GILLZ
BREATHE LIKE A FISH

Cabela's

ENGEL
Coolers
THE #1 HIGH PERFORMANCE COOLER COMPANY

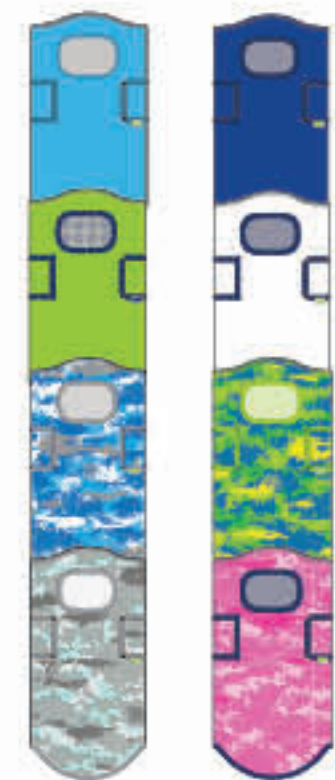

WHEN I'M ON THE WATER, I'M FOCUSED ON FISHING.

I just want to stay on the water from sun up to sun down without fighting the sun or the bugs. It's really man versus nature out there. So I drew some chicken scratch on the back of a napkin; I wanted clothes that protected my skin from the elements but breathed like a fish.

In February 2009, I designed a comfortable shirt with mesh panels on the side and a vented mask with gills. That sun gets brutally hot out there. Now I stay cool, dry and protected for the whole day while I am competing in a tournament or fishing with my family.

It's that simple.

Kent A. Hickman

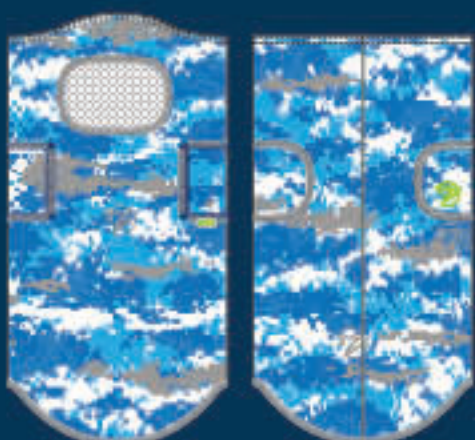

GILLZMASK

MSRP \$24.99

LET GILLZ HELP BUILD YOUR BRAND

BREATHE LIKE A FISH

Never before have you been able to customize a clothing line to this degree. For as low as a 36 piece embroidery order / 50 piece printed order, we can now brand our high end performance.

Since inception, we have been customizing our amazing line of performance clothing. Our customers have come to us with designs and concepts for branding and we have been happy to accommodate them in their marketing efforts. We have made a very complicated process super easy for you and your busy schedule to have fully customized GILLZ apparel delivered to your door.

THE PROCESS

1. Provide your logo and/or tag line

To ensure your customization prints with the highest quality possible, we prefer to use only vector graphics (.eps & .ai). When enlarged, vector images will not become "pixelated" (fuzzy) as will Bitmap Images such as jpegs. We may be able to use high resolution bitmap images (300+ dpi). Please do not send images taken from the internet - they will almost never be usable. Or, if your logo is just made up of text, we can place it on the shirt using a similar font.

2. Choose your garment

3. Select the type of customization: screen printing, sublimation or embroidery

4. Select your imprint locations - See location images below (or wherever you place them) Imprint Locations: Please indicate where your logos should be placed. (Positions can be added together for large logos (F7+F10 for wide horizontal logo or R1+R2+R3 for long vertical logo on sleeve)

5. We will provide a proof prior to printing for your approval

6. You will receive your order within 3-4 weeks

New Feature Pocket in Mesh on Both Sides
