

CAPABILITY STATEMENT

Executive Overview:

Continuum Solutions LLC® provides virtual IT solutions that improve the efficiency of educational outcomes and corporate workforce development trainings. We utilize micro-learning, artificial intelligence, and virtual reality in our multi-tiered approach. E-Learning modules have been effective at improving health outcomes especially for historically black colleges and universities (HBCUs). CSL was founded in 2020 by a black woman engineer turned health advocate that addresses health equity.

Core Competencies:

- eLearning Development (animation)
- Artificial Intelligence
- Virtual Reality
- Program Management
- Standard Operating Procedures
- Onboarding
- Training Strategy
- Learning Strategy
- Health & Wellbeing Education
- Corporate Training
- Workforce Development

Differentiators:

We have delivered health education resources virtually especially to HBCUs that have improved health outcomes. We have a one of a kind evidenced-based program Healthier Campus Initiative® that has been utilized at Howard University since 2015 to reduce BMI and address food insecurity.

Past Performance:

Howard University, Bowie State and Cheyney University are 3 of the HBCUs out of nearly 80 colleges across the country that benefit.
