

NATIONWIDE INTEGRATED BUILDING SYSTEMS PROVIDER

Director's Statement

Marva L. McMillen
Owner and CEO

Being born and raised in Western South Dakota on the Cheyenne River taught me a lot about resourcefulness, and making do without much. I make sure throughout our organization that all of my employees and customers are treated like family because we all depend on each other to communicate and keep people protected and safe.

I was raised knowing the value of a dollar and take to heart that our customers trust us to go above and beyond to do the right thing both in the design, installation, and service of their systems to receive as much as their budget affords.

My promise to you is that we will always be open and honest and work hard regardless of the time or the day. If ever there is an issue that is not resolved or does not meet your expectations, I am always available to all of our customers night or day.

Marva L. McMillen

Email: mmcmillen@midwestalarm.com

Why Customers Choose Us

Professional Staff

Our nationally recognized and award-winning field technicians, engineers, and support staff rank near the top of the industry for years of experience

Attention To Details

We never cut corners. That's why our company ethos is, "Do the right thing, and success follows." It's the reason we are invited to projects nationwide.

Love & Passion For What We Do

Dozens of our employees have first careers in the military, law enforcement, and emergency response. We really care about your safety and protection.

"I was raised knowing the value of a dollar and take to heart that our customers trust us to go above and beyond to do the right thing..."

WE PROVIDE AUDIO VISUAL SOLUTIONS

BCI Integrated Solutions offers custom and bundled AV systems tailored to our clients' needs no matter the application. With multi-location installation, support, networked systems, and more for clients seeking to break out of the mold for a one-of-a-kind immersive experience.

WHY US

Midwest Alarm dba BCI Integrated Solutions is a certified electrical contractor and provider of specialized innovative electronic building solutions and low voltage systems. In operation for over half a century, we maintain our own central station as well as installation, design, and service offices. We operate throughout the United States with capabilities and strategic deployments nationwide and internationally.

BCI is partnered with some of the best vendors in the business to bring you a dynamic catalog of audio visual products such as speakers, projectors, lighting and more to develop customized audio visual systems for you.

Our employees' experience and professionalism allow us to provide your business with the service and dialogue you expect from a professional contractor.

BCI Integrated Solutions has the experience to handle any size project. Let us show you how we can deliver the systems you expect.

About BCI

Midwest Alarm, dba BCI Integrated Solutions, is a private woman-owned business established in 1967 and is among the largest providers of Electrical, Audio Visual, Life Safety, Security, Nurse Call, and Structured Cabling solutions in the United States, proudly serving family businesses to the Fortune 500.

BCI is headquartered in Sioux Falls, South Dakota, with a Southern headquarters in Tampa, Florida, with offices in Ft. Myers, Orlando, Jacksonville, Atlanta, Dallas, Omaha, Sioux City, and Minneapolis. We have built solid relationships with prestigious and in-demand clients and contractors by providing superior service and support. We continue to grow, expanding nationwide project capabilities, with offices across Florida, Georgia, Texas, South Dakota, North Dakota, Iowa, Minnesota, and Nebraska.

**Take care of our customers,
and our customers will take care of us.**

From our inception over half a century ago, we worked with both end-users and contractors as we developed relationships with key suppliers. We expanded our solutions based on customer demand, acquiring Baytown Sound, Acme Communications, and 3D Solutions.

In 2004 we added key employees to focus on integrated solutions, allowing us to meet all our customers' low voltage needs. In April 2005, we changed our name to BCI Integrated Solutions to better reflect the enlarged scope of our business. By 2013, our growth and expertise would catapult us into landing the largest-ever low voltage job at MacDill Airforce Base.

In April 2021, we acquired United Security Alliance, Inc, expanding our security expertise. It was at this time we were awarded a MultiAuthority Jacksonville Security Contract valued at \$15.6 million. Our employees' experience and professionalism allow us to provide you with the service and follow-up you expect from a professional contractor. We believe in ongoing training for our employees so that we can design and install the highest quality systems utilizing the latest tools and technology. From system design to installation and service, BCI Integrated Solutions has the experience to handle any size project. Let us show you how we can deliver the systems you expect.

BCI was founded on a basic principle: Take care of our customers, and our customers will take care of us. From this basic principle, our business has naturally expanded over the years. We have had the opportunity to provide integrated systems to Fortune 500 companies, commercial businesses, educational facilities (K-12 & higher education), government buildings, healthcare facilities, hospitality locations, and large venues.

In October 2021, BCI Integrated Solutions acquired Pelican Electrical Group. Pelican and BCI have a long history of working jobs together, so the acquisition was a perfect fit. In May 2022, BCI further added to its electrical contracting capacities by acquiring JN Electric of Tampa Bay.

We are excited to offer our customers electrical and low voltage solutions creating a one-stop provider. To date, our growth has led us to house over 400 employees and expand across several states, competing for some of the largest electrical and building technology projects in the United States.

VISION CHURCH

RIVERVIEW, FL

BCI provided a new speaker system for Vision Church in Riverview, Florida. This system includes four D&B ceiling-suspended speakers mounted in a center cluster configuration in mono to provide a single acoustical source of sound for high-quality audio reproduction. Four small front-fill speakers at the front lip of the stage are used for focal presence to congregation members in the front row. New digital-based amplifiers include built-in DSP for tuning. We used a real-time analyzer (RTA) to equalize the room and ensure the best quality sound.

Moreover, BCI installed 18" D&B subwoofers under the stage for low-frequency reinforcement, Sennheiser wireless microphones, wireless microphone antenna combining unit, and active Electrovoice floor monitors with the speakers featuring a 90-degree coverage to distribute sound evenly over the stage.

ST. JEROME CATHOLIC CHURCH

LARGO, FL

This unique pyramid-shaped Catholic Church located in beautiful Largo, FL received a custom-tailored audio video upgrade provided by BCI Integrated Solutions.

Working hand in hand with BCI's sales team and engineers St. Jerome addressed every need they had for their new worship space, and when it was completed the system exceeded their dreams.

Two key factors contributed to the outstanding success of this project. The first being BCI Integrated Solution's capabilities as a design-build audio video integrator. This project from the beginning was on a short schedule.

St. Jerome understood getting us involved early was key to the success of the system. BCI's engineers meet with the architect, general contractors, electrical contractors, as well as the church committee early to ensure all the pieces would fall into place. BCI designed the system according to the unique features of the worship space.

The second important factor was St. Jerome's building committee's ability to keep an open line of communication to BCI. They informed us of any concerns or questions they had and trusted our capabilities as their integrator to perform.

ST. PATRICK CATHOLIC CHURCH

SARASOTA, FL

BCI Integrated Solutions provided a new audio system for the sanctuary of the church of St. Patrick in Sarasota, Florida.

This system consisted of a Nexo line array system and Yamaha digital mixing console. New choir microphones and wireless microphones were also upgraded. A digital snake was used in the choir area for the connection of local instruments.

BCI also provided a new audio visual system for the social hall. This consisted of a JBL point source speaker system with subwoofers. A Yamaha digital mixing console was also added with new wireless microphones. A new digital video switcher was added to allow for modern sources to be used with the existing projector and screen.

SARASOTA ALLIANCE CHURCH

SARASOTA, FL

BCI Integrated Solutions provided a new complete audio-visual system for Sarasota Alliance Church. This included a new audio system, projection system, broadcast system, and new stage lighting.

We installed two Danley high-performance speakers, which covered the room evenly and cleanly. Along with the high-performance speakers, we also installed two high-power subwoofers for an enhanced low-frequency response. New Sennheiser wireless handheld microphones were installed to give clarity to the power of worship and the word spoken.

Along with the audio system, we also upgraded the projection system. A bright and vibrant 6,500 lumen full HD laser projector was mounted at the back wall with a long lens which provides crisp and clear images. This is beneficial for the audience to be able to see the message, regardless of where they are sitting.

The broadcast system installed was integrated to handle switching for the main projection screen, lobby displays and streaming feed. A SurgeX suppression device was installed to protect the video equipment in the rack from lightning strikes and power surges. This provides clean and aesthetically pleasing look in the control suite. Lastly, we upgraded all the stage lighting. Seventeen tunable white LED lighting fixtures were installed to front wash the stage with white light. These can be turned to both warm and cool white. A wall station was provided and programmed for basic lighting scenes. This allows the room to be controlled without the use of the computer.

HYDE PARK UNITED METHODIST

TAMPA, FL

BCI Integrated Solutions has provided cutting-edge A/V sound reinforcement and presentation system for Hyde Park United Methodist Church. Our intimate knowledge of sound reinforcement for the house of worship allowed us to design and build a system that looks as good as it sounds.

Utilizing 84 channels of sound, twin acoustically-transparent projection screens, and a mixture of both live and recorded video feeds, the system can provide a medium to produce a truly moving worship service. In addition, the system can be recorded onto a digital video recorder and a 24-track digital audio recorder at an in-house audio workstation. Production cameras, computers, DV, and VCR can be recorded or played back onto two 4100 lumen projectors at XGA resolution and all controlled by an AMX controller.

- 84 channels of audio
- Left, Right, and Center channel speaker system
- Dual Video Projection
- 24-track music workstation
- Acoustically transparent screens
- Four discrete stage monitor mixes
- AMX wireless touchscreen control system
- All video up scaled to XGA

BAY CHAPEL

TAMPA, FL

The Wharton High School Auditorium was fitted with technology to enable Bay Chapel to easily utilize the space for worship.

BCI installed a 7,000-lumen laser HD projector on the back wall with a long throw lens to project onto a large projection screen that was installed on one of the theatrical stage line sets. A wall plate was installed for the church to connect a graphics computer to, and a wireless presentation device was installed for the school to easily show presentations. An auto switcher was installed to provide technician-free operation of the system.

The Wharton HS theatrical and hose lighting system is utilized by Bay Chapel through a DMX combiner that allows two separate control systems to operate the lights. A portable audio system was designed and deployed that allows for easy setup and tear down on a Sunday morning for the church. One wire was able to be utilized to power a sub and main on each side of the stage. BCI also ran wiring from the back of the room to the stage to simplify connections.

A portable streaming system was integrated for Bay Chapel. This system allows the computer that is running graphics and an IMAG camera to be switched and overlaid. The streaming system allows users to easily switch record and stream services.

LUTHERAN CHURCH OF CROSS

PORT CHARLOTTE, FL

BCI Integrated Solutions completed a comprehensive audiovisual project for the Lutheran Church of the Cross in Port Charlotte, FL. BCI updated the church's audio infrastructure and integrated an Allen and Heath SQ7 digital audio console for high-quality sound. We also installed Shure microphones to enhance audio clarity during live streaming and recording. BCI equipped the church with a Listen wireless hearing assistance system and provided wireless in-ear monitors for musicians and choir members. As an added feature, a monitor speaker and amplifier were provided specifically for the choir.

For video, we centered a 30x HD PTZ camera on the back wall, controllable via a joystick, to capture detailed stage shots. We connected the camera to a Roland video switcher, allowing transitions between up to four cameras and two computer sources. We included a commercial Blu-ray player, a wireless content-sharing device, a 24" multiview display, and a 24" display for the organist to monitor the stage's visuals. To ensure connectivity, a video matrix switcher was added to link two existing displays with the organ's display. We also added two SurgeX power conditioning units for equipment protection. Furthermore, we introduced a second camera in the main auditorium to enhance the church's video capabilities.

CREDENTIALS

PERFORMING ART CENTERS

SHARON L. MORSE PERFORMING ARTS CENTER

THE VILLAGES, FL

New performing arts center with rider (touring) friendly audio visual system. Left/Center/Right EAW line arrays with 12,000 lumen digital projection.

MANATEE PERFORMING ARTS CENTER

BRADENTON, FL

New performing arts center with Left/Center/Right Renkus-Heinz speaker system. A 12,000 lumen digital projector provides digital backdrops and movie theater quality video images for the digital surround sound system.

VALERIE THEATRE

INVERNESS, FL

Complete renovation of historic 1927 theatre with the latest in technology. This facility includes an EAW speaker system with a digital projection for movie nights. An upstairs balcony provides seating during shows and doubles as a private performance space when desired.

WORSHIP CENTERS

METROPOLITAN MINISTRIES

TAMPA, FL

New construction for Miracle residential housing and retrofit of existing Administration Headquarters. fire alarm system and voice/data structured cabling, access control system.

NURSING HOME & REHAB CENTERS

BAY PINES VA

BAY PINES, FL

Complete integrated solutions including structured cabling, access control, video, and nurse call systems.

VILLAGES REHAB & NURSING CENTER

LADY LAKE, FL

Developed an integrated system for this facility by installing and providing a fire alarm system, structured cabling, door security system, nurse call, and audio visual systems.

STADIUMS

LIVE NATION AMPHITHEATRE

TAMPA, FL

System integration of site low voltage systems. Systems include lawn sound, site sound, video projection, RF TV distribution and data networking.

TROPICANA FIELD

ST. PETERSBURG, FL

Sales and installation of 200 plasma monitors for baseball video distribution.

ED SMITH STADIUM

BRADENTON, FL

Installation of training center audio visual system. This included TV distribution and background music with multiple zones for independent control.

AMELIE ARENA

TAMPA, FL

Complete fire alarm system throughout the complex.

ALFRED A.MCKETHAN FIELD

UNIVERSITY OF FLORIDA - GAINESVILLE, FL

Audio visual and broadcast cabling for the baseball stadium.

HOTELS

DOUBLE TREE AT SEAWORLD

ORLANDO, FL

Dual 10,000 lumen HD projectors installed in the lobby of the hotel to display advertising needs as well as wireless presentations.

EPICUREAN LUXURY HOTEL

TAMPA, FL

Provided and installed audio visual systems for their kitchen theater, ballroom, and outside bar.

LOEWS DON CESAR HOTEL

ST. PETE BEACH, FL

Installation of audio visual system for Sea Porch Bar and Restaurant. This included video distribution for sporting broadcasts and background music for nightly entertainment.

CREDENTIALS

CORPORATE

TECO ENERGY

TAMPA, FL

Installation of various AV projects from single room presentation systems to complete video conferencing suites for both corporate and power plant locations.

SUN HYDRAULICS

SARASOTA, FL

Designed and installed the audio visual systems for both the boardroom and the new training center.

TAMPA INTERNATIONAL AIRPORT TRAINING FACILITY

TAMPA, FL

Video training system.

RINGHAVER

TAMPA, FL

Training room audio visual system with rear projection and AMX Control.

RAYTHEON COMPANY

ST. PETERSBURG, FL

Video projection and video projection lift system.

FLORIDA DEPARTMENT OF TRANSPORTATION (FDOT)

TAMPA, FL

Video conference and projection systems.

CITY OF TAMPA COMMUNICATIONS CENTER

TAMPA, FL

Remote video two way communications system, and Master TV Antenna system.

CITY OF SAFETY HARBOR GAZEBO

SAFETY HARBOR, FL

Sound system for outside productions.

HILLSBOROUGH COUNTY CHILDREN'S BOARD

TAMPA, FL

Provided board room sound and video system and other training and conference room audio visual systems.

RESTAURANTS

BUFFALO WILD WINGS

TAMPA BAY LOCATIONS

Installation of over 30 displays and digital video projection for sporting broadcasts. Video projection uses laser technology for lamp-free operation. The audio system enhances the guest experience with custom manufactured speakers.

RUMFISH GRILL

ST. PETE BEACH, FL

New bar & grill that is Guy Harvey inspired. The facility was featured on Animal Planet's TV show "Tanked" for its 33,500-gallon fish tank. BCI provided a background music system to three distinct areas including a live sound stage. A 32 x 32 matrix video switcher distributed video throughout the facility, including a 10' x 5.7' video wall.

K - 12

CHAMBERLAIN HIGH SCHOOL AUDITORIUM

TAMPA, FL

Design and installation of auditorium sound system (right/left/center).

INDEPENDENT DAY CARE SCHOOL

TAMPA, FL

Installation of Master TV Antenna system, testing and calibration.

TAMPA PREPARATORY SCHOOL

TAMPA, FL

Creation of an ideal configuration for the school's classrooms. BCI installed an immense amount of hardware in classrooms, including Apple TVs, Epson Brightlink Projectors, and flatscreen televisions. FSR Inc. provided FLEX-LT panels that BCI installed to give Tampa Prep the flexible technology they need to control their environments.

CLEARWATER HIGH SCHOOL

CLEARWATER, FL

Installation of a new state-of-the-art sound and video system in the school's auditorium. After BCI performed a full system training and the keys were handed over, the school was ready for their first big production.

CREDENTIALS

COLLEGES

UNIVERSITY OF SOUTH JOINT MILITARY LEADERSHIP CENTER

TAMPA, FL

Fully integrated AV systems with automated control of video conferencing, classrooms, and board rooms.

UNIVERSITY OF SOUTH FLORIDA CAMPUS RECREATION

TAMPA, FL

Custom audio systems in each of the university's fitness rooms to allow for pin number access, iPod docking.

FLORIDA SOUTHERN UNIVERSITY

LAKELAND, FL

Design and Installation of multi-purpose lawn performance and background music system.

SAINT LEO UNIVERSITY

DADE CITY, FL

Classroom video projection, video conferencing, and control systems throughout the campus.

HILLSBOROUGH COMMUNITY COLLEGE

TAMPA, FL

Service and maintenance of sound/video systems and TV distribution systems.

PASCO / HERNANDO COMMUNITY COLLEGE

NEW PORT RICHEY, FL

Intrusion alarm security systems. Installation of auditorium sound system.

MACDILL AFB JOINT SPECIAL OPERATIONS UNIVERSITY (JSOU)

TAMPA, FL

Over 10 rooms with top-of-the-line video wall integration, video conferencing, audio/video matrix switching, and multi-touch panel operation.

UNIVERSITY OF SOUTH FLORIDA SUNDOME

TAMPA, FL

Design and sale of the arena sound system.

ADDITIONAL SOLUTIONS

SECURITY

Effective security systems are a growing concern for many Americans who want to feel safe when they go out in public. BCI Integrated Solutions can provide you with the commercial security system you, your employees, and your customers desire at a competitive price.

FIRE & LIFE SAFETY

Keep your alarm and life systems updated. Our in-house sales engineers will assist you in every step of the process for designing code-compliant solutions. Providing a wide range of solutions to protect your assets with mass notifications, distributed antenna networking, public safety systems, and several other life safety systems.

DATA & NETWORKING CABLING

Data management and communications are the backbones of your business. We use fiber opticals and category cable to design and install your communication infrastructure to help boost business productivity and give you the power you need.

HEALTHCARE COMMUNICATION

We provide technicians certified by BICSI, ASIS, InfoComm, NICET, and Avixa. We can provide code-specific monitoring of your system or an extended warranty agreement to keep your systems running.

	5 Address (number, street, and apt. or suite no.) See instructions. 9501 Princess Palm Avenue	Requester's name and address (optional)
	6 City, state, and ZIP code Tampa, FL 33619	
	7 List account number(s) here (optional)	

Part I Taxpayer Identification Number (TIN)

Enter your TIN in the appropriate box. The TIN provided must match the name given on line 1 to avoid backup withholding. For individuals, this is generally your social security number (SSN). However, for a resident alien, sole proprietor, or disregarded entity, see the instructions for Part I, later. For other entities, it is your employer identification number (EIN). If you do not have a number, see *How to get a TIN*, later.

Note: If the account is in more than one name, see the instructions for line 1. Also see *What Name and Number To Give the Requester* for guidelines on whose number to enter.

Social security number									
or									
Employer identification number

Part II Certification

Under penalties of perjury, I certify that:

- The number shown on this form is my correct taxpayer identification number (or I am waiting for a number to be issued to me); and
- I am not subject to backup withholding because: (a) I am exempt from backup withholding, or (b) I have not been notified by the Internal Revenue Service (IRS) that I am subject to backup withholding as a result of a failure to report all interest or dividends, or (c) the IRS has notified me that I am no longer subject to backup withholding; and
- I am a U.S. citizen or other U.S. person (defined below); and
- The FATCA code(s) entered on this form (if any) indicating that I am exempt from FATCA reporting is correct.

Certification instructions. You must cross out item 2 above if you have been notified by the IRS that you are currently subject to backup withholding because you have failed to report all interest and dividends on your tax return. For real estate transactions, item 2 does not apply. For mortgage interest paid, acquisition or abandonment of secured property, cancellation of debt, contributions to an individual retirement arrangement (IRA), and generally, payments other than interest and dividends, you are not required to sign the certification, but you must provide your correct TIN. See the instructions for Part II, later.

General Instructions

Section references are to the Internal Revenue Code unless otherwise noted.

Future developments. For the latest information about developments related to Form W-9 and its instructions, such as legislation enacted after they were published, go to www.irs.gov/FormW9.

Purpose of Form

An individual or entity (Form W-9 requester) who is required to file an information return with the IRS must obtain your correct taxpayer identification number (TIN) which may be your social security number (SSN), individual taxpayer identification number (ITIN), adoption taxpayer identification number (ATIN), or employer identification number (EIN), to report on an information return the amount paid to you, or other amount reportable on an information return. Examples of information returns include, but are not limited to, the following.

- Form 1099-DIV (dividends, including those from stocks or mutual funds)
- Form 1099-MISC (various types of income, prizes, awards, or gross proceeds)
- Form 1099-B (stock or mutual fund sales and certain other transactions by brokers)
- Form 1099-S (proceeds from real estate transactions)
- Form 1099-K (merchant card and third party network transactions)
- Form 1098 (home mortgage interest), 1098-E (student loan interest), 1098-T (tuition)
- Form 1099-C (canceled debt)
- Form 1099-A (acquisition or abandonment of secured property)

Use Form W-9 only if you are a U.S. person (including a resident alien), to provide your correct TIN.

If you do not return Form W-9 to the requester with a TIN, you might be subject to backup withholding. See What is backup withholding, later.
