

## Beach Vacation Part 4

(By: Karen Murray)

### Part 4

At dinner time, we went back to the house. Cathy and I were instructed to strip down in the backyard, extract the Ben-wa balls, shower, wash each other and then come inside the house. We were strictly forbidden to make ourselves or each other cum. When we got inside we found the boys getting dinner ready. We were told to just go into the living room and sit down (again we were told not to play with ourselves). The boys brought in platters of hamburgers and fixings and chips and beer. When we all had finished, the boys had us stand up. They moved to particular seats that were good for watching the television.

Dave had me bend over in front of him and he applied a generous coat of butter to my asshole, gently but thoroughly poking it into me. Jim did the same thing to Cathy. Then Dave held my waist and guided me onto his lap. He had me put one hand between my legs to hold his cock and aim it into my asshole. When I had impaled myself on his hard cock, he pulled me down snug and then back to lie against his chest. When Cathy was in the same position, Jim picked up the remote control for the TV and VCR and turned them on. The video tape was a special one they had found. It was all about a pair of college girls who majoring in ass fucking. Every other scene was one or both of these girls with a thick cock up their ass. And Cathy and I watched with our own lovers buried in our tails.

After about 30 minutes Cathy and I were so hot, and so eager to cum, the boys let us finger ourselves, still sitting on their cocks. We were allowed to cum three times before the movie ended. We were hot, with tender ciltties from the fierce rubbing we gave ourselves and still very eager to satisfy the cocks that were filling our asses. The last scene in the movie was an orgy where the girls were placed mouth to cunt and told to lick each other (their first time supposedly) while a dozen or so guys took turns fucking their asses. During this very hot scene, Cathy and I were not allowed to play with our clits or finger our holes.

The two girls in the movie out fucked all the guys and were still so horny that they fell back into each others arms and kept eating each other during the closing credits. Jim shut off the TV and VCR and we were told to stand up. The boys cleared to table and moved it out of the way. We were laid down on the floor in a sixty nine position on our sides, but were told not to start anything. Dave laid down behind me and slipped into my ass again. Jim laid down and slipped into Cathy. Now we were told that we could start licking each other and the boys would start fucking us, and no one was to stop until they were totally exhausted. I figured that after three finger fucks, Cathy and I would not last as long as the boys, who had shown remarkable sexual patience.

The slickness that had been delivered to our tails all day long had not yet dissipated and we were able to take the ass fucking for a very long time. My tongue and jar got tired before my cunt and ass did. The boys switched asses after each orgasm, but after the third one, both cocks were just a little too limp to continue. Cathy and I worked up enough energy to spend licking each other a bit after the boys gave up, just to show them we were just as good at fucking as the girls in the movie. When we went to bed, I fell asleep on Dave's chest rather than cuddled up like spoons, which is our normal position (my ass was a bit warm).

On Thursday, we were told that we could please each other as much as we wanted to. Thursday would be our lesbian day. At breakfast, we gave the boys a good sucking before we climbed onto the table. Cathy and I kissed, trading cum from our lovers, while they sweetened our cunts with the maple syrup. After we swallowed the boys cum, we laid down in a familiar 69 position (me on top) and we licked at each other's hot sweet cunt until we had both had a very pleasurable orgasm.

We were taken to the bathroom and Cathy and I washed up thoroughly while the boys watched. We purposely spent a lot of time soaping up tits and cunts and asses. Cathy asked the boys to hold my ass cheeks open so she could soap my asshole very completely. I had to do the same to her, and I took it a step further and filled her ass from a prepared enema bag. I plugged her ass and then had the boys hold her spread-eagle against the wall while I applied another soapy coat to her tits and cunt (giving her one more good orgasm while I licked her soapy cunt wildly).

She enjoyed filling my ass with the enema and then when I was held spread-eagle Cathy used a dildo to make my cunt cum. The boys helped us trade two more enemas before Cathy and I rinsed off and got ready for the beach. At mid-morning, Cathy suggested we go into the water. In the water, Cathy and I inserted the Ben-Wa balls into each other and we giggled all the way back to the blankets. The boys kept us very hot by having Cathy and I recall every lesbian activity we had done starting with the ski trip.

We stayed late at the beach, because it was going to get cloudy that afternoon and the boys said Cathy and I could go shopping instead of returning to the beach. Lunch time was very simple, strip in the backyard (the boy next door was watching today), a shower (we were allowed to cream each other as much as we wanted) and then lunch. After lunch, Cathy and I put the balls back into our cunts and went shopping.

At each store where we tried on clothes, we went into the same changing booth and played with each other. At one place (a bikini shop) the store clerk got upset with our giggling and asked us to stop. Cathy grabbed her, pulling her into the booth with us and held her while I removed the bitch's top. She had bigger, firmer tits than I had played with in a long time and I just had to squeeze them. I stripped off her bottoms and then held her for Cathy to play with a bit. Cathy gave her enough of a fingering to get her

moaning but not enough to make her cum. We left her, stripped naked and halfway to orgasm in the changing room. We dropped her bikini at the cash register.

Dinner time included another porno movie. This one entirely about lesbian sex. The boys kept our cunts busy with little silver bullet shaped vibrators. They kept the remote controls and adjusted the intensity at their pleasure. After the movie, the boys knew we had very hot eager cunts and they let us eat each other for as long as we wanted. Much later (Cathy and I really like eating each other's cunt), the boys made ice cream sundaes and brought them to us.

After desert, Dave brought out my strap-on dildo and helped me get ready to fuck Cathy the way Jim would. Cathy asked if Jim could join this fuck and I suggested that she sit her ass on his cock and then I would complete the sex sandwich by fucking her cunt. Cathy got very noisy during that fuck, so I squeezed her nipples with each stroke to punish her. She really got louder and came more intensely. We rested and watched another movie, about twin sisters finding their mother's collection of dildos and using them on each other. It was a short movie, only about 30 minutes but at the end I was hot and ready to get my sandwich fuck.

I sat into Dave's cock while Jim strapped the dildo into and onto Cathy. She took a lot of pleasure in feeding me her sexy tits before she plunged that fake cock into my willing cunt. I squeezed and sucked on her tits while she pumped in and out of me until I had cum. She rested a bit, gently rubbing her tits against my face before she returned to her steady paced fucking until she reached her orgasm.

When we were ready for bed, Dave inserted my bullet vibrator into my ass and Jim did the same to Cathy. Jim gave me her control and Dave gave mine to Cathy, who promptly turned it up all the way. The boys patted our asses and gave us good night kisses before sending us off to one bedroom to spend the night in the glow of lesbian lust.

Friday was our last full day at the beach, but the morning was very foggy. Very warm still fog covered everything. It was difficult to even see the house across the street. The four of us had a very leisurely breakfast, knowing that there was no hurry to get to the beach and sun.

After we had all eaten regular breakfast, Jim sat up on the table and told Cathy and I that we could have some desert now. Cathy took the maple syrup and pour it over his erect cock and tight balls. We both dove for his cock and proceeded to lick and suck him clean. We took turns sucking on his cockhead and licking his balls until he was ready to cum. At that point Cathy sucked his cockhead into her mouth and refused to surrender it. So I conceded and continued licking Jim's balls until he shot his load into Cathy's mouth. She sucked and sucked until his cock stopped its pulsating. I knew that Cathy now had a mouthful of tasty cum. She stood up and pulled me up to her. She clamped her mouth on mine and drove her tongue between my lips. I opened my mouth in response to her domineering approach and was rewarded

with her tongue pushing Jim's cum into my mouth. We pushed and sucked his cum back and forth until we each had an equal share and then we swallowed it and broke out giggling. Abrupt slaps to our ass cheeks reminded us that Dave had not yet had his morning sucking. With him in position I poured chocolate syrup all over his cock and balls. Cathy and I licked and sucked (me doing more sucking and Cathy doing more licking) until Dave shot his load into my mouth. It came suddenly and I almost lost it, but only a little dribbled out. I stood up and Cathy quickly licked the dribble off my cheek and then I repeated her cum sharing giggles and all.

Our morning showering started with Cathy and I getting our cunts shaved clean for the last time of our vacation. The boys made sure that our cunts were hot, wet and loose with almost continuous fingering during the shaving process. We were instructed to bend over the edge of the tub and again we took a hot soapy enema into your tails. This time the boys plugged up our asses with the hot enema inside.

The boys handed us the shaving brushes and razors and said that we could shave them now. Grins broke on our faces at the thought of having a hairless cock and balls to play with. Cathy and I set to our work and soon, Dave and Jim had no pubic hair near their erect cocks. The boys unplugged our tails and flushed us out with two more loads of water before taking us into the living room. Cathy and I were placed in the center of the room facing each other. We were instructed to bend over until our heads were resting on the other's shoulder and our tits were dangling down (at least Cathy's were). The boys spread our legs and applied a coat of lubricant to the full length of our slits (from asshole to clit and back). They slowly pushed the silver bullet vibrators into our hot, clean assholes and turned them on high. Then Dave nuzzled his smooth hairless cock against my smooth hairless cunt and pumped up and down my crack. I could see Jim behind Cathy doing the same to her slick crotch.

Dave slowly pointed his cockhead at my cunt and worked just the head into my hot hole. When Jim got into position, we were asked what we wanted and both Cathy and I responded by begging for a good fucking. We wanted to get it, they wanted to give it and so they plunged deep into our slick cunts and pounded and pounded until Cathy and I came. The boys switched cunts and with just their cock heads in our pleasure tunnels, we were again asked what we wanted. This time we begged for them to fuck us until they came inside of us. They plunged in and pounded away, giving Cathy and I each, a great second orgasm and a load of cum in our cunts.

Later that morning, we decided to walk down to the beach. There was still a pea soup thick fog. Cathy and I wore the white halter dresses. They are made from the sweatsuit type of cloth only thinner and clingier. Of course, neither Cathy nor I wore bra or panties, just the dress. While we were walking along the deserted beach, Cathy suggested that she and I go into the water and have some fun with each other. We waded into the strangely calm water and found it warmer than earlier in week. We also found out that it was low tide and we could walk out about 50 feet and be standing on a sand bar with the water up to

my titties. We could just barely see the lifeguard chair on the beach and decided to stop there. Since there was very little chance of being seen by anyone, I reached behind Cathy's neck and unbuttoned her halter and brought it down to expose her gorgeous tits. Her nipples were very hard and erect and a tweak sent a shiver of pleasure through her. She responded by exposing my tits and tweaking them and then asking me to suck on her nips.

I haven't been able to resist a pair of titties like hers since college. I lifted up her full fleshy tits and sucked at one nipple and then the other. Cathy kept busy by lifting up the hem of my dress and stroking my cunt. I left her nips and kissed her on the mouth. Our tongue immediately found each other and fought for dominance. Our hands drove into each other's cunts, probing slits, rubbing clits, and poking cunt holes. Soon we were each standing on one leg, with the other wrapped around, and a hand pumping in and out of the other's now open cunt. I had closed my eyes rather early in our session but now I had to open them as another set of hands took hold of my waist and a cock pressed against my asshole.

I saw Dave behind Cathy and I knew Jim was behind me and he slowly pushed into my rectum. I felt Dave's cock push into Cathy's tail and I enhanced his pleasure by inserting three fingers into her cunt and pumping furiously. My desire to make them cum was matched only by Cathy and Jim trying to make me cum. Cathy with three fingers of her own and Jim with his cock sliding in and out of my willing tail. I can't tell which of us had the best orgasm, but Cathy and I surrendered to our pleasure and collapsed into each other's arms. The boys had to hold us up until we recovered.

Unfortunately the boys could not keep their cocks erect after a good ass fuck out in the Atlantic Ocean (if they had been able to, Cathy and I would have switched partners and taken another ass fucking). We buttoned our halters and went back to the beach. We walked some more, with our wet dresses sticking to us and showing off every curve and crevice, and our asses leaking cum.

At lunch time we were on the main street near the neighborhood burger place. We took some money from the boys and sent them on to the house while Cathy and I bought lunch. Inside there were only two customers, a guy and a girl from the beach badge patrol. She was a very-well endowed blonde who looked like her bikini was painted on. Cathy and I could have had a lot of fun turning her into a lesbian, but today it was her partner that occupied our lusty thoughts. We had not seen him at all that week. He was built like the guys in the body building machine commercials. We drooled the moment we saw him. After we put in our order, Cathy and I went to the restroom. It was down a small corridor that was right in line with Mr. Hunk. He could see us at the end of the corridor but no one else could. Cathy was so hot for this guy that she let me get behind her, unbutton her dress and lower the front to show him her tits. She cupped them in her hands, sort of offering them to him. He smiled and tried to keep up his conversation with the blonde.

When I saw that he wasn't too flustered, I reached around Cathy and slowly pulled up the hem until her hairless cunt was exposed for his view. She spread her legs and I stroked her slit and eventually poked my finger up her hole. After a little pumping I pulled it out and brought it to my mouth and licked it clean. That interrupted his conversation a bit but not too much. I instructed Cathy to turn her back to him and bend over. I pulled up her dress so that when she was all the way over, everything was exposed, tits, cunt and asshole. I probed her cunt to show how wet she was and then when my finger was covered with her juice, I moved up to her asshole and slowly pushed into her willing rectum. That caused him to swallow his soda the wrong way and the blonde got her bikini soaked with the rest of his drink.

Cathy quickly straightened out her dress and we picked up lunch and were out of the place while Mr. Hunk, was trying to clean off Ms. Bimbo and hide a raging hard-on at the same time. Cathy and I giggled about it all the way home. (When Dave and Jim read this, it will be the first time they know what we were giggling about for the rest of the afternoon.)

The boys had the VCR set up and loaded with a porno movie when we got back to the house. We ate lunch watching sex on the TV and then spent all afternoon drinking wine, watching sex, critiquing the positions and quality of the sex shows, and stroking and sucking the boys through several orgasms. After watching a movie about two roommates swapping sex stories that ended with the two girls 69'ing on the edge of the hot tub, Cathy and I cuddled up on the rug and ate each other while the boys compared our technique with the movie's. We, of course, were better. At dinner time we went outside (it had cleared very nicely) and the boys started a barbecue while Cathy and I showered in the outside shower. We were told not to make ourselves cum. In a bit, Jim came in and had us wash him and then suck him until he was erect. Then he left and Dave came in to get washed and sucked. But he too left when we got him erect. We were instructed to wash each others cunt and ass one more time and then come out for dinner. When we came out, the boys had put their swimsuits on and the steaks were almost ready.

Dave instructed us to bend over the railing of the deck and spread our legs. This would give the boy next door a great view of our asses. The boys began spanking us, gently but firmly warming our butts and juicing our cunts. When our tails were bright pink and tender and our cunts wet and horny, we were sent inside to finish preparing dinner. After dinner, we began preparing to leave, packing up clothes, beach stuff, etc. We drank a lot of wine and were feeling no pain. Then the boys said we needed one more enema before that stuff got packed away. We were taken into the bathroom and put into position and received one more hot soapy enema. They inserted butt plugs into us and had us wait until they had packed up the VCR and television. When they came back, they pulled out our plugs and let us empty out. Then Jim sat on the toilet and had Cathy lay across his lap. Dave handed him a syringe (not a drug- type needle, but more like a turkey baster, except a bit thinner tip) that he had filled with mineral oil (a very

good anal lubricant). Jim inserted the tip into Cathy's lovely rectum and squeezed the oil into her. He gave her two loads of oil and then used his finger to probe her hole and stretch her sphincter muscle. When he finished he had a finger from each hand, stretching her asshole open.

Then he let her empty out the oil and suck on his rigid cock at the same time. He did not let her suck him off yet, then I was put through the same lube job. Dave is very gentle with my ass, and even stretching me wide open, he was gentle and loving and I almost came from his probing, and I tried hard to make him cum in my mouth while the oil oozed out of my ass. I didn't get him off and Cathy and I cleaned up and followed the boys back into the living room.

The boys got some blankets, a bottle of wine and tossed us our halter dresses. We put them on and we all went down to the beach at 10:00 PM at night. We found a quiet spot at the base of a large set of dunes that masked an expensive cluster of empty houses from the sight and sound of the surf. It was still a calm softly rolling sea and there seemed to be no one else on the beach. We laid out the blankets and cuddle up between them. Cathy and I in the middle, Dave cuddle up against my ass and Jim against Cathy's tail.

We drank some more wine and fondle what ever sex organ we could reach. Cathy and I were quickly relieved of our dresses and the boys just as quickly had very hard cocks. As we got more involved with our sex play, we got less concerned with being seen. Eventually, Cathy and I were put on our hands and knees next to each other with my head at Cathy's ass and Cathy getting a good view of mine. The boys positioned their cocks at our assholes and slowly pushed in. We offered no resistance.

My ass was slick and smooth and more willing to take Dave's cock than ever. The boys began a slow steady deep fucking motion. This was going to be a very long sexy fuck and they wanted to enjoy every inch of it. After two dozen strokes or so, the boys pulled out and switch partners, and Jim inserted his cock and resumed the slow steady screwing. The boys swapped again after more strokes and then swapped again and again. Cathy and I eventually lowered ourselves to the blankets, our asses still high in the air, but our tits on the blankets and our hands in our cunts. I finger-fucked my hot wet hole and rubbed my clittie to two orgasms.

I didn't know who was fucking my tail at what time and I really didn't care. Both boys were giving us a great ass fuck and getting as much pleasure from our tails as they were giving. Near the end, the boys turned us on our sides, and nuzzled us up against each others creamy cunts. The boys emptied their cocks into our oily assholes while Cathy and I licked clitties and lapped cum from slick cunt holes. We fell asleep cuddled up in the enlarged 69 position. We were only awaked by two drunks yelling at the police a few hours later. We quickly got dressed and were encouraged to hurry home by the officers. We got home and kissed and fondled each other good-night before slipping into our respective beds.

I woke up Saturday morning with Dave slipping into my still slick ass. He had turned me face down on the bed, spread my legs and had inserted the silver bullet vibrator into my cunt. His cock sliding through my backdoor finally roused me and then growing vibrations in my cunt increased my attention. Dave wasn't embedded in my ass as deeply as when my hips are raised up, but he was enjoying it and so was I. After two wakening orgasms in my cunt, Dave's cock shot what he could into my tail. Dave and I got up and went out to the bathroom.

Cathy and Jim were already awake and beginning on breakfast. Dave and I took a shower, our first shower together all week. It was a warm loving shower, I washed him, he washed me, and we made sure we were clean and well-loved before we went to get some breakfast. We ate breakfast while Cathy and Jim took their shower. When we were all fed and washed, we finished cleaning up the house and packing to leave. We all stayed completely naked until everything was packed and ready to put into the cars.

The boys put on their swimsuits to load up the cars, and Cathy and I retired to a bedroom for one last cunt licking session. We licked and sucked and fingered until we had both cum and then the boys had to separate us while we were trying to lick the cum out of each other. We knelt down in front of our respective boyfriends, pulled down their suits and sucked and licked their cocks to a full erection and then we had them switch places and I sucked Jim's last load of cum into my mouth. When I was finished I turned to Cathy (who had Dave's last load in her mouth) and we kissed, sharing one last sex act, sharing the boy's cum. We swallowed the combined cum and finally got dressed, kissed everyone good-bye (fondled what I could as well) and left with smiles on our faces and tender well-worked sex organs.
