

THE BEST TOOLS, TO MAKE THE BEST NAILS FORMS

KYM LEE's experience designed these forms:

The secret to Kym's geometry, shape and perfect C-curve formation each unique by fabrication. The tabs lock together at the end to hold the perfect C-curve while the inzone notch abolishes coning. Brilliant designs in detail only from GALAXY. The Classic forms are designed for sculpting an oval shaped free edge. Custom forms are unique for a square free edge sculpt. The 2-in-1 form is a Classic form in one direction, and a Custom form in the other.
