DPW/Wastewater

The 360 feet of pipe replacement on the Parker Street Drain has been completed.

The drain behind D'ss on second street still needs work done and Fish is still figuring out the best approach.

There is still a hold up on the purchasing of the new Village truck on the USDA's end.

The Saginaw County Road Commission is planning on putting a 2-mill bond proposal on the August 2024 ballot for street improvements and repairs. There are no details yet on how much of the funding the Village would receive if passed.

The lagoons have been treated. The new valve broke and Fish had to dig it up, he said the design is flawed and it does not want to work with an extension. He is going to leave it open for now and cap it so it does not have to be dug up again. He will discharge next week and be done for the year.

There are some minor expenses that will be coming up soon. The portable pump needs to be replaced, the camera system fiber optic cable broke and some preventative winter maintenance needs to be done.
