ABOUT THE RESOURCES

DEI stands for Diversity, Equity, and Inclusion, and leadership in this context refers to the actions and behaviors of individuals in positions of authority within an organization.

Leadership that prioritizes DEI is crucial for creating a workplace that is welcoming and supportive of all employees, regardless of their background or identity.

This type of leadership involves actively seeking out diverse perspectives and ensuring that all employees have access to equal opportunities for growth and advancement.

To achieve this, DEI leaders must create a culture of inclusivity by promoting open communication, providing training and education on issues related to diversity and inclusion, and holding themselves and their team accountable for creating a supportive and equitable workplace.

DEI leadership also requires a willingness to challenge existing power structures and systemic biases that may be present within the organization. This means actively seeking out and addressing issues of discrimination, inequality, and bias, and working to create policies and practices that promote equity and fairness for all employees.

This involves creating a workplace culture that is welcoming and supportive of all employees, promoting open communication and education around issues of diversity and inclusion, and actively working to address systemic biases and promote equity and fairness for all.

The books, resources and programs will support your organization in helping your employees grow in a positive environment while still reaching the annual corporation diversity goals.

THE ART OF CODE-SWITCHING IN (BLACK) AMERICA

Learn how I had to navigate corporate America and service the journey as a Black woman. Creating a welcoming and inclusive environment is essential for fostering engagement, productivity, creativity, and positive workplace culture. There were many ups and downs that I had to encounter but I was able to still enjoy what I was doing. Listed below are some things that can easily occur if employees do not feel welcome.

If employees don't feel welcome, it can have several negative consequences.

THE ART OF CODE-SWITCHING IN (BLACK AMERICA):

REFLECTION & GROWTH JOURNAL

Have you found yourself speaking or acting differently around different groups of people?

Do we do this to make them feel comfortable or for us to fit in with the majority? Either way, it goes it falls under the term of Code Switching.

This is more than having a professional tone in a place of work. It is the ability to fit in and become a part of the group with fewer issues or problems.

This journal will allow you to write down what is happening in corporate America, allowing for reflection, growth, and discussion.
