

# Growvet International

KEEP QUALITY FOREVER

## VETERINARY CARE FOR ANIMALS OF ALL SIZES

POULTRY BRINGING THE FUTURE OF HEALTH CARE

BE A PART OF INDIA'S LEADING POULTRY GROUP

**60064-60527**

# NEOTOXYVET

## Double Action Anti Bacterial & Infection Treatment

### COMPOSITION : EACH 10 GRAM CONTAINS

Neomycin Sulphate IP	550.6 mg
Oxytetracycline HCL IP	550.7 mg
Vitamin A	11000 IU
Vitamin B12	44 mcg
Vitamin B5	0.0359 gm
Vitamin E	3.3 IU
Vitamin B2	0.0176 gm
Vitamin B1	88.1 mg
Vitamin D3	2.200 IU

### INDICATION & BENEFITS

- To prevent and treat Coryza, C.R.D. E. Coli. Fowl cholera, B.W.D.
- To prevent Early Chick Mortality (ECM) & other bacterial diseases.
- To prevent mixed infections.
- To treat non-specific diarrhea.

**FIRST FOUR DAYS USE**

### DOSAGE : For 100 Birds

- For the prevention of Early Chick Mortality : gm in 2 liter of water
- For treatment of ECM, Salmonellosis, Fowl Typhoid & NE : 1 gm in 1 liter of water.
- For acute infection, dose should be doubled.

# AMINERALS POWER

A Combination of Powerful Amino Acids, Vitamins, Trace Minerals with Peptides & Nucleotides.

### COMPOSITION : EACH 100ML CONTAINS

Peptides	200 mg	Vitamin B1	375.5 mg
Nucleotides	200 mg	Pantothenic Acid	1530 mg
<b>VITAMINS</b>		Vitamin B12	1.5 mg
Vitamin A	280000 IU	Choline	49.8 mg
Vitamin D3	58000 IU	Biotin	0.2 mg
Vitamin E	427.5 mg	Folic Acid	0.2 mg
Vitamin K3	28.7 mg	Niacin Amide	1066.7 mg
Vitamin B6	212 mg	Vitamin C	627.5 mg
Vitamin B2	417.5 mg	Inositol	0.2 mg

### INDICATION & BENEFITS

- Nucleotides are the building blocks that are essential for making new DNA and RNA. and to maintain metabolism and health of the body cells.
- Supplementation of nucleotides and peptides will increase the resistance to bacterial.
- Infections & significantly lower the levels of mycotoxin effect in poultry.
- Maintains healthy cells & keeps the phase of the growth & antibody production.
- To Improve Egg production, and to overcome stress & mineral deficiency.
- For complete supplement Vitamins, Amino acid & Electrolyte Balance.
- For correction of nutritional disorders with all Essential Ingredients.
- For Peak production and above all for THRIFTINESS of birds.
- For better intestinal micro flora Management.
- As an Instant Energy for stress & diseases.

### DOSAGE

- Chicks : 5-10 ml per 100 birds.
- Broilers & Growers : 10-15 ml per 100 birds.
- Layers : 15-20 ml per 100 birds.
- Breeders : 15-20 ml per 100 birds.
- Cow & Buffalo : 50 ml daily in the morning & evening.
- Should be given daily for 7 to 10 days,
- Every month or as recommended by veterinarian.

### AMINO ACIDS

<b>AMINO ACIDS</b>	
Methionine	785.5 mg
Lysine	399.6 mg
Histidine	105 mg
Arginine	156.6 mg
Aspartic Acid	805.5 mg
Threonine	304.3 mg
Serine	317.5 mg
Glutamic Acid	478 mg
Proline	96.1 mg
Glycine	712.5 mg
Alanine	2350.2 mg
Cystine	99.5 mg
Valine	215.9 mg
Leucine	355.6 mg
Isoleucine	225.5 mg
Tyrosine	295.3 mg
Phenylalanine	211.3 mg
Tryptophan	54.8 mg
Lactic acid	
bacillus	5526555 cfu
Yeast Extract	600 mg

# VETGROW POWER

GROWTH PROMOTER

## POWERFUL MULTI VITAMINS

### INDICATION & BENEFITS

- It should be given during pre and post vaccination stress, climatic changes, debeaking, deworming & transportation.
- During suppressed growth, slump in head production in layers and breeders.
- It gives benefit in crazy chick's disease and improves growth hatchability, fertility & production in poultry & livestock.
- Maintains overall health, help in healthy pregnancy improve fertility & milk production.

### COMPOSITION : EACH 5 ML CONTAINS

Vitamin A	250000 IU
Vitamin D3	30000 IU
Vitamin E	1500 IU
Vitamin C	500 mg
Vitamin B12	100 mcg
Selenium	50 ppm
Biotin	25 mcg
Lysine	7.5 mg
Choline Chloride	50 mcg
Methionine	50 mg

### DOSAGE :

- Chicks : 5 ml per 100 birds.
- Broilers & Growers : 7 ml per 100 birds
- Layers : 10 ml per 100 birds.
- Cows & Buffalos: 10 ml daily.
- Small Animals : 5 ml daily.
- Dogs & Cats : 2-3 ml daily.
- Should be given daily for 7 to 10 days, every month or as recommended by veterinarian.

### COMPOSITION : EACH 1ML CONTAINS

Vitamin A 100,000 I.U.

### INDICATION & BENEFITS

- To alleviate Vitamin A deficiency, to correct nutritional group.
- Beneficial in enteritis, coccidiosis, helminthiasis for tissue repair.
- Ensure Vitamin A level in combat diseases .
- Assures better growth of chicks.
- Improvement of egg production in layers.
- Assure better vision for birds. Improve hatchability and fertility.
- Develop resistance power to infections.

### DOSAGE

For 100 Birds

- Chicks : 5ml. daily.
- Growers and Broilers : 8-10 ml. daily.
- Layers and Breeders : 5-10 ml. daily.
- Cow and Buffalo : 10 ml. daily
- Should be given daily for 7 to 10 days,
- Every month or as recommended by veterinarian

# GROWVIN A

VITAMIN A LIQUID SUPPLEMENT

# VETPLEX B

Water Soluble B-Complex  
with Vitamin-E Powder

## INDICATION & BENEFITS

- Improve body weight and feed intake.
- Improve poor feathering and nervous disorders.
- Improve egg production and egg weight.
- Improve hatchability.
- Prevent embryonal malformations & death of embryos in the shell.
- Stimulates natural immunity & protects liver & kidney.
- It improves growth and production & brings vitality back in animals and birds.

## DOSAGE :

For 100 Birds :

- Chicks : 5-6 ml. daily.
- Growers and Broilers : 8-10 ml. daily.
- Layers and Breeders : 10-15 ml. daily.
- Cow, Buffalo and Horse : 30-40 ml. daily.
- Goat, Dog and Calf : 10 ml, per day.
- Should be given daily for 7 to 10 days.

## COMPOSITION : EACH 5ML CONTAINS

Vitamin B1	10 mg	Choline Chloride	20 mg
Vitamin B2	3 mg	Iron	400 ppm
Vitamin B6	2 mg	Copper	3 ppm
Vitamin B12	200 mcg	Cobalt	5 ppm
Vitamin C	200 mg	Manganese	200 ppm
Vitamin E	100 mg	Iodine	10 ppm
Methionine	20 mg	Magnesium	60 ppm
Lysine	30 mg	Zinc	70 ppm
Niacinamide	80 mg	Molybdenum	4 ppm
Calcium Pantothenate	3 mg	Selenium	1000 ppm
		Biotin	30 cg

## COMPOSITION : EACH 10ML CONTAINS

Tricholine Citrate	1500mg
Protein Hydrolysate	100 mg
Vitamin B12	4mcg
Inositol	10 mg
Methyl Donors	66 mg
Selenium	7 mcg
Vitamin	20 mg
Biotin	6 mcg

## LIVE FORTE VET DOUBLE POWER LIVER TONIC

### INDICATION & BENEFITS

- A powerful liver tonic for quick recovery of hepatic disorders & diseases.
- Protects and stimulates liver in stress due to exogetic & androgenic toxins.
- Combats the ill effects of Hepatopathies & Nephropathies.
- Improves weight gain in broilers.
- Improves egg production in layers.
- Breaks down triglycerides to prevent fatty changes, controls fat deposition.
- Reduced incidence of Gout, Leechi and Ascites.
- Nullify the ill effect of toxins in feed and improves digestibility.
- Stimulates lipase to prevent lipid peroxide oxidation.
- Stimulates the production of alpha & beta lipoproteins.
- Stimulates the function of kidneys in maintaining water salt equilibrium.
- Better detoxification of toxic metabolites.

### DOSAGE

- Broilers : 8-10 ml for 100 birds
- Layers: 10-15 ml for 100 birds.
- Breeders : 25-30 ml for 100 birds.
- Cow, Buffalo & Horse : 30-50 ml each animal per day.
- Calves : 20-30 ml each animal per day.
- Sheep, Goat & Dog : 10-15 ml each animal per day

SHOULD BE GIVEN DAILY FOR 7 TO 10 DAYS, EVERY MONTH OR AS RECOMMENDED BY VETERINARIAN.

# LIVE VETCARE

VITAMINS, AMINO ACIDS,  
PROBIOTICS, LIVER STIMULANTS

### INDICATION & BENEFITS

- Provide additional nutrients in the form of Alfa Amylase, Papain, Protein Hydrolysis & Biotin.
- Immunomodulatory effect.
- Helps in liver regeneration.
- Appetizer to stimulate feed intake in animals.
- Supportive treatment in deficiencies.
- Protects liver from effect of toxins.
- Supportive medication in toxic condition, fatty liver condition and other hepatic disorders.
- As general tonic to use regularly to enhance liver functioning.
- Improves FCR and weight gain.
- For better egg production and livability.

### DOSAGE

- Layers : 10 - 15 ml for 100 birds.
- Breeders : 20-25 ml for 100 birds.
- Cow, Buffalo and Horse : 30-50 ml each animal day.
- Calves : 20-30 ml each animal day.
- Sheep or Goat : 10-15 ml each animal day or as recommended by the veterinarian

### COMPOSITION : EACH 100 ML

#### CONTAINS

Vitamin B1	4 mg
Vitamin B12	3.5mcg
Liver Extract	175 mg
Choline Chloride	3000mg
Niacin	30mg
D-Panthenol	3 mg
Inositol	30 mg
Ascorbic Acid	10 mg
SaccharomycesCerevisiae	
SC-47	2,5000 million cfu
Alfa Amylase	1500 mcg
Papain	1500 mcg
Protein Hydrolysate	50 mg
Biotin	2.5 mcg

### COMPOSITION : EACH 10ML CONTAINS

Organic Calcium	1650 mg
Vitamin D3	8000 I.U.
Vitamin B12	100 mcg
Carbohydrate	40000mg
Phosphorus	850mg
Zinc	90 mg
Magnesium	300 mg

### INDICATION & BENEFITS

- Increases milk production.
- Improves skeletal and muscular strength.
- Prevents milk fever and rickets.
- Optimizes fat level.
- Increases disease resistance.
- Reduces reproductive and pregnancy problem.
- Improves overall growth in broilers and growers.
- Improves egg production and egg shell strength.

### DOSAGE

- Cow, Buffalo and Horse : 50 - 75 ml daily.
- Calf, Foal and Pig : 20 - 25 ml daily.
- Sheep, Goat and Dog : 5-10 ml daily.

#### For 100 Birds :

- Growers and Broilers : 20 ml. daily.
- Layers and Breeders : 30 to 40 ml. daily.
- Should be given daily for 7 to 10 days, every month or as recommended by veterinarian.

# GROWVET CAL B12

CALCIUM WITH ZINC & MAGNESIUM

# GROWVET SELERT E

VITAMIN E FEED SUPPLEMENT  
FORTIFIED WITH SELENIUM.

## INDICATION & BENEFITS

- During reduced immunity levels.
- To cope up pre & post vaccination stress.
- During out breaks of Immunosuppressive diseases & wing rot condition in growers.
- During vaccination failures, transportation, & debeaking stress etc.
- For Improvement of weight of bursa, spleen & thymus.
- To Increases leucocytes count.
- To improves vaccination titre against ND & IBD.
- To maintain immunity even in presence of mycotoxins.
- To enhance overall performance production.

## COMPOSITION : EACH 200 GM CONTAINS

Vitamin E	20 gm
Selenium	200 mg

## DOSAGE

- Chicks/Growers/Layers : 5 gm. for 200 birds through water or 150-250 gm. per ton of feed.
- Broilers : 5 gm. for 50 Birds through water
- Should be given daily for 7 to 10 days, every month or as recommended by veterinarian.

## COMPOSITION

- BKC Solution
- (Benzalkonium Chloride I.P) 18% V/V
- Citric Acid I.P 24% W/V
- Inert Ingredients qs

# AQUAPURE

A POWERFUL & HIGHLY EFFECTIVE WATER SANITIZER

## INDICATION & BENEFITS

- Eliminate the disease causing pathogens viz., bacteria, virus,
- mycoplasma, fungi and protozoa.
- Sanitize drinking water.
- Keeping farm and hatchery hygienic.
- Works as a broad spectrum of activity as disinfectant.
- Works as a broad spectrum of activity as a water sanitizer.
- Ensures safety - Non corrosive.
- Ensures safety even in presence of birds.
- Best acidifier, can be used even in presence of birds.
- Removes scales, mineral deposits, junk & slime
- from water pipes, descale water lines.
- Removes all dirt deposits & keeps water clean & neat.

## DOSAGE

- For Water Sanitation & Acidifier:
- 1-2 ml in 20 liter of water.
- For Disinfection & Descaling :
- 10-20 ml. per liter of water
- Should be used regularly.

# MULTILACTO LYTE

## FOR INSTANT ENERGY & REMEDY FOR HEAT STRESS

### INDICATION & BENEFITS

- Prevents dehydration & improves immunity.
- Provides instant source of energy.
- Enhances intestinal microflora, depleted due to heat stress.
- Maintains calcium & magnesium level which is essential for egg shell formation.
- Prevents mortality due to heat stress.
- Maintains performance and production.

### DOSAGE

- **For Poultry:**
- For 100 birds : 1 gm in 2 to 4 liter of water
- or 250 gm per ton feed
- For Cattle:
- 10 - 20 gm per animal per day.
- Dosages should be doubled in the condition of severe diarrhea & dehydration

### COMPOSITION : EACH 100 GM CONTAINS

Sodium Chloride	1.5 gm
Potassium Chloride	5.0gm
Glycine	3.5 gm
Manganese Sulphate	6.5 gm
Magnesium Sulphate	1.7gm
Calcium Lactate	1.5gm
Sodium Bicarbonate	1.0 gm
Sodium Citrate	2.5 gm
Vitamin C	1.2 gm
Calcium Hypophosphate	0.8 gm
Lactobacillus Acidophilus	3500x10
	(square) 8

### COMPOSITION

Anti gout compounds with urine acidifiers

### INDICATION & BENEFITS

- Prevent visceral and articular gout.
- Prevent mortality of chicks due to gout.
- Helps in the excretion of uric acid.
- Prevents accumulation of uric acid in the body.
- Removes excess fluids from the body.
- Prevents formation of stones.

### DOSAGE

For 100 Birds:

- 1st Week 1 gm. in 2-3 ltr of water .
- 2nd week 1.5 gm. in 7-8 ltr of water .
- 3rd week 2 gm. in 12-14 ltr of water .
- 4th week 2-3 gm in 18-22 ltr of water .
- or 2-3 mg per kg. bird's body weight till the time the bird is recovered from gout. or as recommended by veterinarian.

## GOUT FREE

### ULTIMATE REMEDY OF GOUT

# CALVET ORG D3

LIQUID FEED SUPPLEMENT  
FOR LIVESTOCK & POULTRY

## INDICATION & BENEFITS

- Increases milk production.
- Improves skeletal and muscular strength.
- Optimizes fat level.
- Increases disease resistance.
- Reduces reproductive and pregnancy problem.
- Improves overall growth in broilers and growers.
- Improves egg production and egg shell strength.

## COMPOSITION : EACH 20 ML

### CONTAINS

Calcium	330mg
Phosphorous	170mg
Vitamin B12	20mcg
Vitamin D3	1600IU
Leptadina reticulata	200mg
Asparagus racemosus	60mg

## DOSAGE

- Cattle, Buffalo & Horse: 100 to 120ml daily
- Sheep, Goat & Calves: 40 to 80ml daily
- Dog & Cats: 10 to 20 ml daily
- Poultry /100 birds**
- Chicks : 20 ml daily
- Grower & Broilers : 25 ml daily
- Layers : 50ml daily

## COMPOSITION : EACH ML CONTAINS

Levofloxacin Hemihydrate IP	
Equivalent to Levofloxacin	100mg
Bromhexine HCl IP	15mg

# LEBRONE

LEVOFLOXACIN & BROMHEXINE  
ORAL SOLUTION

## DOSAGE

1ml per 10kg body weight.

To be administered continuously for a period of 3-5 days once daily in drinking water depending upon the severity of infection or as recommended by a registered veterinary practitioner.

## INDICATION & BENEFITS

For the control & treatment of severe respiratory and bacterial infections of poultry.

## WITHDRAWAL PERIOD

Egg: 7 Days after the last administration

Meat: 5 Days after the last administration

# VRIMIC PLUS+

## POWERFUL SPECTRUM BIO SECURITY SOLUTION

### INDICATIONS & BENEFITS

- A complete "all-in-one" disinfection programmed for livestock.
- Effectiveness against poultry viral diseases.
- Broad spectrum activity against bacteria (including pseudomonas)

- Useful for prevention of infectious diseases in livestock housing.
- For disinfection of poultry & livestock equipment.
- For disinfection in presence of birds & animals. Vrimic + Powerful Broad Spectrum Activity, Operator Safety
- Profile and versatility make it the disinfectant of choice for livestock housing, surface, equipment vehicle, footdip, water delivery system and aerial disinfection.

### DOSAGES

- To Spray on Birds : 10 gm. in 1ltr. Water (For 1000 sqft. farm 10 liter spray)
- To Spray in Farm : 20 gm. in 1ltr. Water (For 2000 sqft. farm 10 liter spray)
- To Spray on Cleaned Equipment : 10 gm. in 1 ltr. water.
- For regular use or recommended by veterinarian.

### COMPOSITION

- Sodium Chloride 1.5% w/w
- Salt Containing Potassium Monopersulphate
- Potassium Hydrogen
- Sulphate Potassium
- Sulphate: 49.6% w/w
- Buffer & Excipients q.s. to 100% Color.

### COMPOSITION : EACH 10 ML. CONTAINS

Punernava	Boerhaavia Diffusa, Rt.	500mg
Panchtrin Mool>	An Equi Mix of roots of five medicinal Plants, Prcd.	500mg
Ikshu Mool*	Saccharum officinarum, Rt	500mg
Gokshru*	Tribulus terrestris, Fr.	450mg
Chharilla*	Parmelia Perlata, Wh.Th.	450mg
Varun*	Crataeva nurvala, St.Bk.	400mg
Kulatha*	Dolichos biflorus, Sd.	400mg
Pashan Bhel*	Bergenia ligulata, Rz.	100mg
Palas Pushp*	Butea monosperma, Fl.	100mg
Lajaloo*	Mimosa pudica, Sd.	100mg
Makoi*	Solanum nigrum, Pl.	100mg
Kakri Beej*	Curcumis utilisissimus, Sd.	100mg
Daruharidra*	<b>Berberis lycium, St.</b>	<b>50mg</b>

### B. Powders of:-

Sudh Shilajeet #	Purified Black Bitumen, Prcd	200mg
Swet Parpati"	Classical Ay.Preparation, Prcd.	150mg
Moolikshar*	W.S.ash of Raphanus sativus, Prcd.	150 mg
Sheetal Chini*	Piper cubeba, Fr.	100mg
Saindha Namak*	Sodii Chloridum, Prcd.	50kg
Sajjkshar	Classical Ay.Preparation, Prcd.	50kg

### SUGAR + SYRUP BASE :-

Excipient

Colour: Tartrazine (CI 19140), Flavour: Rosewhite other

Ingredients+ : Benzoic acid , Sodiu benzoate

# MIRIVET

## DOUBLE POWER

## KIDNEY FRESHENER

# MICRAL PLUS

EFFECTIVE AGAINST VIRAL,  
BACTERIAL AND FUNGAL

## EFFICIENCY OF GROMIC POULTRY & DOG FARM

### Aspergillus

- Problem Caused
- Fowl Pox
- Marek's Diseases
- Egg drop Syndrome
- Guamboro
- Running and Sturring Diseases
- Infection Bronchitis

### Virus Type

- Avipox Virus
- Herpes Virus
- Adeno Virus
- Rota virus
- Reo Virus
- Avain Infection

### BACTERIA

Mycoplasanc | Pasteuralla | Salmonella

## COMPOSITION

- Ortho Phenyl Phenol 12%
- Ortho Bezyl-Para chlorophenol 10%
- ParaTertiary, Amy Phenol Cetrimide I.P 0.45%w/w
- Proflovire Turpentine oil base

**USAGE :** Dillution Single dillution of 10 ML/1Ltr. Water in Presence of birds 25Ltr.for 20000.Sq.Foot

## COMPOSITION: EACH 10 GM CONTAINS

Ciprofloxacin	600mg
Tinidazole	600mg
Vitamins A	20000 I.U.
Vitamin D3	4000 I.U
Vitamin B2	30 mg
Vitamin E	30 mg
Niacin amide	120 mg

# CIFLOXVET TZ

CIPROFLOXACIN, TINIDZOLE WITH  
ESSENTIAL VITAMINS

## INDICATIONS

- Prevent early chicks mortality
- For the treatment or infection or E Coli
- Salmonellosis Streptococcal & Mixed
- Bacterial infections
- Mycoplasma Infection (CRD)
- Infection Coryza.

## DOSAGE

- For Prevention of early chicks mortality:
  - 1gms. In 2-3 liter of water
- For Mild Infection: 1gms. In 1-2 liter of water for 3-4 days
- For out break :2gms. Per liter of water for 3-5 days
- Or as directed by the veterinarians.

# STOMPURE DS

KIDNEY FRESHENER & BETTER  
GROWTH PROMOTER

## COMPOSITION : EACH 100 ML CONTAINS

Bhera	200mg	Pipali	100g
Vasa	300mg	Ajowain.	100g
Mulathi	200mg	KaliMirch	100mg
Tulsi	300mg	Banaksha	100g
Kantkari	150 mg	Pudinasty	10mg
Saunth	100 mg	Kakrashinght	50mg

## INDICATIONS

- Prevent early chicks mortality for the treatment or infection
- Or E Coli salmonellosis streptococcal & mixed bacterial infections
- Mycoplasma infection (CRD) infection Coryza

## DOSAGE

- 100 birds 10 to 20ml. per 100 birds for 4 days along with antibiotic continue.
- Stompure for 3 more days after stooping antibiotic for better result or as directed by the veterinarian.

## COMPOSITION:

Each 5ml. contains (approx)

Lycopene	500mcg.
Vitamin A	50000 IU
Vitamin D3	25000 IU
Vitamin E	100 mg
Vitamin C	12 mcg
Selenium	10 ppm
Lysine Monohydrochloride	5mg
DL- Methonine	10mg
Excipients	q.s.

## USAGE:

Chicks:-2ml.daily/100 birds.  
Broiler:-5ml.daily/100 birds.  
Layers:10ml.daily/100 birds.  
Or as Advised by Consultant

## INDICATIONS:

Improves overall performance, growth and Productivity.  
Provides Strength, during Deworming, Climate changes, Prolapses and Cage Fatigue. Helps to recover from Stress and Debility and improves Immunity.  
Helps to recover from Vitamin Deficiencies and Improves fertility.  
Increases FCR, Weight Gain and Hatchability.  
Speeds Up egg formation and Production.

# STRESSOUT

# GRODIS+ 04

## PROFESSIONAL DISINFECTANT

### COMPOSITION:

Didecyl Dimethyl Ammonium Chloride	9.2 % w/v
Benzalkonium Chloride Solution I.P	13.8% v/v
Bis -n-Tributyltin Oxide	1.0% v/v
Purified Water	Q.S

### USAGE:

- For disinfection of pre cleaned surface: 4ml / litre of water
- Disinfection of poultry houses using power sprayer :4ml/liter of water
- In presence of birds : 4-8ml/liter of water
- In absence of birds : 4-8ml/liter of water
- Disinfection of vehicle : 4ml/ liter of water
- Disinfection of hatching eggs : 4ml/liter of water
- Disinfection of Equipment : 2 liter of Grodis+04 in 3liter of water to cover 8000 sq.ft.area

### PRECAUTIONS:

- Keep out of reach of people. Avoid direct contact with eyes & skin.
- In case of contact with eyes, rinse immediately with plenty of water and seek medical advice. Avoid breathing spray mist.
- The fog generated by thermal fogger is irritating to eyes, skin & mucous membrane, under no circumstances should a room or building be entered by anyone until the fog has completely settled. Wear suitable protective clothing, gloves and eye/face protection.

### INDICATION & BENEFITS:

- Improve body weight and feed intake.
- Improve poor feathering and nervous disorders.
- Improve egg production and egg weight .
- Improve hatch ability.
- Prevent embryonal malformation & death of embryos in the shell.
- Stimulates natural immunity & protects liver & kidney.
- Its improves growth and production & brings vitality back in animals and birds.

### DOSAGE:

- For 100 Birds:
- Chicks: 5-6 ml daily.
- Growers and Broilers: 8-10 ml. daily.
- Layers and Breeders: 10-15 ml. daily.
- Cow, Buffalo and Horse: 30-40 ml. daily.
- Goat, Dog and Calf: 10 ml. per day.
- Should be given daily for 7 to 10 days.

# B-PLEX

## WATER SOLUBLE B - COMPLEX WITH VITAMIN -E POWER

### COMPOSITION:- Each 5ml contains

Vitamin B2	3mg
Vitamin B6	2mg
Vitamin B12	200mcg
Vitamin C	200mg
Vitamin E	100mg
Methionine	20mg
Lysine	30mg
Niacinamide	80mg
Calcium Pantothenate	3mg
Choline Chloride	20mg
Iron	400ppm
Copper	3ppm
Cobalt	5ppm
Manganese	200ppm
Iodine	10ppm
Magnesium	60ppm
Zinc	70ppm
Molybdenum	4ppm
Selenium	1000ppm
Biotin	30cg

# RESPO-MINT

DRINK & SPRAY EXTRACT OILS,  
VITAMIN C WITH NATURAL HERBS

**INDICATIONS:**  
Helps to improve breathing, used for cough & sneezing due to infections or non infections cause  
Helps to reduce post vaccination reaction due to IB & NCD Vaccination.

**COMPOSITION:**

Eucalyptus Oil	30% v/v
Peppermint Oil	19% v/v
Menthol	7% v/v
Ocimum Sanctum	5%
Sorbitol	5%
Calamus Oil	2%
Base	q.s

**SPRAY:**

1250 sq. meter area and for 24000 chicks below 3 weeks . Mix 250 ml of Respo-mint in 10-15 liter. water and spray twice in a day for above of 3 weeks of chicks : Mix 500 ml of Respo-mint in 10-15 liter. water and spray twice in a day .

**PREPARATION METHOD:**

Prepare a solution of 10 ml Respo-Mint and 500 ml of warm water (40 C) . This solution is then added to 40 liters of drinking water

**COMPOSITION: Each 250 gm contains (approx)**

Oxytetracycline HCL	3%
Neomycin Sulphate	3%
Probiotics	1%
Amino Acids	5%
Vitamin A	1 Lacs IU
Menadione Sodium Bisulfite(Vitamin K)	3750mg
Vitamin E	5000IU
Electrolytes	5%
Dextrose	q.s

# NEOTOXYVET+ PLUS

FIRST WEEK COMPLETE PROTECTION

**INDICATION:**

Prevents easily chick mortality (ECM) and other Bacterial disease.  
To prevents mixed infections.  
Attains uniform growth.  
Ensure better 1st week weight gain  
Vitamin-K supplementation minimizes blood loss during debeaking, coccidiosis etc

**USAGE:**

1 gm. / litter of water for 5 days or as recommended by consultant

Double Action Anti Bacterial &infection Treatment unique combination of Antibiotics, Probiotic, Aminoacids, Electrolytes and Vitamins

# COFFOUT

## RESPIRATORY PROBLEMS

### SOLUTION WITH NATURAL WAY

#### COMPOSITION : EACH 100 ML CONTAINS

Adhato	25gm
Salanum Xanthocarpum	25gm
Eucalptus Globules	20gm
Albezia Lebbek	300mg
Cyperus Rotundus	150 mg
Hedychium Spicatum	100 mg
Trachysurmum Ammi	100g
Turmeric Curcuma	100g

#### INDICATIONS

- Helps to recover respiratory disorders.
- Helps to improve breathing, used for cough & sneezing due to infections or non-infectious cause.
- Relaxes & Dilates the bronchial passages.
- Decreases pulmonary congestion and swelling.

#### DOSAGE

Mixing rate in drinking Water (per 100 Birds)

BROILER	LAYERS & TURKEYS	QTY
0-2 weeks	0-8 weeks	4ml
3-4 weeks	9-20 weeks	8ml
5th week onwards	21-72 weeks	16ml

#### COMPOSITION: EACH ML CONTAINS

Enrofloxacin	IP 50mg
Ciprofloxacin	IP 50mg
Eq. to Ciprofloxacin	

#### INDICATIONS
