RE: Mobu Enterprises Apprenticeship Program

Date: 02/08/2021

To whom it may concern,

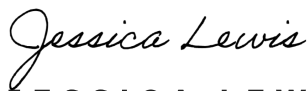

My name is Jessica Lewis, co-owner of Mobu Enterprises. We are a United States of America based green construction firm. Thank you for considering us for your educational/vocational needs. We have a host of programs attached in this document that may fit your career goals.

The reason for this notation is to express the goals behind us joining your journey. We desire to bring forth coursework that is impactful and reflects the future of the industries we represent. We also hope to help you maintain your independence beyond your previous career.

All of our participants have starting wages of \$15/hr USD and they will graduate at \$45/hr wage along with an LLC to begin their first business. This is our gift to all of those who trust us in their journey. This program is 2 years and is a fully comprehensive program to meet all of your wholistic needs. These are a few benefits of our program. More can be found here: <https://youtu.be/IdEChm1vM1A> or visit us online at <https://shippingliving.com/apprenticeship>.

If you have any questions or require additional information, please contact us at 888-412-8362 x3 and you can speak to me personally. Please review the attached capability statement and please review our work on www.shippingliving.com

REGARDS,

JESSICA LEWIS

CODING

AVAILABLE

This program will teach you software engineering, data science, and cybersecurity. Plan, direct, or coordinate activities in such fields as electronic data processing, information systems, systems analysis, and computer programming.

LEARN: HTML/CSS, JAVASCRIPT, PYTHON, CMD LINE, SQL

PROGRAM CURRENTLY AVAILABLE IN HOUSTON, TX; PHILADELPHIA, PA

WILL BE EXPANDING TO OTHER LOCATIONS THROUGHOUT THE ENTIRE 2021 YEAR

Robotics

ROBOTICS AND STEM PROGRAM

AVAILABLE

This program will cover multiple science, linear math and technology disciplines including machine learning, artificial intelligence, data science, design and engineering. Build, install, test, or maintain robotic equipment or related automated production systems. Set up, operate, or tend welding, soldering, or brazing machines or robots that weld, braze, solder, or heat treat metal products, components, or assemblies. Includes workers who operate laser cutters or laser-beam machines.
