

MJS & Associates is offering

## The Summer Smorgasbord for Home Health Survival Services

A series of webinars will be presented by MJS clinical and reimbursement specialists to help home health providers navigate through the upcoming industry changes that are impacting practice NOW. The series will include 5 webinars that are scheduled for 60-90 minutes each. Attendees can pay one fee and pick and choose the webinars that are most important to your agency. You can choose one or all! It's up to you! We recommend that you consider a "lunch bunch" approach so that this can be considered in-service training to your team while you enjoy fellowship together. For this reason, all webinars are scheduled between the 11:00 and 1:00 timeframes.

As we are designing this series to meet in-service requirements while educating your staff on upcoming events, we are unable to offer Nursing CEs for this series. Certificates of Attendance will be provided based upon the sign-in sheets that you provide to us following the series. Administrator continuing education hours will be awarded.

---
