

## SACSAS Academy, Wangoo Branch (Oct 2015)

Site visit by N. Shantikumar Singh

Report:

It was a rainy day. We could not reach the school on time. There was also a bandh in the district since there was a group of people wanting to change the Loktak Lake, the premier tourist destination of Manipur. Surjit and I reached the school around 1pm and met the teachers and the kids. We were so excited to see the kids waiting to see us. I interacted with the kids at all levels and I could see the energy in them wanting to learn, looking for opportunities, trying to become pillar of tomorrow's society. I could not spend more than a couple of hours since we then had to go to Imphal and meet government officials. Overall, it was a good trip.
