

FABRICTEC PRODUCTS

Basic

- **FINE-TEX**- A conditioner and sizing for shirts, cotton blends and casual wear which minimizes shrinkage, felting and pilling in washable fabrics. Fine-TEX enhances fabric hand and facilitates fabric finishing. Not for use with "dryclean only" garments.
- **BOOST**- BOOST is a degreasing/emulsifying aid for laundry, wetcleaning, and drycleaning detergents and removes grease, oil and grime from heavily soiled garments. BOOST can also be used as a prespotter. Strengthen your alternative solvent's degreasing ability and tackle heavily soiled loads with BOOST.
- **PRESTIGE** - PRESTIGE Enzyme Detergent for Shirts and Regular Washables is a fully formulated, low pH, one shot liquid detergent containing a blend of enzymes that aids in removal of stains. It can be used in any water temperature and is compatible with all common laundry additives.
- **SILKY CLEAN** - A low-temperature, no-rinse detergent for today's fine washables such as silk, lingerie, beaded and other delicate garments. Garments have a pleasing hand, enriched and brightened colors, and are easier to finish.
- **FAB-SOFT** - A premium biodegradable fabric softener that imparts excellent rewetting and softness properties. FAB-SOFT also imparts a pleasing clean fresh scent to treated fabrics.
- **PREMIUM SIZING**- A special sizing that restores garments to original crispness and improves finishing qualities. Can be used in perchloroethylene or hydrocarbon solvent.
- **TEX-CLEAN**- Substantive, cationic detergent formulated for perc contains special surfactants and softener/anti-stat to produce cleaner whites and brighter colors. Yields easier-to-finish garments with a pleasing hand.
