

## Air Purifier

### KJ580G-A03

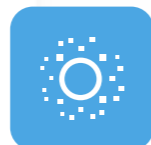

High CADR clean air output ratio

Mobile APP remote control

PM2.5 real-time air monitoring

Soft light atmosphere breathing light

Graphene antibacterial filter

UV LED germicidal lamp

Anion purification

Small light sensor at night

#### Features

##### Super motor

- Select Japan super energy-saving brushless DC motor, with longer service life and more stable performance

##### Breathing light

- Soft light breathing atmosphere light, real-time dynamic sensing of air quality (four color display)

##### Novel Filter

- Novel graphene nano-scale antibacterial filter

##### User-Friendly Design

- Smart night light sensor

##### Precision sensor

- Adopt precision laser sensor, overs peed sensing PM 2.5, dust and other harmful substances

##### Safety protection function

- Automatic power-off protection when the filter door is opened
- Automatic power-off protection against dumping

##### UV Lamp

- Ultraviolet LED (UV LED) germicidal energy-saving UV lamp

#### Parameter

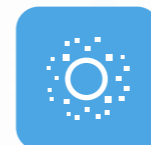

PM CADR	580 m³/h	Wind speed	4 speeds
PA CADR	180 m³/h	Noise	≤55 dB(A)
PM CCM	P4	Size	320L*320W*657H
PA CCM	F3	Net weight	9.5kg

Efficiently capture a variety of pollutants such as PA /influenza virus/bacteria. The anti-virus rate of H1N1 influenza is 99.46%, the sterilization rate is 99.99%, and the virus removal rate is 99.99%.

The removal rate of PA particles is as high as 99%. With UV LED germicidal ultraviolet lamp, it can capture and filter and decompose at the same time, lock or kill a variety of solid and gaseous pollutants.

Brushless Motor

Soft light atmosphere breathing light

Graphene antibacterial filter

Twin-turbo golden air duct

TVOC odor sensor

UV LED germicidal lamp

#### Features

##### Super Motor

- Select Japan super energy-saving brushless DC motor, with longer service life and more stable performance

##### Double-turbo duct

- Double-turbo golden air duct design, two-way purification and double purification of harmful pollution

##### Smart APP

- Smart APP mobile phone remote control, real-time purification with one "hand" control

##### Negative ions

- releases tens of millions of negative ions with one click

##### Precision sensor

- Adopt precision laser sensor, overs peed sensing PM 2.5, dust and other harmful substances

##### Efficiently decompose

- Efficiently capture a variety of pollutants such as PA, virus, PM2.5, and can also capture decompose, lock and filter a variety of solid and gaseous pollutants

##### Real-time monitoring

- Real-time monitoring of air temperature/humidity digital display

##### Safety protection function

- Multiple safety protection, functions-dumping/ opening/ fire automatic power-off protection

#### Parameter

PM CADR	750 m³/h	Wind speed	5 speeds
PA CADR	200 m³/h	Noise	≤60 dB(A)
PM CCM	P4	Size	356L*356W*720H
PA CCM	F4	Net weight	13kg
