

***A.L Wilson stain removers deliver faster, more complete stain removal, even on difficult stains lesser products leave behind. And they're safer for fabric and the environment. Since you maintain textiles professionally, you can use Wilson's high-performance, high-value stain removers to deliver more stain-free garments and to earn a spotless reputation.***

1. **InkGo**, has been reformulated to remove its odour... and to improve its performance. InkGo removes all types of ink from all types of fabric, including acetate. InkGo also removes Autoclave Tape and Adhesives. InkGo is odour free and environmentally friendly. It's biodegradable, contains no chlorinated solvents and meets the requirements of California's Prop-65 and 2013 V.O.C. regulations, and is non-hazardous for shipping. InkGo is used on a spotting board and flushed out with wet steam or is applied directly to stains and then washed out with hot water.

2. **TarGo EF**, our high performance, environmentally friendly P.O.G., removes oil-based stains from textiles. You'll see the difference on the toughest oxidized oils, greases, inks, etc. To remove stains easily, simply apply TarGo EF and flush the stain out in your major-solvent drycleaning wheel. On the most difficult stains, TarGo EF can be used effectively on the spotting board. TarGo EF contains no chlorinated solvents, is biodegradable and meets California's 2013 V.O.C. and Prop 65 regulations. Use it with confidence! When drycleaning with Perc, use TarGo® Dry to remove oily stains. For laundry or wet cleaning, use Laundry TarGo®.

3. **Laundry TarGo**, an environmentally friendly water-base spotter that removes oil-based stains in the laundry as well as in wet cleaning or on the spotting board. Laundry TarGo works on even the toughest oil-based stains and can safely be rinsed down the drain. When drycleaning with Perc, use TarGo® Dry to remove oily stains. When drycleaning with alternative solvents, use TarGo® EF.

4. **YellowGo**, recovers dye-stained fabrics by removing unwanted dye. Results on whites are excellent. On colours, you have nothing more to lose and everything to gain by trying YellowGo. YellowGo may take out the colour you want to keep. But if it removes the unwanted dye without damaging the underlying colour, you win! You won't have to pay for the damaged goods, and you won't disappoint your customers.

5. **QwikGo**, removes food, blood, and milk stains. QwikGo is easy to use and is exceptionally safe for use on delicate colours and fabrics.

6. **TarGo Dry**, is the best spotter ever for removing tough oil-based stains. TarGo Dry delivers faster, more complete stain removal, on a broader range of oily type stains, with greater safety for colours and fabrics. Since it contains chlorinated solvents, we only recommend TarGo Dry for use in coordination with drycleaning in Perc. Do not flush to sewer or contaminate ground water.

7. **RustGo**, removes rust stains from fabrics... Fast. Note: RustGo contains Hydrofluoric Acid and is corrosive and poisonous. Read the RustGo SDS and follow label precautions. Always use appropriate Personal Protective Equipment (PPE), including hand and eye protection, when using RustGo.
