

## *President's Message May 2018*

# *Winter .. Is It Really Over?*

Hopefully by now members have had a chance to get their cars out once or twice. Weather has not been great. It has run the gambit, sun, snow, sleet, rain.

I'm going out on a limb to say that snow/winter is behind us and it is time for members to get their Corvettes out.

Time to rediscover the fine lines of the fiberglass, contours of the seat as you settle in, hands caressing the steering wheel and shift, turn the key, and she comes to life, ready to respond to your every command!

The month of May should be full of Corvette fun for members and I ask that you join us when you can.

I Look forward to meeting new and old friends!

Steve "GDTOGO" Wilson, EMCC President

# A FEW WORDS FROM THE VICE-PRESIDENT

By "SMOKEN" Mal Smith

I am pleased to see sunshine and I am passing it along to everyone. Let's get out and enjoy our "TOYS". I hope to see you soon at a Tuesday night static cruise.

Last month I mentioned to you that the Classy Corvette Cougars are getting together again and we invite all of the women of the club and their friends to join in on any of the CCC events. Nine Cougars went to Molly's Apothecary on April 12th and made soaps, body lotion and body scrub. We brought wine and snacks and had a delightful night of laughs. Jean Kirkham sponsored the event about 4 years back and sponsored it again this year. Thanks so much Jean. Great night!!!

Cathy Wesalowski is working on our next event which will be a night at the Reflexology Spa in Waltham. There are already Cougars waiting for this event. More info to come.

I had the pleasure of communicating with Jim McMackin this past week. He is loving his Tesla and Mary is waiting for hers. They keep busy babysitting their grandchildren five days a week. Jim is planning to meet up with us at a Bass Pro night to catch up on news. We will be seeing him soon.

SMOKEN is out of it's stall..... see you all soon.

Mal

# THOUGHTS

## TIME TO START CRUISING

Story by Arne Johnson

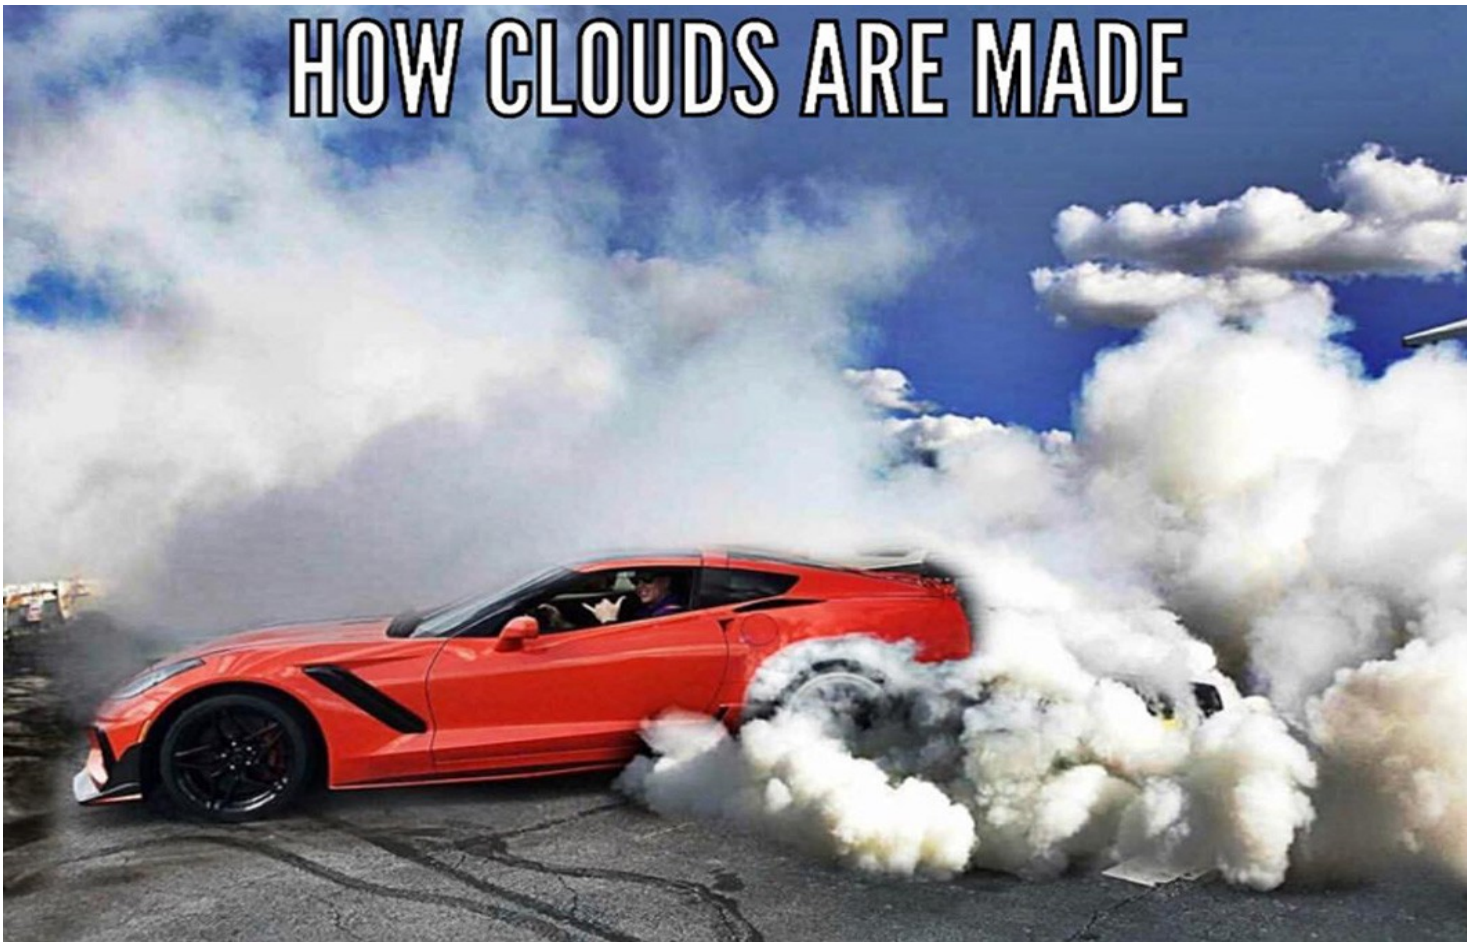

Finally we are entering a time of warmer weather which will enable the start of some serious cruising. Usually we see Pinch's Wash & Shine as the initiating event to kick the season off. This year will be no different as the Wash & Shine returns to Pinch's Business site on Rt.109 in Millis. I know we are all glad to be returning to this site following our good friend Pinch's period of illness last

season. The very next day, May 6, will be at the Car Show at Mass Bay Community College Automotive Tech training site in Ashland. This is a great show of about 200 cars and one that has been a winner for EMCC members Jack Kirkham and Bob Grenier. Not only have their cars won awards at this show but photographs of their cars have appeared on the annual flier announcing the show. Jack's is on this year. My car has not won or appeared on any flyers but I have won many friends who have shown a variety of cars and trucks each year. My Vette is still in the garage and on the battery tender but cleaning supplies have been ordered on line from Girot's Garage and by next week we will be back on the road and planning

for a season of shows once again. See you on the road soon.

## HOW CLOUDS ARE MADE

2018  
Yavapai College  
Prescott, AZ  
Cruise-in for the Veterans  
21 April 2018  
by Rooster Brown

It wasn't a sponsored club event, but we were told about this annual event and had some members show their cars in it. They had about 350 cars on a beautiful spring day at the Yavapai College parking lot in Prescott, AZ. I arrived around 9:30 a.m. and stayed for two and a half hours. In addition to the cars, there was food and other vendors present along with veteran support groups. I took many pictures and the following link will take you to them if you so desire.

# HERE WE GO ... IT'S BASS PRO

Story & Photos by Keith E. Jacobson

On Thursday, April 12th, the car season finally kicked off with the first Mass Cruisers/Bass Pro event of 2018. It was a little chilly with a threat of possible showers and that probably kept the crowd down. EMCC was well represented by a happy if cold crew. At times the wind was so brisk that the flags on a military truck were blowing straight out. The season is here and if you have never been to the show at Patriot Place in Foxboro ... make this the year. It's every other Thursday (check the schedule) and they request a can of food donation for local food banks .

## NEWS FROM THE NATIONAL CORVETTE MUSEUM

**Iconic supercar is 15th Corvette to lead ‘The Greatest Spectacle in Racing’**

**[2019 Corvette ZR1 to Pace 102nd Indianapolis 500](#)**

The 2019 Corvette ZR1 is the official Pace Car for the 2018 Indianapolis 500 presented by PennGrade Motor Oil and will lead drivers to the green flag on Sunday, May 27, for the 102<sup>nd</sup> running of the legendary race.

It marks the 15<sup>th</sup> time a Corvette has served as the official Pace Car since 1978, and the 29<sup>th</sup> time a Chevrolet has led the field dating back to 1948, when a 1948 Fleetmaster Six convertible paced the race.

No other vehicle has served as the Pace Car more than the Corvette. To celebrate the iconic supercar's connection to "The Greatest Spectacle in Racing," the 2019 Corvette ZR1 and the other 14 Corvettes that have paced the 500 were on display on the front straightaway today at the Indianapolis Motor Speedway.

"Chevrolet is proud to once again pace the Indianapolis 500," said Steve Majoros, marketing director for Cars and Crossovers. "The ZR1 is the most powerful and fastest Corvette ever made. It's the perfect choice to pace 'The Greatest Spectacle in Racing.'"

The 2019 Corvette ZR1 Pace Car features:

- LT5 Small Block 6.2L supercharged V-8 engine with 755 hp and 715 lb-ft of torque
- 8-speed 8L90 paddle-shift automatic transmission
- ZTK Performance Package featuring a stanchion-mounted adjustable carbon-fiber high rear wing, Michelin Pilot Sport Cup 2 tires and performance suspension
- Magnetic Selective Ride Control™
- Brembo® Carbon Ceramic brake system
- ZR1 chrome-aluminum wheels, 19-inch front and 20-inch rear
- Standard Performance Traction Management and Electronic Limited-Slip Differential
- Unique Indy 500 graphics package
- GM Design fully integrated safety strobe system
- Performance Data and Video Recorder

The Corvette ZR1 Pace Car can accelerate from 0 to 60 mph in 2.85 seconds and reach a top track speed of 212 mph, the fastest Corvette in history.

Chevrolet has a storied history with the Indianapolis Motor Speedway. Chevrolet was founded in 1911, the year of the inaugural 500-mile race, and company cofounder Louis Chevrolet, along with brothers Arthur and Gaston, competed in early Indy 500 races. Arthur Chevrolet competed in the 1911 race, and Gaston Chevrolet won it in 1920.

"Chevrolet and IMS enjoy one of the longest-running and strongest bonds in motorsports," said J. Douglas Boles, Indianapolis Motor Speedway president. "Seeing all of the incredible Corvettes that have paced the Indianapolis 500 on the track today is an exciting reminder of the rich history of this great relationship. This year's Pace Car, the 2019 Corvette ZR1, is an incredible fast machine that is a perfect fit to lead the 500 field to the green flag."

Chevrolet is pursuing its seventh consecutive IndyCar manufacturer championship this year, building on a successful 2017 season that saw 10 wins out of 17 races.

Visit [IMS.com](http://IMS.com) to purchase tickets for the 102<sup>nd</sup> Indianapolis 500 presented by PennGrade Motor Oil on Sunday, May 27, and for more information on the complete month of May IMS schedule.

The race also will be televised live on ABC, with the pre-race show starting at 11 a.m. EDT. Advance Auto Parts IndyCar Radio will provide live coverage of the race to its affiliates and on Sirius 214, XM 209, [www.indycar.com](http://www.indycar.com), [www.indycarradio.com](http://www.indycarradio.com) and the INDYCAR Mobile app.

# COLD CRUISE TO ICE CREAM MACHINE

Story & Photo by Joe O'Connor

Four hardy cruisers left Raffael's parking lot for our first ice cream run of 2018. When we got to our destination we had five corvettes. No rain or snow, but the roads were wet in places and sandy by the reservoir in Cumberland, R.I. . It was still good to get out and drive. Joe O'Connor, Steve Sylvia, Paul Worsley, and Jim Lee. When we got to the ice cream machine, Mike Pansuik was waiting for us. The ice cream was good and expensive. I must be getting old. The trip was a good excuse to get out and drive our Corvettes. Many more good times to follow. SHOWEM, SHINEUM, AND USEUM.

UNLESS YOU'RE A CORVETTE OWNER ... THEN NOT SO SLOW

# FAST TIMES AT SLOWHAWK

STORY & PHOTOS BY KEITH E. JACOBSON

On Saturday, April 21, the 9th annual open house/dyno day was held at SLOWHAWK PERFORMANCE in Bridgewater. Cars went on the dyno at \$65.00 for two to three runs. There were lots of spectators and plenty of Vettes. It was a sunny and mild day which is always good for great turnout. Burgers, dogs, soft drinks, and chips were served ... something that made a nice day even nicer. Think about attending this event next year.

# DRIVING MISS DAFFODIL

Story & Photos by Keith E. Jacobson

What a great way to celebrate Earth Day on Sunday, April 22, a car rally in Newport, R.I. . The Audrain Automobile Museum crew lead a car parade through downtown Newport, along Ocean Drive, and back along mansion row, Bellevue Avenue. The tour took approximately one hour and was escorted by the Newport Police Department. Museum staff said that over 80 cars registered for the free event. This was part of the 5th Annual Newport Daffodil Days Festival. There were many interesting cars participating including a beautifully restored Aston Martin that was a duplicate for the one used in the movie "The Birds" ... it was sporting a "show" license plate that was the same as the one used in the movie. The sunny and mild day made for a great event.

## TIME TO RENEW YOUR LICENSE

Story by Bob Gardner

While we were all focused on the Registry's changes regarding inspections, another major change was creeping up on us. Now it's here and it will affect us all in one way or another. The change is to renewal of your driver's license and it's gonna send you scrambling to your safety deposit box or maybe the sock drawer. By late 2020, maybe two years from now, driver's licenses as we've known them all our lives will have to change per regulations that grew out of 9/11. Your license won't get you on a plane or into the Social Security Office. You'll need a new one.

Beginning March 26, the so-called Real ID's, created by post 9/11 security law, will require Massachusetts drivers to go IN PERSON to a Registry Office when their licenses expire. And you'll have to bring a fist-full of documents with who you are and that you are

If you want to walk out with licenses you'll need your Social Security Card that Security Number. Or you W-2 from work. Some of you Then, to prove your US either a current passport or a certificate. Remember where

you! You'll have to prove in the United States legally.

one of the new Real ID original (or duplicate) shows a valid Social Security Number. If you are still working, right? Citizenship, you'll need certified copy of your birth that stuff is??

Lastly, you'll need two (2) more documents to prove you reside in Massachusetts. These might be utility bills, bank statements, or even a renewal notice from the DMV. Obtaining these records isn't tough but showing up at the Registry minus one or another sends you back to the end of the line. And there WILL be a line.

You may decide to forgo the Real ID license. Maybe you have a valid US Passport already and use that when you fly. The benefit of this is you can still renew on line with the Registry. But be sure to keep that passport with you and keep it current.

The Commonwealth has set up offices to work with felons, the homeless, and domestic violence victims to get them licensed. Note there's no office for the elderly and that's some (most) of us. I've LOST more documents that most of these youngsters have possessed in their lifetimes. I have NO idea where my original Social Security Card is. We do have passports and you can betcha we'll be making sure they're renewed before they expire in the safety deposit box.

How did this all come about? In 2005, Congress passed a law saying that state issued driver's licenses would no longer be acceptable for purposes such as boarding a domestic flight unless they complied with new federal requirements. Those included increased verification of a person's identity, citizenship, and residency. After years of extensions and delays, time is running out in Massachusetts. Residents here won't be able to board a flight after October, 2020 using a traditional state ID. So we are joining more than two dozen other states in compliance with the regulations. We will have a state ID that is in accordance with federal regulations. Welcome Aboard.

#####

## EMCC MEMBERS AT THE MARATHON

Story & Photos by Bruce Kolovson

The EMCC was well represented as part of a volunteer program at this year's 122nd running of the Boston Marathon on Patriot's Day, Monday, April 16. Under the leadership of EMCC's Judy Pitasi EMCC members volunteered to be part of a team collecting donated and discarded clothing at the Boston Marathon's start area in Hopkington. Many athletes wear items to keep warm and as the race starts they discard them. Items collected were picked up by the Big Brother Big Sister organization. In spite of challenging weather conditions...spirits remained high among runners and volunteers. Personally, it was my first experience volunteering at the Boston Marathon. I'll definitely be back. Charlie Eshbach (seated) . C

# LAST LAUGHS

“If you really cared about my reputation, you’ll get rid of that minivan and take me to school in a new Corvette.”

# PARTING SHOT
