## testimonials

"I am writing to thank you so much for the wonderful service you have offered Jimmy Choo. We have been delighted with quality and the style of music which I feel has enhanced the selling power of our stores by creating the perfect atmosphere in which to shop. I particularly like the way that the music you have chosen helps our customers to feel at ease and yet, at the same time, is uplifting in a way that suggests to them that this is a good occasion on which to buy. The feedback I have from the staff in the stores is that they find the music enhances their work environment."

"We just wanted to give you some feedback on the music. All the comments have been fantastic and the therapists are thoroughly enjoying the change. They particularly like the tracks blending together which helps create flow and continuity to their treatments.....Thank you once again for the work and time you put into them for us - especially as we have achieved great success with them".

"For Gieves and Hawkes I think you've got it perfectly. There is very good luxury texture to the selected tracks.....thanks very much for your prompt reply and such an accurate translation of the brief."

"We've always had music in our shops, which is rare for a jewellery store, as we wanted to reflect the diversity and mood of our designs. I worked with Cantaloupe to get some of my favourite tracks down and after a very short period of time they got the hang of what I was after and reminded me of some obscure little gems that fitted perfectly....apart from the results being at the very least interesting and to my mind terrific, the whole experience was very enjoyable and great fun."

" We held our first meeting in the humidor – they had a cigar and drank in the atmosphere. The music they compiled reflects our heritage but also brings us bang up to date. Now shopping with us is even more comfortable – customers like that."

"Have been meaning to email you for ages to say thanks so much for sending over the last set of CDs. Your music has got the thumbs up from Charles ... so wanted to pass that on as well."

"Affordable glamour is the ethos of Marco Pierre White's restaurants. Nowhere is this more in-your-face and palpably more enjoyable than at Frankie's Bar and Grill. You descend a gloomy nondescript staircase to the sounds of Frank Sinatra, Dean Martin or equivalent....music of the crooning kind is played and as happens at Momo the volume is occasionally turned up to create a sort of moment of exhilaration. I can't think of a better place for a Christmas Party particularly if you don't want to hear what that chap from marketing has to say."

"Just a quick note to thank you and your team for the latest music and once again we are all extremely pleased with the results. Your choice of music, mix and production is so "in tune"
