Mia Lindqvist Case File

2018

2018 Move to new home, 2 Ferry rings came in my lawn. The house is 8 years old, and the first house on the land where I live, Lamp swinging, tv on and off, sound and smells. Orb portal video 3.52. I did not make that. High pitch frequency sound, and then me snoring, clock ticking ect. Rasmus door opened at night, asking me things, I downloaded a sleep talk app. Me 48 years women, living with my 2 boys, at 17 and 20. In a house on the country. When I moved in, there was open mark in my backyard. Born in Korea 1973, foundling, was on Holts children home, given a birthday. And adopted in 1974 to Denmark. Where I still live. I have 2 whiplash one in each side, arthritis, no cartilage in my lower back. And PTSD. I have 2 cats, where one of them, the Siamese reach to the spirits. I pretty fast found out I could hear Them, but also make conversation with them. I could summon spirits, ask question etc. In my sleep talk app, i could hear if I spoke in my sleep, as soon there was a noise I began recording. In Christmas 2019 my mom saying" you know that I'm still here" some can hear it, but many cant A women sent me a picture, 3 days after her mother got buried, she wanted to know if her mom was present. She was so much present that i could describe her 100% what she was buried in etc. etc. That's got me a bit "wtf" My sons got pentagram on his back, so I started working with a Catholic priest, the only one in Denmark, who has permissions to make (perform) exorcisms. My home got blessed 2 of the local catholic priests. The first time he was here, he gave me his personal rosery. My son started talking about spirits, demons and saw men dressed in black, hovering outside the window, looking in the sky Messerschmidt said that I should give the paranormal world a break, so I started looking torch the sky. The first day i did that a saw something weird, but I got it on video. as "UFO over Denmark" and later that day I suddenly remembering talking to a woman, what we talked about etc. But there was No conversation on my msn, to prove that conversation, suddenly started remembering thing. I laying/sitting, all around me is a group of people, but there was this woman, she sat in a big "queen Like" chair. I looked at, her and said, why do I see you all so clearly, and she responded to me, because your home. I said who am

I?" and all laughed. I tried again, please tell me my name, and she looked at me, like, you should know. You have a really important mission, who will save a lot of people, but you need to find out yourself, who you are. After that's i felt i was going to faint. looked at her hand, she had a ring on, with a giant deep green stone in it. That's what I remembered from that. The day after, i got This tinnitus and I started getting dizzy I feel back on the couch, and i was back pr she was here. Idk I said do I need to be dead to come home. And she said yes. I told her that it was not a choice, I had 2 kids, she said: You don't have to live without them, idk what that meant, but don't remembering more about her.

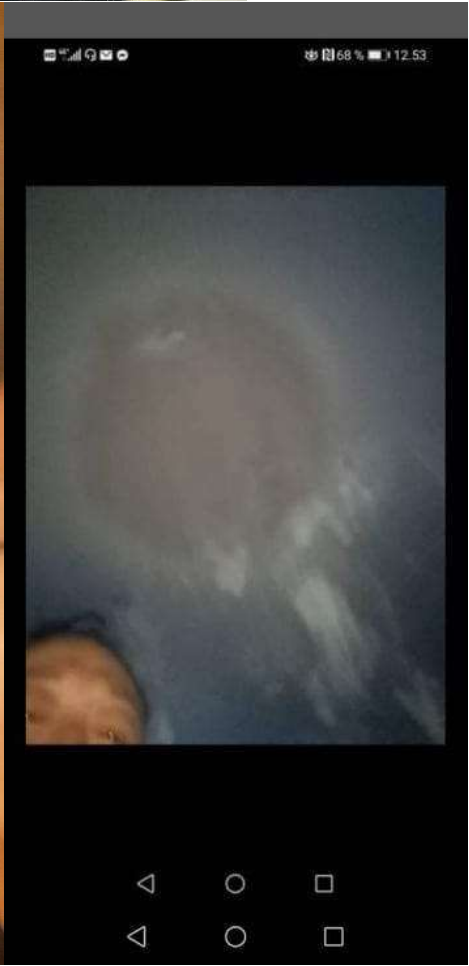

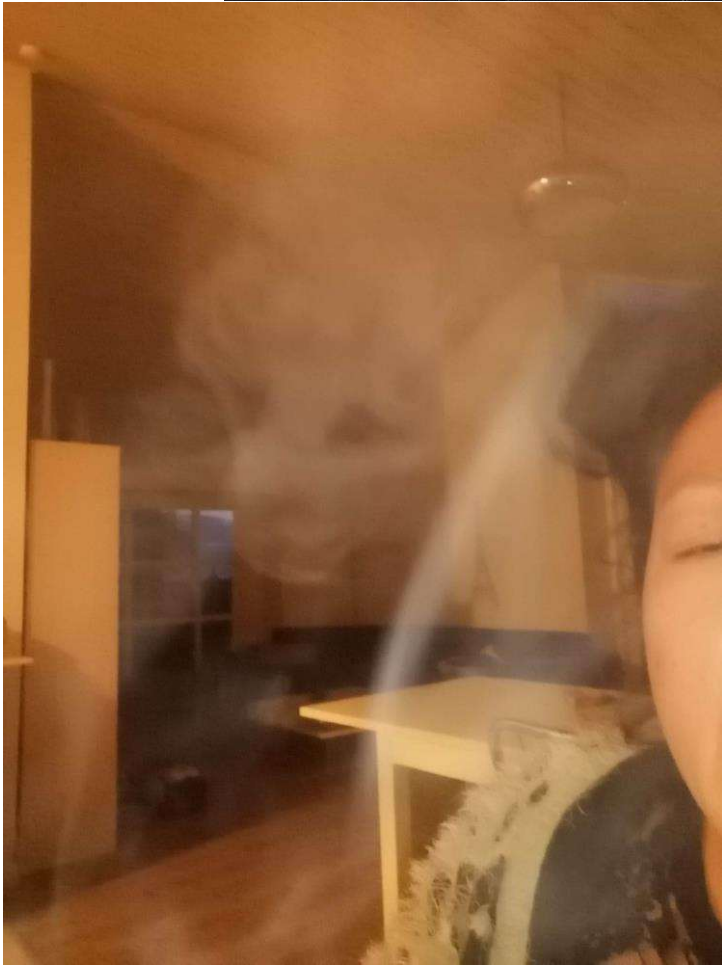

Then the letters came, first time I fell asleep on a chair, when i woke because my phone hit the floor. When I took it up, there were 3-4 pages, and in top. Nasa government. It was not a man. Mail or it was like a note just standing there, the first time went in 9anicmode and pressed close, but I could not get them back, the pages were gone. 3-month can it happen again, I fell asleep, my phone hit the floor. And this time there was only one page, but I got to ask it before it disappeared.

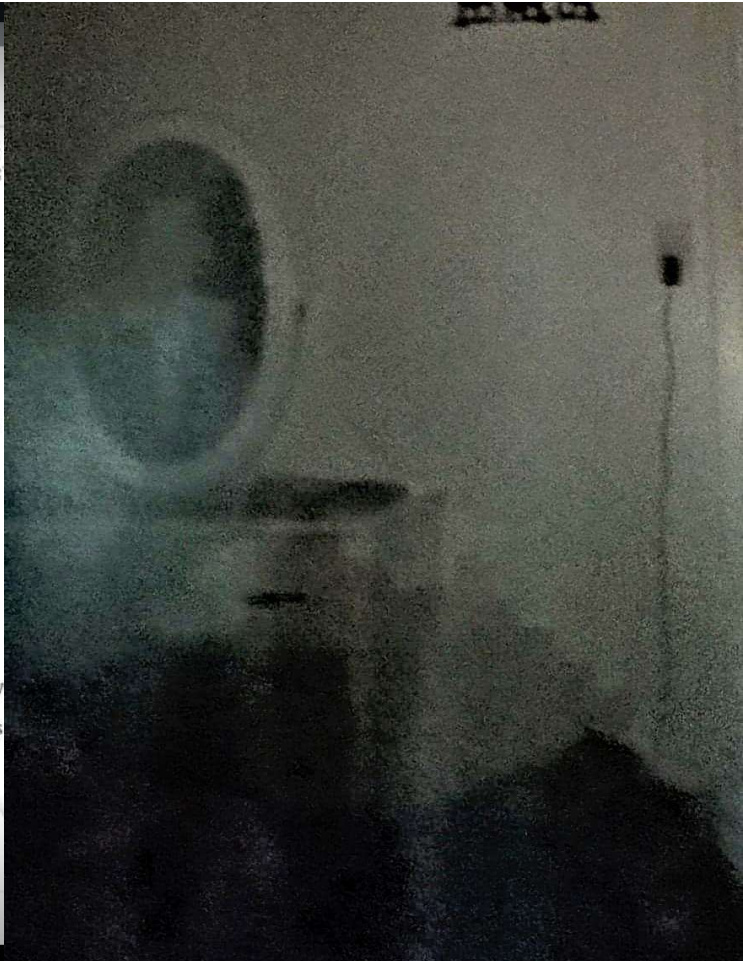

I still don't know what that letter said. But 2 people looked at it, and they had 21 different meanings, the last one was something about, the answer to bone marrow loss, it sounded righter than the other decipher.

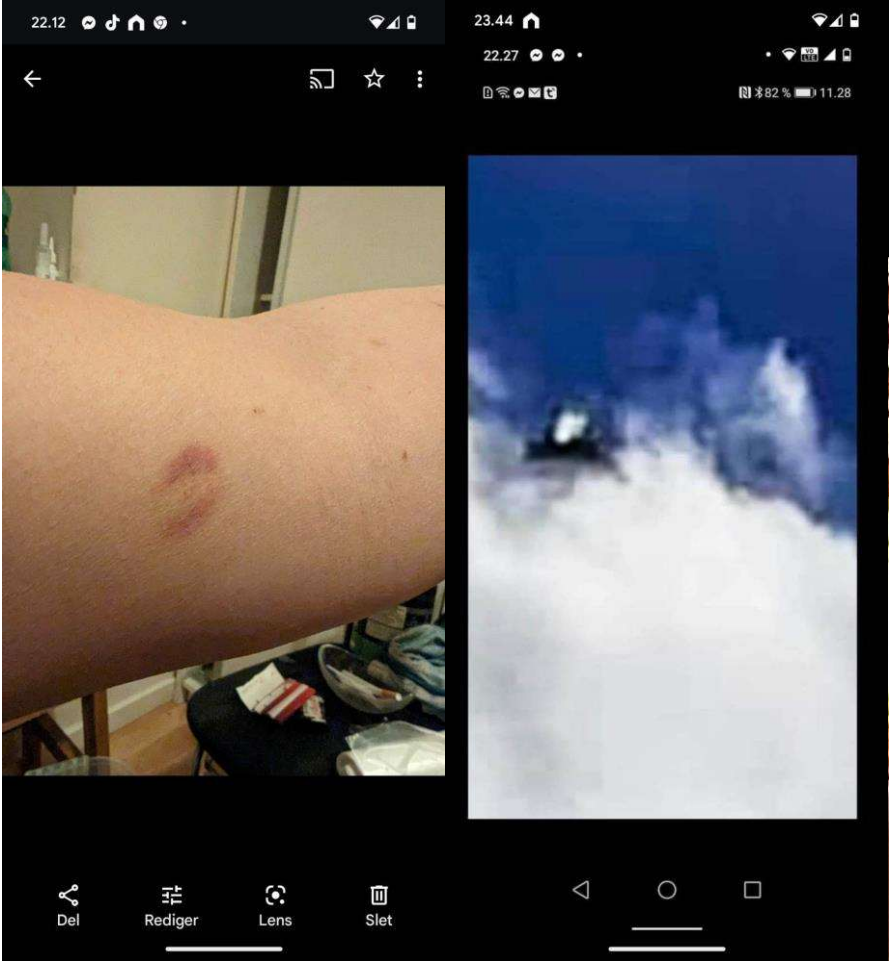

October 2021, I again got pushed down the chair, this time i did not wake, so i woke at the sound and my pain, smashing my head down the Stone floor, 2 people in the home woke by the sound. I'm glad my friend was here, I never heard him exit a bed so fast.

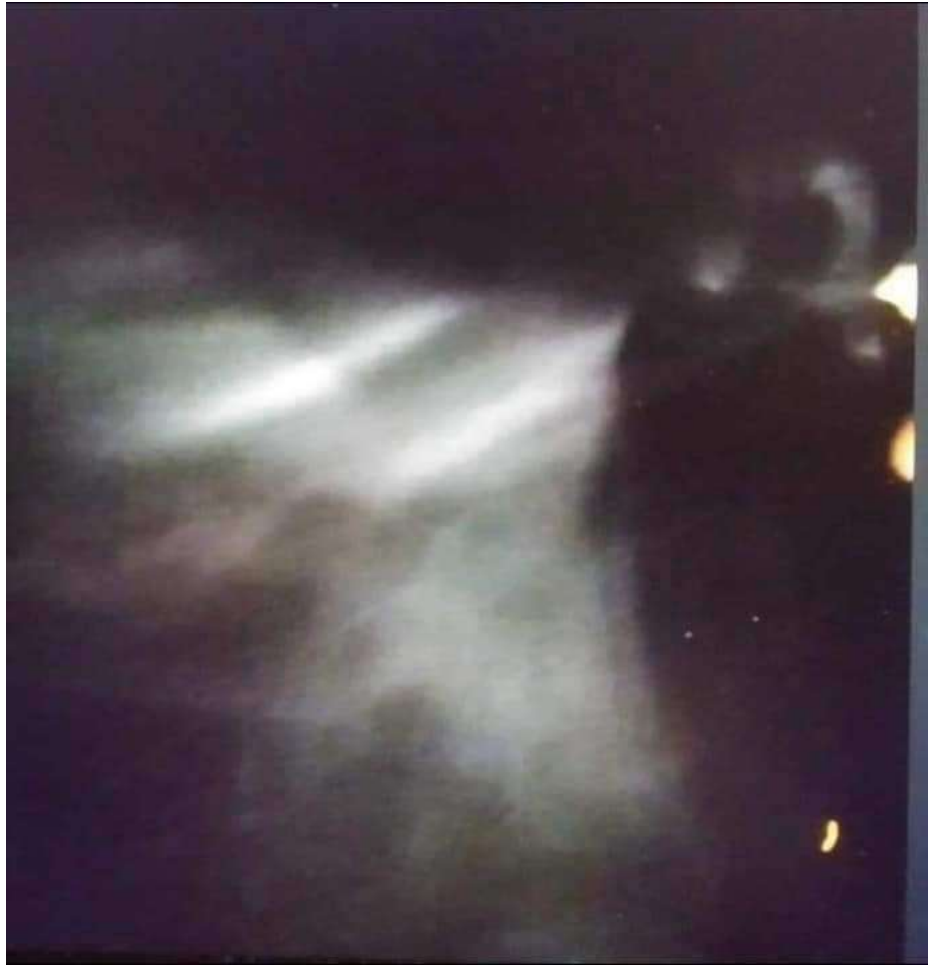

Today, we wrote march, and my head still has a crack, and I am still dealing with pain. But I have done something, as I see clearly the ships, crafts, and buildings. I see it all, and I got tons of pictures from the sky of things No man ever seen, not the once I know. Recording from sleep app. [03.03.03](#) One night I found a recording: Many are scared by it sound like there a craft next to my head. I hear people talk like a cartoon, and a few words I'm English. A lot of metal instruments, drilling, me saying I can't with fear on my voice.
