## Fofia Livestock Identification

Fofia, founded in 2002, is an international supplier of RFID tags and readers, visual tags and digital farm solutions. Fofia has a professional R&D engineering team with more than 12 years' experience in RFID application. Fofia's RFID products are NLIS approved and meet the global standards for the electronic identification of livestock.

Fofia has established a new Brisbane-based processing facility for livestock identification products. Their dedication to excellence in customer service and high-capacity throughput enables fast turnaround times and high priority dispatch for urgent orders.

## NLIS Cattle Tag

NLIS cattle tag offering superior reliability, readability and retention rates expected from this traditional tag design.

**Colours:** White (Breeder) and Orange (Post Breeder)

## Management Cattle Tag (Printed or Blank)

Ideal for applications in beef, dairy and long fed markets. It makes a great stud cattle tag. Female and male styles available. Applied with Universal Tagger.

**Colours:** Yellow, Orange, White, Blue, Green, Red, Purple, Hot Pink

## One-Piece Cattle Tag (Printed or Blank)

Designed for ease of application and Australian farming conditions. Requires One-Piece Tag Applicator.

**Colours:** Yellow, White

## Button Male Tag (Printed or Blank)

Button Male is ideal for all livestock applications in combination with multiple size female parts. Applied with Universal Tagger

**Colours:** Yellow, Orange, White, Blue, Green, Red, Purple, Hot Pink, Black

## Universal Tagger

Universal Applicator can be used for NLIS cattle tags and two-piece visual tags. Will also fit most similar tags, consult the guide. Easy to use Pin Spanner kit included. *Free with first 200 tags purchased.*

## Stick Reader

Low Frequency 134.khz Handheld Stick Reader that meets standard ISO11784/5 HDX/FDX-B. Compatible with weighing and milking equipment. USB and Bluetooth data transfer.
