

**Machining, Welding,
Fabrication & Field Service**

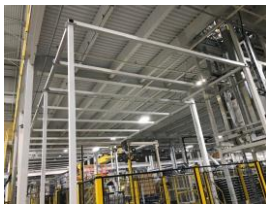

Custom Manufacturing

Capital City Machine Shop offers CNC and manual machines to manufacture and fabricate quality, cost effective precision parts.

Custom Fabrication

Capital City Machine Shop can fabricate hard to find parts using customer supplied samples, drawings, or reverse engineering. We also provide custom fabrication that is timely and cost efficient for our customers.

**Machining
Fabrication
Emergency Repair**

Welding

Capital City Machine Shop uses only certified welders to professionally address all your welding needs. We offer in shop and field service welding.

Field Service & Repair

Capital City Machine Shop provides dependable mobile field service and support along with emergency repair service 24/7.
