

"THE NEW MIAMI OPEN"

a unique collection by *The McTiers*

MODAST
FASHION & ART GALLERY

For the first time in 25 years the McTier family will be displaying their art work at an exhibition to the public. The McTier family showcases two generations of artists, Lucy and her son Jace. Their artistic method focuses solely on portraits, encompassing the portrayal of legendary athletes and iconic figures. The athletic portraits comprise mainly of Tennis and Golf. Iconic figures such as Ronald Reagan and Richard Branson display portraits in their personal collections crafted by the McTiers.

The new location of the Miami Open is a very exciting change for the city and the diverse population that inhabits the city. The McTier family are among the few artists that have achieved notoriety in the Contemporary Sport Art genre, making them especially suited for the Miami Open. As a tennis player and art collector I was instantly drawn to the McTier's art as it combined two of my passions. After discussing our shared passions this connection established a bond that has lasted for many years between us. To date this will be most meaningful exhibition ModArt has presented. Simply put, the McTiers are like family to me.

Sincerely,

A handwritten signature in black ink, appearing to read 'Norka', with a stylized flourish at the end.

Norka Martinez Luque
