End Product

How will the end product be used? (Point to Point Radios, Radar, etc.) (Please include details such as Application/frequency.) If Research, please indicate the nature of the research.

Will these products be used with the design, development, or use with Chemical, biological, nuclear weapons, or with missile technology or UAVs?

Yes

 No

If yes, Explain:

I understand that product(s) indicated in this statement may be subject to one or more Government export regulations and could fall under the jurisdiction of the Department of Commerce or the Department of State.

I confirm that the product(s) listed will only be used for the end use stated and will not be used for nuclear, biological, chemical weapons or missile technology capable of delivering these weapons in accordance of Part 744 of the EAR.

I agree to observe all United States Government lists of Denied Persons, Denied Entities, and Prohibited Countries. I further confirm that the product(s) will not be re-exported or sold to third parties other than noted. I also understand it is unlawful to export or otherwise attempt to transfer any product or technical data to any foreign person, abroad or in the United States, for which a license or written approval of the U.S. Government is required, without first obtaining the required license or written approval from the appropriate Government agency. I confirm that all product/market related information provided by Peak is considered proprietary under intellectual protection rights of Peak unless otherwise mentioned and I have a duty to protect confidential information.
