stuff, set them up to find some real creepy stuff! They will now be scared of you.

Growing up with my 2 brothers BACK IN THE DAY, I was 12 when they put on my grandmother's wigs and tied bandanas around their heads and took all the tobacco out of my new pack of cigarettes, rolled it up in a sheet of notebook paper and ran around the apartment talking about Cheech & Chong. They lit it on fire and were talking about, I think it's Labrador.. When you have taken all you can take, save your money and take them to the roller rink and trip the biggest guy in there and when he looks at you in anger simply smile and say "If you have a problem with me, there are my 2 brothers over there, take it up with them!"

Dear Editor,  
Most of us have always heard the term "Deadbeat Dad", well I think I have witnessed a deadbeat Mom.

I live in a small apartment complex in Seabrook and on Sundays, we all get together in the courtyard and have a covered dish party. David will bar-b-que some chicken or burgers and Sally will bring potato salad and so on. Last Sunday the new lady attended the covered dish party and we all welcomed her into the group. We do enjoy adult beverages at the party, there are no children allowed to live in the complex so why not. We were all having drinks and eating when out of the blue the new lady out a bottle of tequila and we all had a shot, and she proceeded to drink several more shots. She proceeded to tell us that she had 2 kids and they lived with their dad and his new wife. She said that he won't let her see the kids because she is behind on her child support. Is this normal? And can she fight him on this? Or is she just a deadbeat Mom?

– Curious In Seabrook

Dear Curious,  
By gosh, I do believe you and your group have encountered a deadbeat Mom. The first clue is that the ex-husband has custody of the kids, not to mention she lives in an all adult apartment complex. The fact that she is behind on her child support in this day and time tells me she is working under the table somewhere. The state of Texas will garnish wages for child support, they will also take more than what the court has determined when you are behind till you're caught up.

So yes, not only did you hang out with a drunken deadbeat Mom you also hung out with a shyster that beats the system!

# Memories of Rabbit and his Electric Scooter

Rabbit, San Leon's oldest active resident moved to San Leon after the 1900 storm.

Last week he was issued an electric wheel chair. He drove his new electric chair down to a famous old San Leon watering hole and proceeded to drink that watering hole dry. his 29 year old wife of 2 years tried to slow him down till they got in an argument and she went home. Two of the patrons told him that he had drank too much to drive his electric chair back home and they tried to take his chair from him. A fight ensued and all hell broke loose.

The bar owner was about to call the law when "Rabbit's" 19 year old Mistress arrived and took him home. He retrieved his electric chair the next morning and all was well in Sunny San Leon.

# San Leon MUD Update

## Smart Irrigation Month

Yards can quickly die in the brutal Texas heat if not adequately watered, but overwatering can also drown the yard, resulting in shallow roots and decreased resilience. Most lawns only need about 1" of water per week to stay green and healthy. Place a few empty tuna cans around your lawn while you're watering and measure how long it takes your sprinkler to fill them with a half-inch of water. Then, try watering that amount of time twice a week, gauge how your landscape responds, and adjust based on weather conditions. Also, try to avoid watering in the middle of the day when the hot sun will evaporate much of the water before it can get to thirsty plants. For more tips, visit <https://takecareoftexas.org/water>

### Dates to Remember

## Heat, Drought, and Burn Bans

If you're planning a controlled burn on your property, don't forget to file with Galveston County Health District for a burn permit! While recreational burning can be done without a permit, disposal of brush and debris does need a permit so that the appropriate agencies can be prepared to respond in case the fire gets out of hand. Also, be sure to check with local authorities to determine if fireworks will be permitted this holiday season based on current drought conditions.

## Conservation Tip of the Month

The MUD meetings are open to the public & are typically held on the third Tuesday of every month at 6:30 PM. Agendas can be found three days before the meeting at the MUD office or online at [www.slmud.org](http://www.slmud.org)

## San Leon Don's FISHING TIPS

Don is on a first name basis with most of the local fish...

Well it's about time I said something about our fishermen and the pollution we are responsible for.

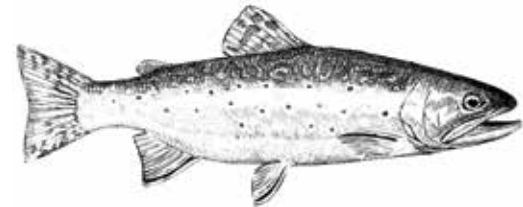

We've all heard every little bit counts. As fishermen we need to do our part to keep the bay waters as clean as possible by not throwing cans, bottles or any plastic in our waters. If you have any fishing line from backlash please put it in a bag and dispose of it properly.

There are a lot of places to dispose of bags and trash properly, most boat ramps have containers or sporting goods stores.

Monofilament lines can entangled birds, fish, crabs and many other sea life that live in our bays. It can also get tangled in the prop on your boat.

Just remember your little bit helps, keep a trash bag with you when fishing.

*Tight lines everyone.*

**FORGIVE ME, MOMMY...** I was there where you left me for two whole days. Sleeping right on the side of the road. I was terrified of the noise from the cars but I did not move. Last night one of those cars stopped and she got out. She invited me to lunch but I said no. She invited me to come sleep at her house and I also said no. I tried to explain to her that I was waiting for you but she wouldn't listen. She pulled out a leash and said I couldn't stay there any longer. I bit her several times and ended up peeing on myself as I growled and cried! She didn't understand that she was separating me from you! She took me against my will and we drove off! I was so sad because I knew you were going to be worried.

We ended up at her house. I kept screaming hoping you would hear me but you never came. I vomited because of my nerves, feeling so sick. I kept telling her I had to go back because you were going to think I abandoned you when you saw I wasn't there! I, who love you with all my heart and soul, have not stopped crying since we separated a few days ago. I want you to know, I would never do that to you. I don't know where you are now or why you stopped the car and left me there. Surely you had something very important to do. Can you come and me now, mommy?

Today I ate because my tummy was hurting. I also slept on a very soft bed. And by accident I also wiggled my tail a bit. I'm so sorry, please forgive me. She's just being really nice to me. She said I could stay forever. She's calling me Milo but I already have a name. When you pick me up you can tell it to her. You'll see how surprised she'll be when you explain to her that this was a big mistake. Because mommy, you're coming back for me, right?

# DEAR STEVE

## SEND IN YOUR LETTERS

Most of our readers loved the "Dear Steve's", so I have shared some from 2007 and 2008. He had some "Dear Steve's" that I could never get away with printing, he was awfully funny!

I have searched high and low to get y'all some funny material. I have been in negotiations with a man that I think has a close enough mind set as our "Dear Steve" did.

The negotiations have been going on for about a year, some of it has been crazy! No, I will not be delivering you beer and pizza every Friday! I will not clean your boat once a month, those are a few things that I had to tell him so, I think he will be a good fit for The Seabreeze News.

I did agree to keep his damn beer stocked at my place, and I would treat him and his wife to a pasta dinner on Seabreeze Thursday, and a few other stuff that I will leave private because it was down right redickulous!

Look for The Seabreeze News Dear \_\_\_\_\_, I promise he will not disappoint. I have had a few close friends send in mail to him through me. I will have to monitor this pretty damn close.

All letters need to be mailed to:

# Brake for Turtles!

● If you see a turtle on the road **slow down, pull over to the side of the road** and when its safe help them get across in the same direction they were going.

● Use both of your hands to hold them at the sides near the end of their shells, and lift them up to move. Always keep your hands away from their faces.

● Never pick them up by the tail, you can damage their vertebrae.

● Save a turtle, be conscious of wildlife and slowdown.

# FUNNY BONES

A CIA Agent, KGB spy and AISE operative were sent to infiltrate a terrorist cell. The terrorists figured out the three were infiltrators and thus captured them.

The terrorists decided to torture the three infiltrators. They started with the CIA agent.

"Do not worry, for I have been trained in the United State's most insidious enhanced interrogation techniques and how to resist them." They heard the agent crying for around 10 minutes before he was tossed back in the cell, bloodied and bruised.

"I failed. I told them everything I knew."

Next, the terrorists came for the KGB spy.

"Comrades, there is nothing to fear. For our glorious cause, I have survived in the most dangerous areas of the Motherland, and will not fail!"

Once again, screams reached the cell, but the KGB agent lasted only 30 minutes, then he was tossed back in the cell with several broken bones.

"Comrades, I am ashamed to admit that I have betrayed the glorious Motherland and divulged all manners of secrets."

Finally, the terrorists came for the AISE operative. With his head resigned, knowing that members of the two greatest spy agencies failed, he was unsure as to how he would survive.

The torture started. Screams concern again echoed within the cell. But they didn't soon cease. 10 minutes passed, then a half hour, then hours. Throughout that night, the torture continued. It went on for an entire week, but it didn't seem that the AISE operative would break. When the week was up, the terrorists tossed a very broken man back in the cell.

The KGB and CIA agents were surprised. "How did you last so long?"

Through a mouth of broken teeth and blood, the AISE operative replied.

"I tried to tell them everything, but my hands were tied."

*BTW: AISE is the Italian foreign intelligence agency*

*After I retired, my wife insisted that I accompany her on her trips to the local grocery store. Unfortunately, like most men; I found shopping boring and preferred to get in and get out. Equally unfortunate, my wife is like most women - she loves to browse. Yesterday my dear wife received the following letter, from the local store manager:*

Dear Mrs. Harris:

Over the past six months, your husband has caused quite a commotion, in our store. We cannot tolerate this behavior and have been forced to ban both of you from the store. Our complaints against your husband, Mr. Harris, are listed below and are also documented by our video surveillance cameras:

1. **June 15:** He took 24 boxes of condoms and randomly put them in other people's carts when they were not looking.
2. **July 2:** Set all the alarm clocks in Housewares to go off at 5-minute intervals.
3. **July 7:** He made a trail of tomato juice on the floor leading to the women's restroom.
4. **July 19:** Walked up to an employee and told her in an official voice, "Code 3 in Housewares. Get on it right away" This caused the employee to leave her assigned station and receive a reprimand from her Supervisor that in turn resulted with a union grievance, causing management to lose time and costing the company money. We don't have a Code 3.
5. **August 4:** Went to the Service Desk and tried to put a bag of M&Ms on layaway.
6. **August 14:** Moved a "CAUTION - WET FLOOR" sign to a carpeted area.
7. **August 15:** Set up a tent in the camping department and told the children shoppers he'd invite them in if they would bring pillows and blankets from the bedding department to which twenty children obliged.
8. **August 23:** When a clerk asked if they could help him he began crying and screamed, "Why can't you people just leave me alone?" EMTs were called.
9. **September 4:** Looked right into the security camera and used it as a mirror while he picked his nose.
10. **September 10:** While handling guns in the hunting department, he asked where the antidepressants were.
11. **October 3:** Darted around the store suspiciously while, loudly humming the, *Mission Impossible* theme.
12. **October 6:** In the auto department, he practiced his "Madonna Look" using different sizes of funnels.
13. **October 18:** Hid in a clothing rack and when people browsed through, yelled "PICK ME! PICK ME!"
14. **October 22:** When an announcement came over the loud speaker, he assumed a fetal position and screamed; "OH NO! IT'S THOSE VOICES AGAIN!"
15. **October 25:** Took a box of condoms to the checkout clerk and asked where is the fitting room?

**And last, but not least:**

16. **October 28:** Went into a fitting room, shut the door, waited a while; then yelled very loudly, "Hey! There's no toilet paper in here!" One of the clerks passed out.

### Heat Stroke vs Heat Exhaustion

Heat stroke is a life-threatening condition that occurs when the body can no longer control its temperature. It's more common in hot, humid weather.

Symptoms of heat stroke include:

- » Nausea
- » Dizziness
- » Headache
- » Muscle cramps
- » Hot, dry, red skin
- » Confusion
- » Seizures
- » Loss of consciousness
- » Body temperature above 103°F
- » Rapid and strong pulse
- » Fainting

Heat stroke is a severe medical emergency. If you think someone is having a heat stroke, call 911 or get them to a hospital immediately.

# HURRICANE SEASON ANIMAL PREPARATION

Your pets are an important member of your family, so they need to be included in your family's emergency plan. To prepare for the unexpected follow these tips with your pets in mind:

## Make a Plan

If you have a plan in place for you and your pets, you will likely encounter less difficulty, stress and worry when you need to make a decision during an emergency. If local officials ask you to evacuate, that means your pet should evacuate too. If you leave your pets behind, they may end up lost, injured or worse.

## Things to include in your plan:

Have an evacuation plan for your pet. Many public shelters and hotels do not allow pets. Know a safe place where you can take your pets before disasters and emergencies happen.

**Develop a buddy system:** Plan with neighbors, friends or relatives to make sure that someone is available to care for or evacuate your pets if you are unable.

**Have your pet micro chipped.** Make sure to keep your address and phone number up-to-date on their chip and include contact information for an emergency contact outside of your immediate area.

Contact your local emergency management office, animal shelter or animal control office to get additional advice and information if you're unsure how to care for your pet in case of an emergency.

## Build a Kit for Your Pet

Just as you do with your family's emergency supply kit, think first about the basics for survival, such as food and water. Have two kits, one larger kit if you are sheltering in place and one lightweight version for if you need to evacuate. Review your kits regularly to ensure that their contents especially medicines.

Animal Emergency Kit:

**Food:** Keep several days' supply of food in an airtight, waterproof container.

**Water:** Store a water bowl and several days' supply of water.

**Medicine:** Keep an extra supply of the medicine your pet takes on a regular basis in a waterproof container.

**First aid kit:** Talk to your veterinarian about most appropriate items for your pet's emergency medical needs.

**Collar with ID tag and a harness or leash:** Include a backup leash, collar and ID tag. Have copies of your pet's registration information and other relevant documents in a waterproof container and available electronically.

**Traveling:** bag, crate or sturdy carrier, ideally one for each pet.

**Grooming items:** Pet shampoo, conditioner and other items, in case your pet needs cleaning up.

**Sanitation needs:** Pet litter and litter box if needed, newspapers, paper towels, plastic trash bags and

household chlorine bleach to provide for your pet's sanitation needs.

**A picture of you and your pet together:** If you become separated, a photo of you and your pet together will help to document ownership and allow others to help find your pet.

**Familiar items:** Put favorite toys, treats or bedding in your kit. Familiar items can help reduce stress for your pet.

## Tips for Large Animals

If you have pets such as horses, goats or pigs on your property, be sure to prepare before a disaster.

Ensure all animals have some form of identification. Evacuate animals earlier, whenever possible. Map out primary and secondary routes in advance.

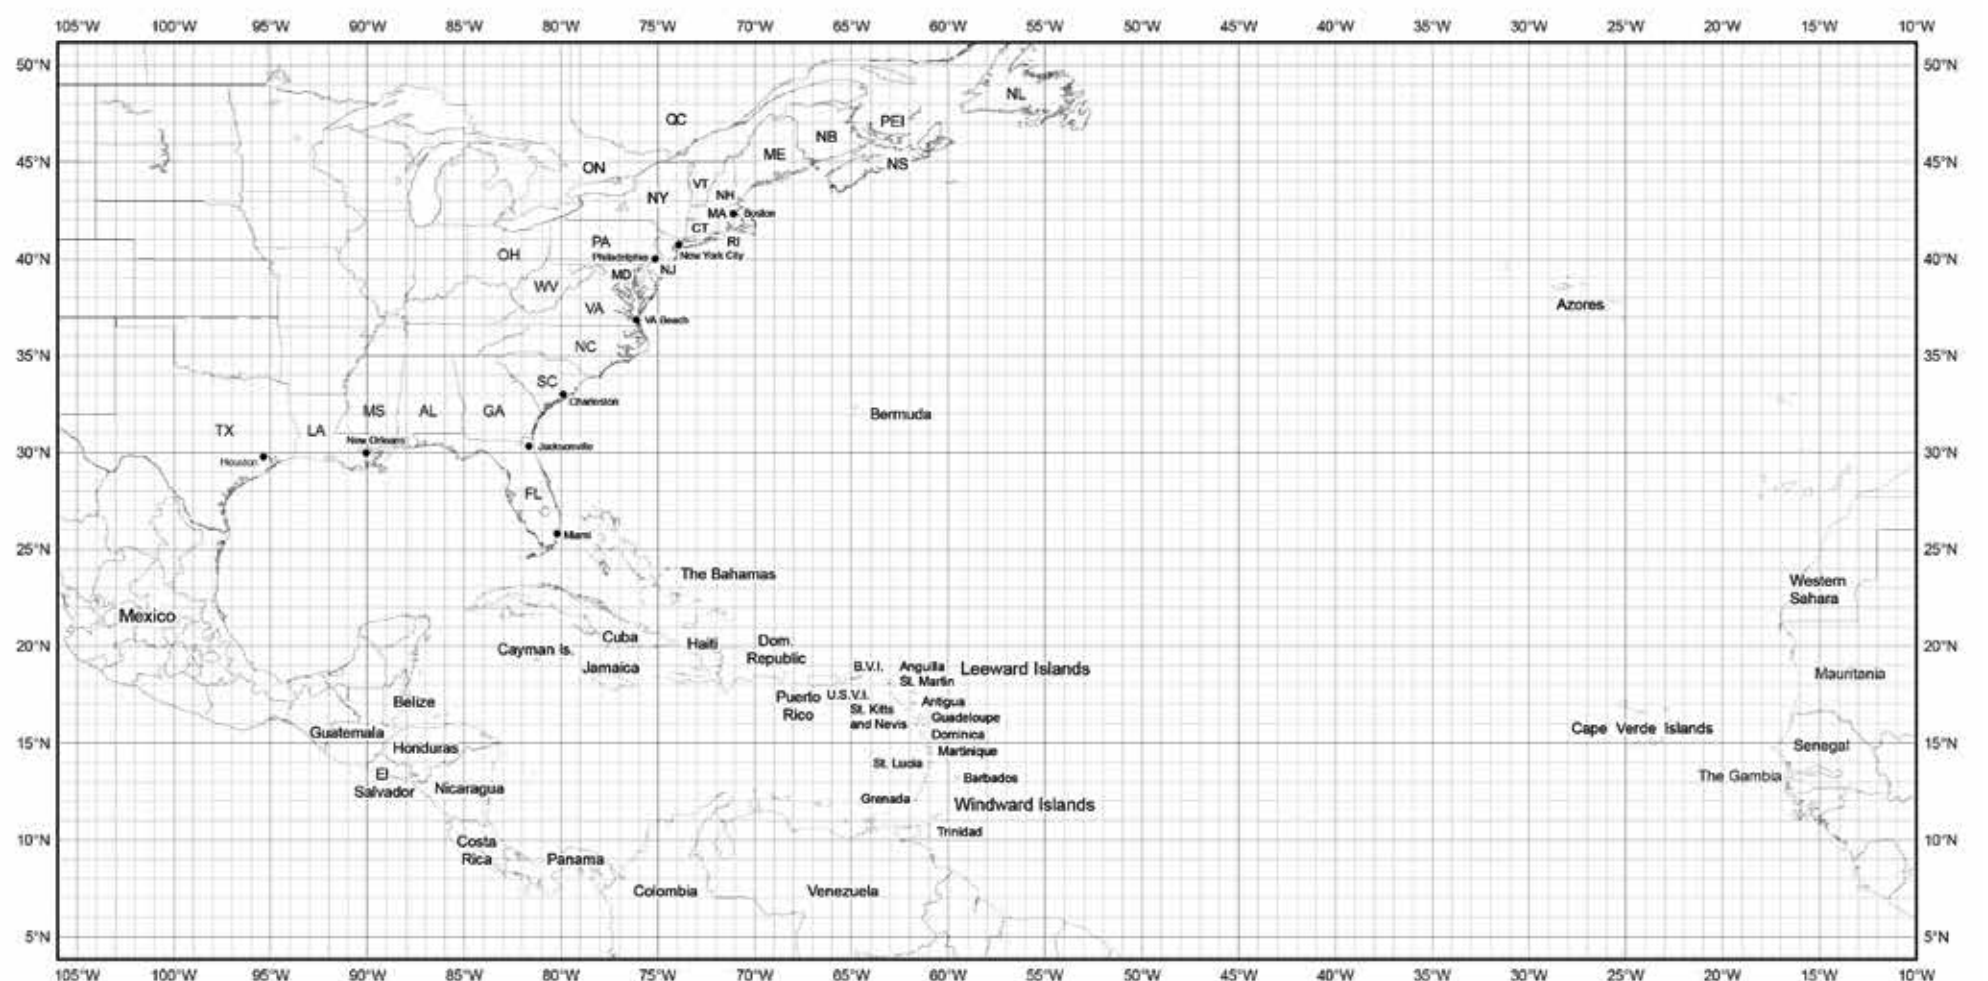

Make available vehicles and trailers needed for transporting and supporting each type of animal. Also make available experienced handlers and drivers.

Ensure destinations have food, water, veterinary care and handling equipment.

If evacuation is not possible, animal owners must decide whether to move large animals to a barn or turn them loose outside.
