

Punishment

So you want to be a bad little boy. Well, bad little boys get their mouths washed out with soap real good. I want you to go into your bathroom and prepare everything for me. A washcloth, a brand new bar of soap, and a toothbrush.

Step 1: Plug the sink and put the bar of soap & the washcloth in.

Step 2: turn on faucet HOT and fill sink.

Step 3: Take both soap and cloth and lather the cloth well and drop soap back into sink.

Step 4: shove cloth into your mouth and scrub well. Don't miss any spots. When you're finished with that, stuff your mouth with the soapy cloth.

Step 5: Look for your bathbrush. Find it! Strip naked. Then use it upon your own bare butt. That's what bad boys get.

Step 6: Remove the washcloth from your mouth and insert bar of soap. Soap mouth up real good giving it a real good scrubbing. When finished, shove back into your mouth and go stand in the corner for 30 minutes with the soap sticking out of your mouth.

Step 7: When finished, Remove soap and insert wet toothbrush and brush teeth. Spit (or swallow lathery suds if you desire) but DO NOT RINSE. The taste alone should make you think twice before spitting, swearing, sassing, backtalking, or calling me names.

I wish I were there to do it to you in person!
