Alexx Corona was born and raised in *Autlán de Navarro, Jalisco*, the same town that has created great artists such as guitarist *Carlos Santana* and his brother *Jorge Santana*. Alexx began to sing from a very early age, around the age of 6 he noticed that he had the gift for singing and songwriting because he began to receive compliments for his great voice, his original lyrics, and for his own creative style.

The singer-songwriter Alexx Corona mentions that great composers like *Joan Sebastian, José Alfredo Jiménez, Virlán García* and *Alfredo Olivas* are his musical influences. “*My lyrics recount fictitious things that come to me thru imagination, but many of them are based on my own experiences like falling in love, breakups, misfortune and events that have happened around me*”, said the musician.

For Alexx Corona it is important to influence and even inspire future generations of artists with a similar dream. Alexx enjoys knowing that there are people who like what he does, who play his songs and watch his videos. “*What I would like to contribute to Regional Mexican music is that more kids get interested in it, maybe because they listened to my music or because they want to achieve what I am achieving. That’s what happened to me with Virlán García*”, said Alexx.

At the moment, Alexx is working on the video for his new single “*El Final del Cuento*”. His previous video “*Te Voy a Enamorar*” has almost 1 million views on YouTube.
