WEB-ENABLED 2-WAY AUDIO/VIDEO ENTRY SYSTEM
Our Vandal-Resistant Design keeps your building SAFE.

VISION-1000
10" Touchscreen Entry System

Webb Electronics has pioneered a new entry system that will transform the access-system industry. The Webb Vision-1000 is a web-enabled entry access system specifically design for multi-residential buildings and office towers. Compact and modern, the Vision-1000 truly brings together form and function with a gesture-controlled touch screen, multi-lingual voice prompts and complete integration into the Webb Vision product line.

The Webb Vision-1000 features a bright high definition 10-inch screen while keeping a small footprint. Seamlessly integrated into the Webb Vision ecosystem, this model offers a cost-effective solution suitable for a wide range of applications.

The Vision-1000 has all the key security requirements you would expect from a state-of-the-art system including lobby door and/or elevator floor restrictions and scalability to incorporate future reader technologies. Optional features include mobile phone app integration for two-way video calling, parcel delivery and amenity booking and QR code temporary access for visitors.

VISION-1000

Vision-1000 Entry System

All events are logged with optional motion video and audio capture for every visitor Accessing the Entry Phone. The Resident may: Allow Lobby and/or Elevator Access or Reject the Caller via the App or a by pressing 6 or 9 for a conventional audio only call.

Communications

The Entry Phone provides three modes of communication, PSTN, VOIP and Cellular Services, thus permitting the lowest cost installation and highest possible features for any client. VOIP Permit unlimited simultaneous Voice and Video channels via the Webb Vision App.

Software

Browser based software ensures this product does not require any client software to be Installed on a PC and can be programmed by any PC, tablet, or phone Android or iOS. Changes to the directory maybe made on-site over a LAN or remote from the Internet. SaaS Cloud services are available to provide automated back-up and monitor the health of your Vision-1000. The issuance of QR codes to allow visitors and contractors temporary access is also seamlessly managed through the software.
