

My Kinkiest Sex Experience Part 2

(By: SoapyLisa)

PART 2

I grabbed the back of her head and pushed her face into my clean pussy. She pulled back and said, "Wait, baby. Let me do this my way". She then spread my pussy lips and put two fingers in me. She said, "Oh, Wendy your pussy is so big, I think I can get my whole fist inside". At that point, I didn't care what she put in my cunt - I was so damn horny. She worked two, then three, then four fingers into my hole. She said, "Come on Wendy, loosen your pussy for me".

She then tucked her thumb into her fist and slipped her entire fist into my now gapping hole. I have never felt a sensation like it before. My pussy had never had anything that big in it before. I humped my ass into the air to meet her thrusts.

Kim said, "Wendy, my fist is inside of you and I'm fucking you".

I said, "Oh Kim, fuck me faster, you fist fuckin' cunt".

She said, "Get on your knees, baby. I want to lick your asshole while I fist fuck you". I get on my hands and knees, all the time keeping her fist in me. Kim spread my ass cheeks with her other hand and ran her tongue over my asshole.

I screamed, "Ah, Kim, baby, put your tongue up my ass". She worked her tongue into my asshole all the way. When she did this, I came and came. My pussy was contracting on her fist as the walls of my anus contracted on her tongue.

She said, "I'm going to fist fuck your asshole too". I swear I came again just hearing her say that. She worked two fingers into my ass and I felt my sphincter loosen up. Then three fingers, and then four, and then tucked her thumb into her fist and all at once she rammed her fist all the way up my ass. I screamed in pain, but the pain soon turned to pleasure as she worked her fists in and out of my pussy and ass. I soon started coming in waves. Again, and again, over and over, so many that I lost count. She then slowly pulled her fists out of my pussy and asshole. All of the fist action had left my pussy slightly soar and left my asshole gapping open about an inch.

She said, "Oh Wendy, your asshole is stretched out so big". She then licked the rim of my ass very lightly, It felt sooo good. My pussy was so wide open that she was able to lick way inside me, farther than I could have imagined. She was actually licking the walls of my cunt. It was heaven. I came so violently that I almost broke her nose!

She turned me over and laid on top of me. Her big tits were mashed on mine. Her nipples were so big and erect. She rose up and fed a nipple into my mouth. I sucked on it and bit down gently.

I was really getting into her tits, when she said, "Lets eat each other, baby". She then spun around and put her ass right over my face. I reached up and licked her pussy lips. She tasted so sweet. She was returning the favor when she stopped and said, "Wendy, I want to pee in your mouth".

I stopped and sat up and said "No, I don't think so".

She said, "Come on, Wendy, you'll love it. It tastes so good and sweet". She then grabbed me by the arms and pushed me down on the bed. I didn't realize how strong she was. She had me pinned and I couldn't do anything about it. I was helpless. She positioned her pussy over my mouth and grabbed my hair with her hand and pulled hard.

She said, "Come on you cunt, suck my pussy". I decided to give in. I didn't have a choice. I licked her cunt lick there was no tomorrow. I sucked on her clit until she was bucking and thrashing on my face. As she was ready to come, she said, "Wendy, when I come I'm going to pee in your mouth".

Her pussy started to contract and I could taste her cum. Then all at once a warm stream of piss was shooting into my mouth. It was sweet and warm and actually tasted good. She peed for about thirty seconds and I had to keep swallowing to drink it all down.

When she was done, she said, "Oh baby that was so good. I want you to pee in my mouth now". I positioned my pussy over her mouth and she started to eat me. She licked my hole like never before. She would alternate licking my clit with her tongue putting her tongue all the way up my cunt. I couldn't last much longer. I was moaning and screaming her name.

As I was ready to come, I said, "Kim baby, I'm going to come and pee in your mouth".

She said, "Oh yea, do it now baby". As I came I let out steady stream of hot, sweet piss, right in her mouth. She swallowed and swallowed to get it all down. I rolled off her and collapsed beside her.

I then nuzzled up to her and said, "Thanks Kim, that was wonderful". I then gave her a long French kiss. I could taste and smell my own piss. She asked me to clean her again in the shower, so we got naked and turned on the water to make it hot. I got the soap and worked it into a thick lather. I rubbed soap along her lips and this time she opened her mouth. She loved having soap on her lips and now she wanted a mouthful to clean the urine sting. Kim knew what she wanted, the bar of Caress shoved deep in her mouth, she literally wanted me to soap her mouth, so I did. She had soap running out of the sides and I licked it off her face.

I can't wait until she introduces me to other water sports.
