

My Joseph Smith Story

*of receiving the new name for the Political Kingdom of God
a work foreseen for a latter day figure named David.
with 2023 updates on the progress of this work.*

1.0 Early in my life near the time of my mission to Washington DC (76-78) I was told by a Sister who was giving a LDS lecture on the last days, that before the talk - she said -the spirit came to her and told her that a man- whose name was like the House of David, would start a movement in the future to bring people back to the simple ways of life in preparation for the second coming. She said this “David” would start this movement at a time in the future when traveling from one state to another.

2.0 I had never gone to talks outside of church meetings or Institute classes on these subjects, but I remembered I was drawn to go to this evening lecture at a Church building after reading a book on the last days.

3.0 As I sat there in the back of the large Church classroom -much like a relief society room, I thought — my name means Small House of David in Italian, maybe that is me. ...but I left the room immediately after the talk - as I was quite sure something so significant would NOT come to someone so insignificant.

4.0 In 2010, I decided to travel from Utah to California on a family history vacation. While staying at an International Hostel on the coast, I felt the presence of Joseph Smith, his wife Emma and many many others of Chinese ancestry - I was told to ask the name of two organizations and when I did, I was given two new names with clarity.

5.0 I learned the first new name was for the Kingdom of God the Savior said was within mankind, or the anatomy of our temples or divine nature within us. This was represented by the multitudes of Chinese I felt.

6.0 The second new name Habitat for Health, was for the Political Kingdom of God, a work foreseen to come to a David figure, a work to come out of the Church and a work to come out of his lineage. I wondered if that was Josephs line or Davids line or both and I will share what I learned about this.

7.0 This second new name Habitat for Health, would be started by endowed women in the Church, giving birth we may say to the political Kingdom of God. When receiving this new name, I felt it would be like a relief society, start in the home, and would in time feed entire nations as I was told earlier in the year 2000.

8.0 Joseph foresaw a latter day work that would be out of the box as one Isaiah scholar says, this latter day servant would

1. Be the Lords servant, a King David or in modern language a community leader in government a community leader who would bring a new model form of leadership. This David figure would bring a work that would come out of the Church (temple ceremony) but lead in the community. I was literally in the endowment room in the summer of 2010, when I was given the key financial pieces of this work, and shown in doing the business plan how it will tip the consciousness of American to a new way of life, or Zion communities.

- 2.This David figure would bringing a work to those of the Covenant, and it would be a work that those who opened their eyes that they may see and that what they received would bring them to rise to a level of becoming Kings and Queens or community leaders in their local neighborhoods.

9.0 This is about those who are endowed members who I have been directed are to lead in their homes and communities in creating Zion Communities needed in our day -- so when the days of destruction come and when as the scriptures say, many will "flee" or need to quickly go to to "Zion", that those Zion communities will exist for them to flee to.

10.0 I was shown over this last year and before on several occasions in very symbolic dreams that those who lead in this

effort, will have renewed bodies that will be healthy and in good shape.

11.0 In addition, In 2023, I received a dark dream of many destructions of all kinds coming to the earth. They were related to wars from the north coming to the American, they were environmental, political, and in families.

12.0 Likewise, my wife more recently received a dream we have discussed in detail regarding the collapse of a building. It was a bank, and the walls fell or were folding down, and a new economy was rolling out, like green grass across the land. The people were wearing farmer clothes and the communities were filled with people and animals experiencing joy and happiness,

13.0 When finishing graduate work in December of 1999 at BYU in the Department of Educational Leadership and Foundations, I was a teacher, principal, CEO, and janitor for a small lab school we had built, funded by trust funds we received from the Smith family, relatives of Joseph Smiths grandfather Asael. The school was called the Alta Vista Education Center.

14.0 I normally would not have done graduate work, but I was directed by the spirit to do graduate work at BYU in early stages of this work unfolding, and my wife felt strong- that trust funds from the Smith family needed to pay for it.

15.0 I had no idea while at BYU where this work was going but i felt a deep sense of needing to finish. I finished a Masters Degree in 1999 in Educational Leadership and Foundations. When I finished graduate work, I was operating this Parent and Youth K-12 educational leadership center in the Provo/Orem area called the Alta Vista Education Center.

16.0 I prayed for direction on the curriculum taught in this center. Many LDS private schools were developing at this time in the late 90's claiming an LDS curriculum. I studied everything I could at BYU on the Church and Education and from what I learned, there was not any LDS curriculum every made for schools, and the

Josephs vision for Zion food producing communities were to have temples and homes as the central places of teaching.

17.0 I was given a quiet answer to prayer at that time in 1999 and it was not expected. I was told I would develop a curriculum for Mothers taught with the hand that would help them prepare their children for the temple. I learned this referred to the temple within each of us and happened to make sense of many other things in the temple.

18.0 You can learn about the 17 points on the hand and the names for these that tell the story of this work. They have key points like the center of the palm were everything has an opposite, key points on the thumb related with key works as peace, joy and trust first developing when children are first born and how this relates to the Church of the First Born and the wrist where parents use authority with heavenly directed love.

19.0 There are three key points on the seventh finger or right hand - telling of the three words Simple Living Centers centers of our spiritual emotional anatomy and how they related to the Kingdom of God within each of use and the seven points of the two great commandments.

20.0 In addition, how Habitat for Health will rise up (being the tallest middle finger) and become an international organization or the political kingdom of God throughout the earth, providing basic needs - feeding countries as we learn in Ezekiel 34, as the systems of the world fall apart. This session of teaching with the hand will be reviewed in the first of eight weekly sessions for learning about his website and ties the concept of the work of Elijah to our health, our healing and how we can find our unique work on the earth.

21.0 Following this story or curriculum with the hand, there is another version of this website I was directed to develop for those endowed mothers in China.

22.0 A sister who was needing a home for 6 months was directed to our family by my daughter. We invite her to stay and she was a master herbalist who happened to help me care for my father who had been under our full time care and was bed ridden. That is another story of the miracles of God, but for this story, she received a dream of a Chinese woman knocking on a door with her hand missing key fingers.

Just after that, I recently received the following visit from a sister dressed in her temple clothes. A sister I had worked with in the Bishopric while she was an out of the box - relief society president in Hayward California.

I say out of the box as her calling was rather unique. I was the executive secretary and was in a meeting with the Bishopric one day and this sister's name was recommended as the new RS president. As the bishop shared his feelings the spirit came over the entire group.

The problem was she had just moved two states away to the Fremont stake, a stake about a 20 minute drive away. They had just fled from the Philippines and were in the USA on political asylum. They had little money. We ended up getting approval from the Fremont stake president for her to serve as Relief Society president, and her husband got hired to help me for a year as a field engineer.

She had a wonderful family and her two boys served missions for the Church. Her husband worked for me when I was running the facility operations of a local college. This sister passed away in the later 90's and this is on the website of her visit to me.

In about 2020, a Sister (Rachel Aliling) from the Philippines came to me. I had worked with her while in a bishopric in Hayward California when she was Relief Society President in about 1986. She had a PHD in nutrition and had dedicated much of her life to improving health. It appears her work continues in the afterlife. She came to me from the spirit world (as she passed away in abt 1997) and was dressed in her temple clothes and entered my room with a message. The message was to teach this message of health and

community to those in China without using any reference to God or Church. That work is being developed on another website called soulmap.life. Feedback to improve and translate that site would be appreciated.

As I see struggles going on with youth in China and around that world - my heart goes out to them, and I feel such an urgency to have this work translated that perhaps it may bless them now.

I was given a dream, that three leaders of Chinese background, leading a small group of perhaps 20 other Chinese followers all running into walls - looking for a way to get out of a boxed in home area where they were like animals running to get out of the home, the windows to tall to get out of.

In the dream, I simply opened a door that led to a bright light, and the three leaders with their groups following quickly went out the door to the light.

For the first session, click below.

Sincerely,

David Cassani
