

DIZZY DRAGONS

The **Dizzy Dragon** is a Larson International, Inc. interactive spin ride with the friendliest looking dragons you have ever seen. Big, colorful creatures with spots, wings and tails. Once the ride begins, the entire structure rotates and guests can begin spinning each vehicle independent of one another. The faster you spin the more dizzying the views become. The ride finally comes to a stop and guests see if they can walk straight after exiting the ride. The Dizzy Dragon is a children's ride which easily accommodates adults as well. With its interactive spinning action it is already a proven winner.

TICKETS: 4
