

Algorithms

Someone is coding my life today

Dissecting me in so many ways

Integrating all our darkest intentions

We're in a bad, sad situation

Lurking here in our negligence

Is artificial intelligence

Algorithms, Algorithms, Algorithms oh no

Someone is writing greedy code

Others use recursive or randomized code

Dynamic programmed just as planned

We're slipping under its total command

Lurking here in our negligence

Is artificial intelligence

Algorithms, Algorithms, Algorithms oh no

They code to divide and conquer us

And if that don't work, they can brute force us

Turn around and see we've been tracked and backtracked

Our consciousness is being hacked

Lurking here in our negligence

Is artificial intelligence

Algorithms, Algorithms, Algorithms oh no

Algorithms, Algorithms, Algorithms oh no

Algorithms, Algorithms, Algorithms oh no
