To Whom It May Concern:

On Tuesday, May 5, 2015, Michael came to our property to demolish an old trailer. Not only did we find him to be very congenial and helpful, but also very professional and so skillful with his trachoe. It was most amazing to watch him operate as if the bucket were an extension of his hand. He could pick up the minutest items with the bucket. We were so impressed with his work. He left our property very clean and very little debris in spite of a high wind that day.

We wanted to make sure that everyone in your company is aware of how great he and his skills were to us. We so appreciate his work and we are glad we used your company. We will gladly recommend your company to anyone who needs your company's services.

Thank you,

Anita and Scott Wetherhold
