CITY CONCEPTS' EXEMPLARY FUSION OF
INNOVATION AND ELEGANCE

At City Concepts, we take exceptional pride in our ability to transform spaces into extraordinary environments that inspire and captivate. Our recent collaboration with BW Interiors on the Welbeck Street project has earned the esteemed recognition of "Space of the Month" for July 2023. This editorial provides us with the opportunity to explore the intricacies of this exceptional project, offering a closer look at our steadfast dedication to delivering extraordinary spaces that redefine the benchmarks of innovation and elegance.

Welbeck Street is a testament to our ability to seamlessly blend innovation and elegance. Through meticulous attention to detail, we supplied and installed single and double glazed partitions with horizontal 'Crittal' effect banding, spanning an impressive 125 meters. This visually striking design element adds a contemporary flair and elevates the overall aesthetic appeal of the space to new office design heights.

STEP INTO THE FUTURE WITH OUR INNOVATIVE SWITCHABLE GLASS BOARDROOM DOORS AND EXPERIENCE THE LUXURIOUS AMBIANCE CREATED BY OUR BESPOKE HANDLES.

Our dedication to quality is reflected in the systems and finishes chosen for the Welbeck Street project. We carefully selected a combination of Concept 54 Single and Concept 54 double systems, paired with RS62 and RD62 single and double glazed doors. This meticulous selection ensures not only a visually cohesive environment but also optimal functionality and performance.

Our dedication to impeccable craftsmanship is evident throughout every facet of the project. Partnering with Franchi Ironmongery, we curated bespoke pivots, floor stops, and cranked pull handles that were meticulously finished in the captivating 'Tiger 68/60306GB Anodised Bronze.'

This exclusive colour selection imparts an unparalleled sense of sophistication and elegance, elevating the experience to extraordinary heights. Notably, our commitment to creating personalised

and luxurious spaces shine through in select meeting rooms, where cranked bronze handles adorned with a leather-wrapped section and contrasting stitching add an extra touch of refinement.

Throughout the Welbeck Street project, we demonstrated our ability to navigate coordination challenges with finesse. Incorporating Abloy security locks within specific entrance doors required meticulous planning to ensure the highest standards of safety and security. Our collaboration with the electrical contractor to commission the switchable glass doors in the boardroom further exemplified our proficiency in managing intricate coordination tasks, resulting in a dynamic and flexible space.

A remarkable highlight of the Welbeck Street project is the inclusion of a switchable glass boardroom...

INNOVATION AT ITS FINEST: CITY CONCEPTS' WELBECK STREET PROJECT PUSHES THE BOUNDARIES OF GLAZING PARTITION SOLUTIONS.

door set. This innovative addition offers the flexibility to control privacy as needed, providing a versatile and adaptable solution for various meetings and events.

We would also like to extend our appreciation to Franchi for their collaboration on the bespoke handles, which enhances the overall aesthetic and exclusivity of the project, ensuring an exceptional and tailored experience.

Welbeck Street exemplifies our unwavering commitment to craftsmanship, innovation, and elegance. As the recipient of the prestigious "Space of the Month" title for July 2023, we at City Concepts continue to redefine the possibilities of interior spaces. From our impeccable glazing solutions to our meticulous attention to detail and coordination efforts, we create environments that inspire, captivate, and leave a lasting impression.

With every project we undertake, we are driven to push the boundaries of what can be achieved, creating spaces that surpass expectations and set new industry benchmarks. Welbeck Street stands as a genuine testament to our unwavering dedication and expertise.

As we eagerly anticipate new ventures, we embrace the opportunity to embark on projects that challenge us to innovate further, allowing us to continually deliver exceptional spaces that elevate the human experience to new heights.

At City Concepts, we believe that every space has the potential to be extraordinary.
